IGNITED MINDS

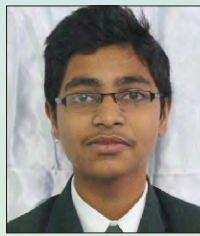

Expressions

Ignited minds is what we desire to achieve at DPS Tapi. As our students complete Class X they stand at life's crossroads with a better view of the chaotic and splendid experience called 'school'. Here are some of their voices as they transition into their next brilliant phase...

" The mind is not a vessel to be filled,
But a fire to be ignited "

Life at Second home 'DELHI PUBLIC SCHOOL TAPI'

People have been successful in putting the thoughts in our society, "the quality of schools does not matter at all, but the only thing that matters is the student." My personal experiences have proved this statement as wrong. It's difficult to describe my acceleration in classes 3 and 4 phase while joining the school in year 2009. My parents and I both have noticed satisfying improvement after joining this school. However it's true that student's will power and his aim to study matters a lot, but combined with it are the surroundings and guardians, is the school and teachers.

My expectations were null at initial stage since I was blank when I joined the school but later on, the greed grew for opportunities. These expectations were gradually fulfilled at DPS Tapi as there were less students in the beginning. This indirectly helped us to flourish and grab the opportunities and henceforth developed in academics and activities.

The school as the temple of knowledge imprints some best and at times some worst moments of life in our hearts. Winning multiple Olympiads, doing exceptionally well in studies combined with sports table-tennis, making new friends, appreciation from teachers etc. were some of the best moments. Further acquiring ranks, break-ups within friend circle and of-course at times sweet, bitter scoldings, are unforgettable moments to cherish. I will always be thankful to my school.

Kartiken Barnwal
Class X 2016-17

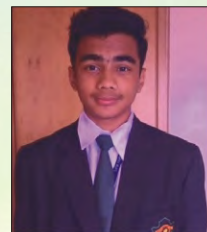

I joined DPS Tapi, in 2010 in class IV. But after joining this school my and my parents' expectations grew very high. My expectations from the school was that through this institution, I would learn to speak fluent English and indeed would interact well with the world and I am glad that I am far more refined compared to what I was, that's truly obliging. I am in this school since last 6 years and I have learnt things from this school. It was a great time in this school and I am very happy to be a part of this renowned educational organisation.

There are indefinite highlights which are attached to this school. Each year we celebrate different festivals and this is the only school where every student gets chance to participate in annual function and annual sports day. Each and every student gets an opportunity in Inter House and Inter School competitions. I consider this school as the only school which gives fair play with transparency in every event.

When I joined this school, I made many friends who helped me throughout my educational journey at DPS Tapi. I feel this school is my second home due to my friends and teachers.

I think that no one can get a better school than 'DPS Tapi' and I believe in the philosophy of DPS Tapi which says 'Discipline and hard work leads to success'.

The journey as a 'Dipsite' in DPS Tapi has been wondrous. The school is an ocean of knowledge where we are sailing like the tiny ships and the teachers as captains, mentoring and supporting us in all the ways. The teachers at DPS Tapi are the best teachers, I have experienced. I have not only gained knowledge but enriched my personality. I made many new friends who laughed with me in happy times and cried with me in my sad moments. We learn something new every day both in class and on the ground through academics and various activities. Principal Ma'am, Dr. Sanjukta Sivakumar also teaches us new things and helps us to understand different things. I can't pen down every thing otherwise it would be a book so I would like to say that DPS Tapi is the best school in the world and I mean it.

I joined here in the spring of 2011,
I stepped into the class, anxious and thrilled,
Wanted to make friends, to renew the old,
Had lots of difficulties, toasted and grouted.
I sailed with the flow, slow and slow,
Had lots of goals and ambitions un-fulfilled,
Needed discipline and determination, to achieve all.

Tried a lot and achieved some
Needed to cope up, to reach the rest,
Now, my journey, is going to end,
With certain ambitions and a lot to apprehend.

Kshitij Manchanda
Class X 2016-17

I came here in 2009
With the hope that this school will be fine,

But it turned out to be much more than expected
So, I never inspected...

This school has a great environment
All forms of nature are in its government

All the mentors, here are very caring and loving,
Guiding and helping in each and every thing.

This school has given us, a lot of opportunities
To correct our mistakes, and to use our virtues.

When I think of class 3, I really feel nostalgic
Everything seemed to be mystic and magic

With the school strength so low,
We could present our talents and perform the show with a glow,

I have really wonderful teachers here,
Who readily listen to me whenever I ask them to hear.

I will never forget any of my friends,
As each of them a great helping hand

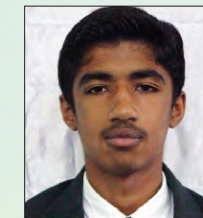

These memories will always remain with me!
These memories will always remain with me!

I had my amazing two years at DPS Tapi. I joined this school in IX standard. It has just been two years in this school, but it has nurtured me with many memories. When I joined this school I felt that it would be very difficult for me to adjust here but the people around me made it very simple and easy for me. The teachers here are understanding and supportive. This school has proved that it is a temple of knowledge. I enjoyed a lot in this school.

The teachers are inspiring, caring and understanding. Fortunately, I have made good friends. We got many opportunities, in both academics and activities too. I have treasured memories to cherish. I love my school very much and feel proud to be a 'DIPSITE'.

It is the golden period of my life, since the time of joining and now it's almost the time to bid 'Good bye'. For me the sweet memories of sweet school days, are the deep impressions of this school and unforgettable experiences. I spent six years of my childhood in this school, I still can feel my heart throbs on my first day in the year 2011. I have been very regular to school to attain the school and equally regular in studies. I study all the subjects, but I enjoy Mathematics the most. Since I have been the part of DPS Tapi, I gradually developed my likings towards sports have grown to be a good sportsman, a good skater and an athlete. I have bagged many medals. Though I am an average student, but very much satisfied with my achievements and the credit goes to all my devoted teachers.

I am in this school since the year 2011 that was, a memorable year for me as India won the Cricket World Cup too. I joined here in class V. My expectations were- a good result in studies in further years. But after coming to this school, along with studies I took over my potentials in sports by achieving lots of medals too. I play different sports like, cricket basketball, handball & football. This school gives plenty of opportunities to students in every field be in sports or studies, this school gives chance to everyone.

My journey at 'DPS Tapi', began from April 2011 and it has been almost 6 years, since I have joined here. I thought it would be a good school, but the environment which I got here made me change my thought from 'good school to an excellent school'.

I love 'DPS Tapi for only and only one good reason among many other reasons, that is the exposure to various events, activities and opportunities that I have got, inculcating discipline, ethics that has nurtured my character through significant platforms. Students in other schools may excel in just one or two things, but a school like DPS TAPI, with ample of opportunities digs out all the potential to make a student all-rounder.

As we all know that school is a 'Temple of knowledge', but DPSTAPI, is a 'Temple of knowledge and Discipline'. In my school, we aren't just taught to acquire knowledge, but also to cope up and overcome difficulties in all walks of life courageously and positively to outshine in this fast growing competitive world.

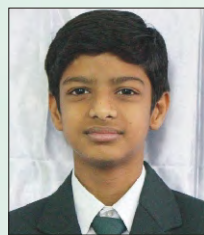

I have developed excellent bonding with my friends and we are all known for the class unity. I once told my parents that their decision of getting me in this school is perfectly correct. It is an amazing experience being the student of 'DPS TAPI'.

Apurva Singh
Class X 2016-17

2013 was my first year at 'DPS TAPI'. Joining DPS TAPI was a dream and this would fulfill all my other dreams and goals. While joining, I just had one thought in my mind that my journey would start from DPS Tapi and this is the place which would make me realize my dreams, passions, truth and hard-work. I still remember my first annual function in which I played four roles in one drama and since then all my four annual functions at DPS TAPI were remarkable. This was my last year and I proudly performed my role of Chatrapati Shivaji Maharaj, This year 2016-2017, we, the girls of DPS TAPI, made first DPS Tapi girls football team and reached third level at Khel Mahakhumb. I love DPS TAPI because it supports us at every level as we grow up. I love my school that gave me such a wonderful journey. Thanks DPS TAPI.

Class X 2016-17

My life at 'DPS Tapi' began in 2009 when I first joined the school in class III. It was the first year of school and mine too. There were around 12 students in a class. Long, fruitful and treasurable school journey here at 'DPS Tapi' makes me feel proud to be a 'DIPSITE'.

Our school celebrates every function weather, its annual function, sports day, Navratri etc. and it has also been hosting many camps like astronomy camp, and sports camps etc. I have been a keen participant of all of these events. I have had many memorable days.

Priyansh Singhal
Class X 2016-17

My life at DPS-TAPI has been an adventurous journey of life. I joined here in 2013 in class VII, and I feel at present the long thought changing process that I underwent, has changed my ideas in studies, sports etc. There were a few memorable days that I have treasured in this school life, the day when we had moved to class IX from class VIII, the small party held in which our teachers also joined us. I think that these days getting a school, where in both studies and sports walk hand in hand simultaneously is very difficult and DPS-TAPI is one of the school which follows this curriculum most enthusiastically. I had got many opportunity even in those activities in which I never expected. My music talent, dance, etc. have improved to great extent where I can perform to the best of my potential anywhere, anytime with confidence. I am very grateful to all my teachers for taking the effort to dig out my talents. The manners, the great friendly environment, and the excellent opportunities provided by this school are what make me adore my school DPS TAPI.

Finally, I would like to conclude that this school has fulfilled all my expectations in academics as well as in sports and other activities. I would really miss my school. This is my last year, but I would really not be able to forget those wonderful memories where are teacher scolded, as well as the unity of friendship etc. the great time we had with our teachers and friends together.

Life is all about learning, but school life is a presentation to face the challenges that the higher school called the world will offer us once we are out from here.

The school therefore has an extra great influence on us. They shape our character and mould our mantel attitude and also furnish the basic principles of life. For many of us school days are the happiest and the best days of our life. The very memory of school fills our minds with nostalgic thoughts of happy days. I study at DPS Tapi, one of the best schools in Surat. My school commences at 9:00 am with an assembly in the name of god, and the students boarding buses at 2:15 pm our day ends. It's a long duration, but will small breaks and activity periods we never feel bored. Environment club, Astronomy club, Social clubs etc. ae a very active part in my school matches, tournaments, cultural programmes, competitions, picnics make my school more lively interesting and enjoyable. This school has really crossed my expectations by providing students things at par. The key function of my school and Annual Sports Day, Teacher's day, Children's day, Founder's day etc. The best part is a lot of opportunities nurturing the overall development of students inborn talent and activities. The seven years constituting my school life are without doubt the best year of my life.

Nandini Barnwal
Class X 2016-17

I joined DPS Tapi in 2009,
By seeing its good sign,
I had taken admission with others in line and
Now I feel my decision was firm and fine.

I made good friends.
Who are now my strength,
I admire my teachers
For handling all the creatures.

Teachers are the one who hold my hand if I ever
drown,
And my friends are the one who act as clown,
I make mistakes,
But they forgive me for my sake.

This school makes me feel like its magic,
And hence my life here can never be tragic,
I have spent here eight years of my journey,
Its all about the memories
Because I see nothing,
Nothing but life at DPS Tapi.

My journey at 'DPS TAPI', till date has been awesome. As school is the 'Temple of knowledge', DPS Tapi, has proved it true. I joined this school from very beginning, when it was yet in its roots, and I have observed it gradually grow and establish since the year 2009. I was in class III when I joined this school. I have always received love, care and support of my teachers, and I have often noticed a parental concern in their gestures. I have equally got ample opportunities to enhance my skills and groom my personality. No words can ever define the gratitude that behold in the depth of my heart.

Simran Singh Rajput
Class X 2016-17

School is a temple of knowledge . Though I took admission in class IX, but this short period is filled with plenty of pleasant vibrant colourful memories.

Before joining this school, I heard a lot about the school. DPS Tapi was known to be a school the best sports facilities and indeed, an excellent team of mentors. One of the things that attracted me towards the school is the extravagant sparrow court, long corridors, basketball court, swimming pool all not just proper, but perfect. Not only the facilities, but also the teachers and the staff members, all-inclusive makes me feel homely. The teachers are all very kind, humble and truly generous. During my first week of school I was reserved, but at first but as time passed, I became familiar with all. Not only all the fun, I also treasure the sweet and bitter moments with my friends during the school periods, during sports periods and best of all, opportunities. We participated in each and every activity. I feel blessed here at DPS Tapi.

So, If I would like to sum up my experience, I would just say: SUPERB!

Medical Check-up

DPS Tapi organized a Medical Camp for all students on 4 and 5 August 2016 for dental, eye and general health, by the team of Jarma Doctors. Detailed Medical Reports were provided to all students.

Adolescent Health Workshops

Select students from DPS Tapi attended an Adolescence Workshop on 2 July 2016 conducted by Rotary Club, Surat. Specialist doctors and lecturers imparted knowledge about adolescence. These DPST students conducted follow-up workshops at school for Classes VIII-X on 18 July 2016 on balanced diet, exercise, healthy relationships, and on substance abuse and sexual abuse. These workshops provided students with extensive awareness and also a platform for sharing information.

DPS Birding Club

Class VI students joined the DPS Birding Club on 1-2 December 2016 with a talk on bird genus, species, structure, habits, breeding patterns and habitats, followed by a bird-watching session with binoculars under the guidance of Mr. G.R. Sivakumar.

Garden Week

School gardens are a wonderful way to use the schoolyard as a classroom, reconnect students with the natural world and the true source of their food. Garden Week was observed at Pre Primary and Primary levels from 1-6 August 2016. Pre Primary students brought life through window plants. Classes I-IV observed bottle garden week with different planting techniques. Classes V were very

excited and enthusiastic as they planted fruits and veggies in the school garden and learned actual agricultural process. The children enjoyed the week and learnt many new things about the gardening. It was an integrated learning approach where they learned about the agricultural process along with the importance of farmers in their life. The follow activity was the vegetable harvesting where students harvested the vegetables and distributed to utility staff of the school based on lottery. They experienced the joy of sharing in the lap of the nature.

Good Luck Party

A Good Luck Party was thrown on 18 February 2017 for the Class X students appearing the CBSE Final Exam. Students of class IX presented music and dance to add fun in the event. They exhibited their affection by showing an iMovie and presenting mementos to their seniors.

Experiential Nature Trips

Teethal

Away from chaos of city life, the students of Class III went on an experiential learning trip to Teethal on 21 January 2017. They visited the Swaminarayan and Sai Baba temples. The Students were mesmerized by its scenic splendor but really disappointed by the garbage spread over the place by tourists. They discussed the effect of littering around plastic waste on environment and derived solutions how they can contribute in keeping their surroundings clean.

Jyotindra Dave Garden

The tiny tots of Pre-Nursery visited the Jyotindra Dave Garden on 24 January 2017 on an outing with their classmates and teachers and enjoyed the free play time with scrumptious meal.

Dandi Beach and Gandhi Ashram

Students of Class II visited Dandi Beach and Gandhi Ashram on 7 January 2017 and learned about the values of Mahatma Gandhi. They played and made the sand castles on the beach.

Unique Birthday Celebration

My birthday is as unique as I am. My school has set an extra ordinary way to celebrate our birthday. We plant sapling every year in our school garden and regularly give water to it. The plants give us fruits, vegetables and most of all fresh oxygen from which we all are benefited. Lots of plants reduce air pollution.

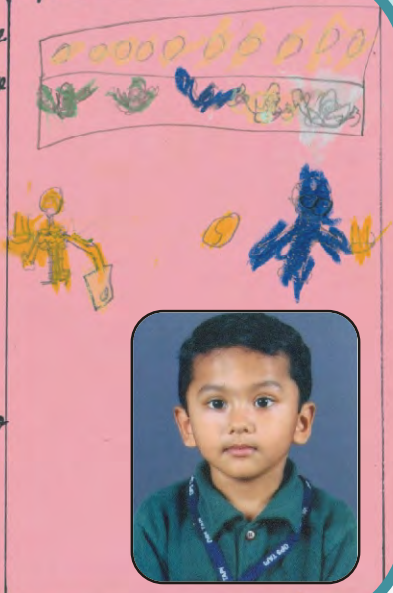

This unique way of celebration is totally pollution free. I am very thankful to my school for changing my view of celebration. I am eagerly waiting for my next eco-friendly birthday celebration.

Excursion to Teethal

My journey started from Vanita Vishram. When I reached Vanita Vishram I could see all my friends eagerly waited for me. Before moving to bus mam took our roll call. Then we moved in to the bus. In bus I seated with my two friends named Neer and Jahaan. In bus many of my friends were singing songs. Then we were played some games and had lots of fun.

Then we went to a park. In that park we ate some wafers and then we played catchum-catch. Then we ate our lunch. After that we went to the beach and played with sand and made beautiful sand castle and enjoyed the day. I liked my excursion to Teethal very much and the learning experience that I had on that will remain in my heart for together.

Excursion to Teethal

My excursion to Teethal was announced on 21-1-17. I was awake before my alarm started ringing. I was so happy. My mother cooked my favourite food and gave me my favourite food in my tiffin box. I took my breakfast and then I and my sister and mother left for Vanita Vishram ground. We reached there at 7:40am. We started our journey to Teethal at 8'o clock, in the bus we sang songs, played with ball and did fun. We reached the Sai Baba Mandir and took blessings. We played in the park of the Mandir. We enjoyed their very much. We again started from there and reached Teethal. Finally we reached Teethal where I played with my friends. We made sand castles, played with flying-disk and ate some snacks.

At last the time came when we were supposed to leave from Teethal. I and my friends including all my classmates enjoyed a lot and we will never forget the time where we enjoyed with our teachers.

Best out of Waste

I have made a paper cup animal with waste materials. It is very useful for keeping my pencils and colours. For said craft following material are required: paper cup, paper sheet, pipe, cleaner and pint tool scissor, glue marker and pen. Take a paper cup and paint it orange for the tiger, let it dry. Now take a pipe cleaner and cut into 2 pieces of 1.5 inch for the ear and another 5 inch for tail. Once the base paint is dried paint the stripes body, nose and mouth. Keep it aside to dry. Now take a sheet and cut the eyes and finish the same and stick it on cup. Lastly take orange pipe cleaner and stick it on the time of study.

Best out of Waste

In my school we had a task to make things using waste material. I decided to make photo frame from cardboard and newspaper first. I have cut the cardboard in rectangle shape. Then I make thin rolls of newspaper and stick 3 newspaper each side I have black colour on newspaper and in the cardboard I have green colour and to decorate it I have stick beads on it and to hang it I have sticked ribbon on it and it came out beautiful and it is hand in my room.

Dhunn Gupta, III B

Best out of Waste

As we all know in "Best out of Waste" we are making best things out of waste things like photo frame of pasta, photo frame of newspaper rolls, pencil stand of newspaper, pencil stand of candy sticks, etc. But from this I like photo frame of pasta the most.

So now I will explain it, how to make, what we will need, use of that for that we need a piece of cardboard, expired pasta, water colour, a photo which you want to keep on the frame. Now I will tell how to make, take the expired pasta and colour it with water colour, then take the cardboard and cut it in horizontal so on and vertical so on also. Now keep the photo in that space. It is useful. When we are throwing and wasting things. So, don't waste things, make anything from that, think and increase your mind.

Bhakti Dhameliya, III B

Best out of Waste

Best out of Waste is very important part of human life since many years. It is a human creative mind which gives birth to this excellent craft. This excellent craft is using unwanted things to make in useful way to make new things. Best out of waste not only teaches to recycle but encourage our creativity. In today's world recycling is a very important part of human life. Lots of things around us is labelled as dump can be collected and recycled for making useful things. Its help us to make our future generation.

In our school there was a week for best out of waste. We made lots of things like a plastic bottle rocket we make it by taking a square bottle coloured white then take two cardboard rolls and stick it back and keep some bottle caps and it is ready.

My Favourite Sport's Person

My favourite sport's person is Sania Mirza. She was born on 15th November 1986. She is an Indian Tennis player. In 2004 She got Arjuna award by Indian Government. In 2005 She won Grand Slam. She is the first Indian woman to win Grand Slam title. I like that she won the Grand Slam. I also want to win the Grand Slam and want to be famous.

Anshi Singh, III B

My Favourite Sport's Person

My favourite sport's person is M.S. Dhoni. He had took retirement from captainship of Indian cricket team. But he was the best captain in Indian cricket team. He was a good wicket-keeper but he turned out the best batsman in Indian team. He worked in Indian Railways before he joint Indian cricket team. He was born at Ranchi on 7th July, 1981. Under his captainship team India had won many titles like others. He has a record of maximum wins in Test, ODI, ICC and others. I love "CAPTAIN COOL".

Excursion to Teethal

On 21st January, 2017 our class went to Teethal for an excursion. We started at 8.00 O'clock in the morning from Vanita Vishram. I was very excited and thrilled. After an hour our bus stopped for a breakfast break. The sandwiches and cupcakes we ate were very delicious. We again started our journey and reached to Teethal. At Teethal our first stop was Sai Baba's Temple. Sai Baba's statue was very beautiful. We played on the temple ground. Finally we reached to the beach. We took our lunch before going on the sand. As we all were hungry we ate Pav-Bhaji, Pulav, Gulab-Jamun and Salad. On the sand we made castle, well and wrote our names. We also played with frizbee, ball with all the friends and our class teacher. After playing a lot and having so much fun it was time to go back. I enjoyed the trip very much.

Aarna Gahlot, III B

Excursion to Teethal

We reached teethal at 11.30 am. I saw two temples at teethal. One is Sai Baba and one is Swami Narayan Temple. Ma'am clicked many photos. I saw train track and many temples and ma'am gave us muffins to eat. And I saw many rides and my friends brought cricket, frizbee, ball and many things to play. When we reached teethal beach we made temple with sand and water. Then we ate lunch pav-bhaji, pulav and gulab-jamun. We play antakshari in bus. I enjoyed the trip too much.

Our Annual Function

We celebrate our annual function every year which is always incredible. I hope that this year our annual function will be also incredible. Every year we get one topic and this year our topic was "Bharat ka Veer Rana".

Our respected dance teacher taught us a dance related to our topic. Our annual function this time was on 24 December 2016. Before that we practiced very hard and our dance was ready for the performance.

Finally, that day came. I was very excited but also very nervous. On the day of the Annual Function, I wore my dress. Then I realized that I was not able to remove my previous earrings the earrings were given by the school. So I decided to go to the nearest jeweler. I went to the nearest jeweler with my dad on the scooter. I was already too late. I came back home, I wore my dress again. I ate my breakfast only half and went to stop. After some time we all came to know that the bus has already left the stop, because our stop name was written on the backside of the page which our bus teacher was having.

So my father called at the school reception and talked about it. So the school sent a van to our stop. We all sat in the van and went to the auditorium. We went to our respective room.

Our dance performance was late so we waited till that. We enjoyed dancing a lot. Our parents came there to watch the show. It was the fantastic time ever. I love it.

First Night Camp

I enjoyed my first night camp. Firstly, when I was sitting in the bus I was thinking what would happen, and then finally I reached the school. We came to the ground for the photograph after the photograph we started doing the activities. The first one was to catch the fish, second one to target the glass third one to a tent and the last one were to make the hut. In these activities 1 and half hour went by. After that the chance came for the snacks. The items offered in the snacks were Paneer Pokada, Samosa and Juices. Then we went to the terrace. Sir told us about planets and stars. We had some competition. We made a Sandwich. After that we danced a lot. Then we ate our dinner and went in the dance room and waited for 15-20min. After that we went for the campfire for 5-10min, and then we danced again. Then finally we came back to the dance room to sleep but I and my friend slept at 1o'clock in the night as we had so many things to discuss. We all woke up at 7o'clock in the morning. We all went down at 7:30 because all took time to brush their teeth and changing their clothes. Then we ate our breakfast. The items offered in breakfast were sandwiches, Pakoda, Vada and etc. After that we got some gifts and sat in the buses and ready to go back home. I really enjoyed my night camp. It will remain my most memorable day ever.

Annual Function:

The day for the performance has arrived in front of the audience. This is my first Annual Function in this school. Dancing is my favourite activity and I like to dance very much since my childhood. Nearly before four weeks from the day of our annual function we started our dance practice. On the first day we went to our dance room and our dance mam told us our places. Next day mam taught us some steps. On that day only we come to know that our dance name is "Maharana Pratap". Our dance ma'am played the song on which we have to dance and I like it very much. In few days we learnt all the steps of our dance. Then we went to AV room for practicing with proper sound system. After our full dance was over with proper position of everyone, we practiced on school stage in front of our Principal ma'am. Our Principal ma'am liked our dance very much and appreciated us. Before two days of our annual function we perform on the stage of Sanjivkumar auditorium for final practice where we came to know that our performance will be at 7th or 8th position on the day of the function. We had some snacks and back to home. On the day of our annual function we all gathered and done our makeup in the makeup room. Then we went to perform our dance. From the stage I saw my father, mother, brother and grandparents who came to see my performance. They all liked it very much so I was very happy for the function. Then I went back home with my family.

Annual Function:

Variety is the spice of life. Life without feasts and celebration is charmless and lifeless. So is true incase of school life. Without functions and celebration school life becomes monotonous and uninteresting. Therefore, almost all the school has certain Annual Function. Such as, Annual sports day, Mother's and Father's Day, Teacher's day, etc. These celebrations add colours and charm to school life.

Recently my school celebrated Annual Function on dated 24th December. A lot of preparations precede the function. We have gone two days before for stage rehearsal. We have reached before two hours at Sanjeevkumar Auditorium at the day of function. "Rajya Se SwarajTak" was our theme. I have participated in Musical Band. Auditorium had opened for everybody at 02.30 pm. The function started at sharp 03.00 pm. The Vidhya Deepam was done by Principal mam, grandparents and parents. After that principal mam had given welcome speech and said few words. Our senior had done anchoring and started the programme. First was our Musical Band after that the different king's performance was there. The first one was Voyage to Indus valley. Everybody has represented the kings of different state. Some students made Dandi March with Gandhiji on stage. Our event was going to the end. Senior had done drama of king Porus-legend of Ancient India. After the drama got over, everybody raised up for National Anthem. I am sure everyone went away with sweet and pleasant memories of the day, well planned and enjoyed.

First Night Camp

I was very much excited for my first night camp. We reached our school. Our teachers told us go to ramp 3 and keep your bags up we went quickly but we saw many mattresses for sleeping there were pillows also. I don't know what to do because it was my first night camp. Teachers were our guide. After that we went down there our groups were being made. I was in first group. After our groups were made everyone was called in the ground for photograph after photograph we have done some activities we have learn how to make a tents? After that we made tents of wood, after that we have done fishing but there was only one fish in the tub, after it we have to hit a thermocol glass with a pencil shooter. After that we were very hungry we went to eat evening snacks there was samosa and soup in evening snacks after it we went up for seeing stars and planets through telescopes. After that we went down for sandwich making competition and our group won in that. After it we have done dance after dance we have dinner. We went to see the camp fire. We sang songs we danced, after that we went for sleeping. In the morning we brushed our teeth and went down. We had our breakfast. After that we went for football practice and done some exercises. Our teacher called us at the assembly hall we got gifts. We returned home in the bus. My first night camp experience was awesome. I liked my first night camp.

Annual Function:

In our annual function we have fun. We do many things like singing, dancing, drama, etc. Some are in music and some are in dance. This year I was in dance. Our topic was "Mevad ka Veer Maharana Pratap" It was my best annual function. We celebrate our annual function every year like a festival, with all my friends and teachers. We prepare for it allot. Our family and friends come and appreciate our hard work. Our annual function has great themes. Our teachers help us by working hard on thinking and preparing about annual function. I wish I be part of each and every annual function.

Navaratri at My School

Navaratri is one of the major festival in India . The word navaratri means 9 nights. In these 9 nights and 10 days, 9 forms of Goddess Durga are worshipped. People perform a dance known as GARBA.

This year Navaratri was celebrated on 1st October to 10th October 2016. In our school DPS TAPI we celebrate all festivals together. This year we celebrated Navaratri on 1st October from 9:00 am to 1:00 pm.

Programme started with deep pragatya and principal speech. We all dressed very beautifully. Girls wore Chaniya-choli & dupata with traditional ornaments . Boys wore kurta-pajama. Everyone were looking fabulous. Parents also participated in the celebration and they all were very happy about it as there was a competition held for them as well. I was a participant of JALAM house. We all danced well but the winner house was BHUMI house. We liked to dance on 'SANEDO' at last. Then prize distribution and medals were given and we all dispersed. It was an indeed the most memorable Navratri celebration I ever had.

Yashvi Bhutwala, IV B

Navratri at my school

Navratri is a Goddess Durga's festival. 'Nav' means nine and 'ratri' means night. We celebrate Navratri the precious festival of Gujarat at school by various ways: We celebrated Navratri at school on 1st October 2016 Saturday. All participants wore chaniya choli and traditional ornaments. Theme of our garba was ancient time garba (Prachin style) and also present time garba (Arvachin style). We first did Arti of goddess Durga and started our Navratri celebration. We did competition of garba in six groups. We played garba on ground and enjoyed. There was rain after sometime of beginning of our competition of Garba, but we enjoyed our Garba in rain (Rain dance). Then gifts and certificates were distributed. Then we played lots of garba continuously and had lots of fun. Parents also came to see our Navratri celebration, they also danced along with the students and had lots of fun. This was my first Navratri celebration at DPS Tapi and I enjoyed a lot.

Navratri at my school

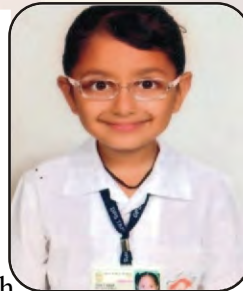

When Navratri was celebrated in my school, everyone was in traditional dress. All the teachers and students wore colourful dresses. Everyone was very happy and doing Garba. Even our parents came to see us. We enjoyed a lot. A Garba competition was also held. From our six houses, three houses did Prachin dance and three did Arvachin dance. Prachin garba is not doing with any props and whole Indian style and Arvachin garba is we can use props and some Indian as well as some western steps is included in it. There was a competition held for parents as well as teachers. They too enjoyed the Garba. At last winners got certificates. I also got one of them in juniors. It was a lot of fun. I still remember that day. "HAPPY NAVRATRI"

Navratri at my school

Navratri is a famous and all time favourite festival in Gujarat. My school also celebrates Navratri every year in the school campus. All teachers and students come in traditional dress. My school also invited parents at school for Navratri. The function started with Aarti of Goddess Durga and then Garba dance. As soon as we started performing there was all of a sudden rain and we all enjoyed doing garba in the rain. Then the celebration continued in our sparrow court. There was also a Garba competition between houses and at last school gave the certificates to the winners. I enjoy Navratri at school because our parents also come and they are involved in the garba dance. I enjoy the Navratri celebration of my school the most because all the teachers and students actively participate in it.

Our Annual function

Every year our school celebrates annual function. Our school arranges annual function around in the month of December . Every body is excited to perform for annual function. This year our annual function was in 'Sanjiv Kumar Auditorium'. Our whole show was about ancient India. In that, my dance was based on Marathas. We were preparing for annual function since a month ago. We wore different costumes to perform dance. My costume was of a Britisher. My dance had three different songs related to Maratha leaders. Our this year's annual function was held on 24th December 2016. I loved my dance. Everyone liked our dance. I was very scared to perform on stage and all the parents were in front of the stage as an audience. I was very excited when we completed our dance. Every one was clapping very proudly. I didn't liked to be a Britisher, but it was a part of dance and it was fun. There were six students like me who became Britishers in our dance. Our dance was second last. I was very bored so I wanted to go home but I had a great time with my classmates there. Finally the show was over. We waved bye to everyone and went off to home. It was a great show and I enjoyed a lot.

Our Annual function

We have our annual function every year in December. It has lots of fun and joy. There are various theme-based dance items which are performed by students of various classes from Pre-nursery to class X. Even little champs of Pre-nursery to Prep classes performed tremendously. There were some dramas too, performed by students of higher classes. Our event was based on the theme of "The Great Marathas". It was about the contribution and sacrifice of Marathas in our independence. Girls were given costumes of Marathi sarees and boys were given Marathi traditional dress. We were doing practice of our event before many days of annual function. We had used Lazims (musical instrument) also in our performance. Rehearsal was done in auditorium on the previous day. On the day of annual function, our parents had also come. All students performed very nicely their role. We all enjoyed a lot. And now I am eagerly waiting for our school's next annual function to come. It was a very successful show and the credit goes to all the teachers and students who practiced so well.

Ariba Momin, IV B

Our Annual function

Our annual function was on 24th December 2016. Our theme of the function was 'RAJYA SE SWARAJ TAK'. There were 11 dances in the annual function. Our dance was Maratha and it was about Bajirao Peshwa and other Marathi leaders like Chattrapati Shivaji and Rani Laxmibai. All the dances had group of students from various other classes. The teachers were very kind and helpful to us. We did the preparations in the school. All the classes had got a room to prepare the dance. We prepared a lot and we enjoyed the annual function. We went in the bus to attend the annual function as it was held in Sanjivkumar Auditorium. There were many dances and music shows. Principal ma'am liked all the dances and music shows a lot. We got 10 minutes to eat our food and we enjoyed a lot. Then, when it was our chance to perform the dance in front of our parents that time I was very nervous but our dance was liked by everyone and the audience gave a huge round of applause for it. And finally, after all the dances and drama it was time to go home. It was a very unforgettable moment for me.

Aastha Patel, IV B

Our Annual function

Our Annual Function happens every year in the month of December and held in Sanjeev Kumar Auditorium made by SMC (Surat Municipal Corporation). It is held for classes Pre-nursery to class X. Each and every class gets different topics. This year our topic was Indian mythology in that classes III to VII got the theme of 'Rajya se Swarajtak'. Our topic in Rajya se Swarajtak was Maratha! In that we the students of class IV-B had a dance on Marathi heroes of Indian mythology. The dance was on PeswaBajirao, Rani Laxmibai and Chhatarpati Shivaji. Actually our Annual Function has drama, dance, skits etc. Our Annual Function checks our confidence, accuracy, how we remember our dance steps, dialogues etc. in front of our parents. All the classes have lots and lots of fun. We prepare for this big day before one month of its starting. I would love to have this day every year in which I could dance, sing, act and do many more things with my class. And will have fun with my class every year. And I'm still eagerly waiting for our next Annual Function.

My first night camp

One day, when I was sitting on my table and writing in my maths workbook, suddenly our class teacher went outside and brought many papers. Everyone in our class curiously asked "Ma'am, what are they?" She replied - "These are your night camp circulars". The entire class was cheering in excitement. Then she distributed them to everyone. After I reached home I asked my mother to sign the paper. She said "ok". The next day I submitted the circular to my class teacher. I was very very excited. Finally on 3rd December 2016, I was all ready for the night camp. When the bus came to pick me up , I said "good bye" to my mother. We reached there at 5o'clock in the evening. Then the allotment of rooms was done. After that we played many games and did many activities. After that a sandwich making competition was held. We all enjoyed so much. At night we enjoyed campfire and DJ. We all rocked on the dance beats. Then the teachers made us identify many stars and planets through the help of telescope. Then we were ready to sleep. In the morning after waking up, we sat in the bus and went home. At home I told my mother all about the night camp. It was full of fun as well as we learned many new things about the stars and planets. I will always remember my night camp as it was my first night camp.

My First Night Camp

In term C for fourth and fifth classes our school arranges a night camp. On 3rd December 2016 we had our night camp. When we reached at school, first we kept our bags in the room which was allotted to us and went down to enjoy. When we went down we clicked some photos then we

did many activities. The activities were fishing, hitting the cup, making hut and tents. Then we went up to our room and we relaxed for five minutes until then it was evening time. Then again we went down and there we saw there were many vegetables, slices of bread, butter and many more things that we require for making a sandwich. We asked our teacher what is this? She replied, "We are going to do sandwich making competition. We all jumped in joy and excitement. Then we did dance and campfire was also done. We all had a great fun. Then our teacher instructed us to form a line and go on the terrace to see the planets, stars and moon. So it was a time for sky gazing through telescope. We all were very happy. After that, we came down and we danced and then we went to our respective rooms to sleep. Then we slept and early morning we went home and we got many gifts from our principal and we all were very happy

Maths Mela

This was my first 'Maths Mela'. In Maths Mela my partner was Yashvi. Our topic was 'Fractions'. Our Maths teacher explained us and gave some hints so our work became more easier. We divided our work, my work was to bring information about 'different kinds of fractions'. Next day I was surprised to see our fractions chart. It was some 3D fractions because Yashvi had got work to bring fractions. I took the chart and started making borders. Then we made some paper springs to make the fractions more 3D and we stucked and coloured the fractions, now our chart was ready and it was shining like a diamond, just we had to prepare our speech means the information which we had to speak about fractions. On Maths Mela day I was so excited that I couldn't wait for parents to come, all stalls were looking beautiful when the parents came, I got nervous, but we explained them fractions very well and we played a fractional game with them and when they won the game we gave them medals which were made by us a part of take away. We enjoyed a lot and I would like to thank our Maths teacher for all the help, ideas and support she gave us.

Maths Mela

Every year in our school, Maths Mela is organised to show our Maths skills to visiting parents. Apart from Maths, charts in Hindi, Gujarati and Sanskrit games are played in class which are directly or indirectly related to Maths.

I personally started with Gujarati game. Our class was decorated with different kinds of Maths, Gujarati, Hindi and Sanskrit charts and slogans.

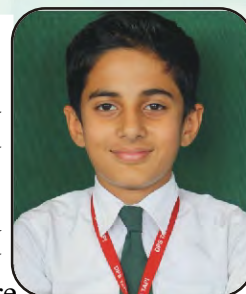

Our Maths Mela was very interesting and full of fun. Every student in our class helped each other to prepare for it. We showed different and easy methods of calculation without using calculators. Different divisions of Class V showed different presentations to visiting parents in the classrooms.

We also had a PPT on Dr. Arya Bhatta who invented " $0\{0\}$ " and we also discussed and learned about his contributions to "Maths" subject. It was a real fun mela of education. All the students enjoyed and learned a lot.

Yaksh Mehta, V A

Maths Mela

Do you know what is tomorrow? Tomorrow is Maths mela. I like this day as I learn many new things. We enjoy doing this every year with entire school taking part. Every year my school is decorated very nicely especially in the assembly area. On this day our parents are invited in our school to see the presentations made by us. We prepare many presentations, models and charts related to our Maths topics. And in this way all our chapters related to Maths are covered and we learn it in a practical way. We also discuss in groups about the topics. Everyone enjoys this day. We need to make our own groups and discuss that who will speak what about the topic. Our Maths teacher help us by providing us chart papers and proper topics to present on. To do this kind of work is very interesting. We too learn so much information about the words which we have never heard in our life. Maths is very fun doing like this. We also do many experiments related to Maths. We celebrate this day as half of the students in our school like doing maths. So friends, at the last I would like to say that take part in every field of education.

Maths Mela

Maths mela happens every year to show children how maths can be learned and explained in a fun and easy way. Every year parents are invited to see how their children are learning maths and children of all classes prepares an exhibition for them too. In this exhibition they make charts, models, presentations and many other things and present those in front of their parents. It is great fun for them to participate in this maths mela, I personally think maths mela is an amazing concept to tell children about maths. Because maths is very important thing in life. And for that matter science is also a different form of maths as they both are connected to each other, maths is everywhere in life like science. I think it is a very good opportunity for children to learn maths. At the end of the exhibition the judges come to all classes and then everybody goes to other classes to see their presentations. In our class we had a presentation on everything we learnt and I got an equivalent fraction hop scotch game. Everybody was playing that game and liked it too much, especially my parents. Our some topics were equivalent fractions, 2D and 3D shapes, volume, sides, vertex, angles and their applications. And speed, distance and time was also one of our topic. We also handled a story made by our Maths 'Rangomertri Kit' and last but not the least we had a presentation on the very famous Maths personality Arya Bhatta. And after the parents visit was over we all went to different classes to see other presentations and they also did the same. We all had a great time in Maths mela, together we had a blast and the day ended giving us joyful memories to cherish for long.

Upasana Mukherjee, V A

Maths Mela

Maths is not only a subject through which we learn calculations. Mathematics helps us in our daily lives with things like making bills, transactions, designing etc. Maths is the queen of science and the language of nature. Maths Mela in our school is a great event in which we learn concepts of maths, prepare charts on it and present it.

Our Maths Mela was fabulous. We all love maths and things related to maths. In this year's Maths Mela, I got the topic 'Fractions' and my partner was Hitaishi. We both enjoyed preparing for our presentation and collecting information from various places. In my class, students got various topics to work on, like angles, shapes, fractions etc. In my topic, I included like and unlike fractions, proper and improper fractions, equivalent fractions.

Even parents were invited to see our exhibition and display. We made a presentation in the class. Parents gave feedback to us regarding Maths Mela.

We even went to visit other classes where we played a lot of mathematical games and solved puzzles.

Yashvi Khandelwal, V A

Maths Mela

In Maths-Mela, we do a presentation on a topic of Maths. It is organised every year to make understand all the concepts of Maths and how they are used in day to day life and also how to make difficult concepts easy.

This year, me and my two friends presented on SYMMETRY. In symmetry, initially we were finding difficult how to explain symmetry in day to day life but then one day, one of my team member was trying to solve a puzzle, it was symmetrical when he solved one half of it, and he found it easy to make other half.

A question has come to your mind that for who do we do these hard work? We do it for ourselves and for our parents. We do it to show them that we can make difficult concepts easy and the topic given to us is clearly understood by us. Our parents also give us suggestions.

It was a great experience this year and waiting for many such Mathsmelas like this as my fear towards Mathematics subject has just vanished away.

Spandan Shah, V A

Maths Mela

Math Mela! It is very interesting. I like this day very much because we can know about many things. Firstly our teacher distributed the charts. Then we sit in our group and discuss. After that we start making chart. After two days our parents came to see work and we explain them how to play and what is the concept. Then we go to another class to see their charts and play games. We come to know about many new words and concepts related to Maths. Math Mela is a very educational program. We can know about fractions, decimals, shapes, etc. I had got the equivalent fraction as my topic. Math is very interesting subject and we use it in our daily life. We can also do many experiments. Sumit and Jeet were my partners in presentation. We spend the majority of time in our school in study and learning the concepts of it. It is said that Mathematics is gate and key of the science.

Maths is full of fun, with so much to learn.

Profit are added, while losses are subtracted.

Degrees are multiplied, and percentages are divided.

Geometry is full of mystery, Algebra has a big history,

Integers are as difficult as brother and lines are parallel sisters. I will do this every year. Maths is fun like this!

Excursion to Dharampur

That morning I woke up very early, got ready and went to Vanita Vishram ground with my father. When I reached there I discovered I had come earlier than the others. I saw very few people were there and half of them were from other classes. We all waited for the bus patiently. Inside I was excited, anxious and curious. I wondered what the place will be like!

The bus finally arrived and I boarded the bus first. It took us a boring three hours to reach our destination. We went inside the planetarium through the parking place. I was in doubt that the place may turn out to be a boring one but when I reached there I found the place quite amusing. As I took some steps ahead I discovered a beautiful garden full of different experiments, greenery and a very realistic looking dinosaur statue. We all sat down there and took our break to eat our breakfast. And then again continued to explore the bizarre and unexpected things we wouldn't think of being there.

We saw some unexpected experiment, a scary 3D show and a very cool planetarium. Then we played and played in the garden and tried all the experiments. And the children tried to run from a sprinkler. It was fun.

And finally it was time to go. I was a little upset as I was not in a mood to leave so soon but we had to go. But during our way back to home we boys had so much fun at the back seat of the bus. We talked, played and laughed to our heart contained. As we reached Surat I said bye to my friends and went back home with a very happy heart. An unfogetable trip to Dharampur.

Excursion to Dharampur

Whenever any child goes for a picnic he feels very excited. Same way when my class teacher told that we are going to Dharampur, I was also very excited as I had already heard many interesting things about Dharampur from my senior school friends. When the day came, I was also very excited; I took all the necessary required things eatables, drinks and some games to play. I had taken games like football, badminton and chess.

Early morning at 7:30 my father dropped me at Vanita Vishram. We had board our respective buses. My friends were also there in the bus. We all friends shouted with excitement and happiness when our bus started. We played games like Uno, Antakshri and passed our journey of three hours with lots of fun. Then we reached Dharampur. Our sir was clicking photographs of everyone. We saw the science centre in Dharampur. There were many live experiments. We did all the experiments like Half you half me, currents, which is better etc. It was a great adventure watching the animals which we normally cannot see in the city like rabbit, peacocks, monkeys etc. We all friends shared and ate our food among the beauty of nature. After eating our lunch we played for some time. At 3:30 we again got into the bus so that we can reach on time to Surat as our parents would be waiting for us. My father too was waiting for me. I waved my hand and got down from the bus saying goodbye to my teachers and friends and went back home. But I can never forget this trip.

It was the most memorable trip.

Excursion to Dharampur

I went on an excursion to Dharampur with my class teacher and classmates. We went to Dharampur on 17th December 2016. We sat in the bus at 7:30 am and the bus dispersal time was at 8:00 am. On the way there were so many fruits and vegetable vendors. Then we played UNO and played antakshari. We enjoyed the bus journey very much. It took 3 hours to reach there. We reached at 11:00am there. Our class teacher went to buy tickets. First we made a line and then we went to freshen up. We clicked many photos also. Then we ate our food and we went to play for some time. Some interesting places around were also a part of our excursion. We saw rabbits, peacocks, tortoise etc. Then we went to see galaxy video. We saw about the stars, Sun and Moon. It took half- an hour. Then we went to see a 3D show. A man gave us 3D goggles. Then we went to see science centre. We had done so much enjoyment. After seeing everything we again went to our place and we played and clicked photos. And we went to see some science related experiments. We boarded the bus back at 2:00pm. Before going to bus we filled our water bottles. We went home and it took around 3 hours. And we reached Surat at 5:00pm.

Last but not the least it was an unforgettable trip.

Excursion to Dharampur

First we got the circular of trip to Dharampur. All the students were very excited to go. It was written that those who are going to come they have to reach Vanita Vishram. Mostly whole class was there except for two or three.

We started our trip at 8:00a.m sharp. As we started our trip for some time we were talking with our friends and then we started playing Antankshari. We enjoyed a lot. I asked sir, "Sir, how much time it will take to reach Dharampur?" He said "It will take at least 3 hours to reach our destination".

As we reached our destination sir clicked a group photo first. Then we took a break and we all started playing different types of science games. Afterwards we went to planetorium. It was much exciting but it was bit scary for me! Then we saw different types of animals. We had taken many games to play like badminton and chess. We all had our lunch together and it was good sharing my food with my friends. At around 3:00pm we left from there and finally reached back to Surat by 5:00pm. I thanked my class teacher for such an amazing trip and for all the arrangements that were made for us!!!

Excursion to Dharampur

On 17th December 2016, we went to Dharampur. The trip was organized by our school only for class V students. It was an educational trip about science. We gathered near Vanita Vishram ground to get into our buses. We were accompanied by our teachers.

It took approximately 2 hours to reach Dharampur from Surat by bus. We were getting bored in the bus, so we played Antakshari. We thoroughly enjoyed it. After reaching Dharampur's Auditorium, we had our lunch. Then we went to the Planetorium, we saw an interesting video about the space. After that we went to see 3D science show. It was a great experience. I was amused by the show. We also did so many other activities & saw many new things. We did many experiments to learn basic concepts of science. We enjoyed and learned so many things from the trip. It was a fun filled learning experience. I am looking forward to many more excursions like this.

Vegetable Gardening

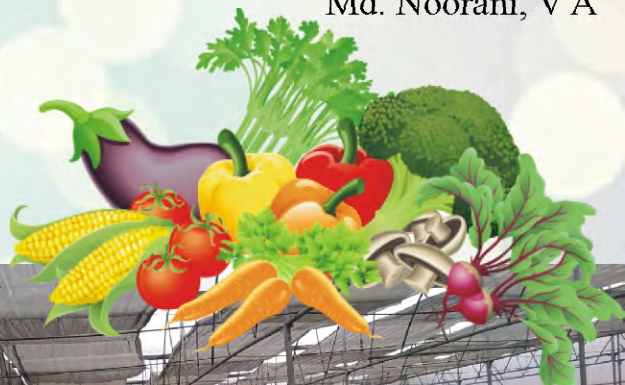

The first expression which came on my face after listening about vegetable gardening from my class teacher was excitement. Some of the students had lot of queries regarding the same and my EVS teacher explained about it to us in detail. She explained the whole process and gave us all the instructions about how to do vegetable gardening. Vegetable gardening took place near the sports complex of DPS Tapi. One of the gardener from our school was our tutor. He told us how to sow the seed and explained us the whole process which made us very comfortable while growing of vegetables. First the gardener taught us, then we tried. We were grouped according to our roll numbers. We were overjoyed after doing it. Gardener watered the plants every day. Day by day the vegetable grew nice. Though it needs a lot of patience to see them grow because it takes atleast one month for growing of vegetables. The spinach, ladyfingers, bottle gourd etc. were ready.

Our teacher told us that we are going to harvest the vegetables. Then, we had a lottery. The lottery contained different utility staff (working in our school). One student would pick a chit. The name which came in the chit, we gave it to that person. One day our class teacher made Palak Paneer with our vegetables. She gave us a surprise. Next, our English teacher made a tasty Handva and served us. The two dishes were too tasty. We were very happy with our hardwork and we wouldn't miss the Palak Paneer and Handva.

Overall it was a fun learning experience.

Vegetable Gardening

One day my class teacher said about vegetable gardening process that we all would do in the school. We all were very happy and excited about it. We grew vegetables in our school. Our teacher made our groups according to our roll numbers. We grew many vegetables like bitter gourd, bottle gourd, rich gourd, carrots, lady fingers, spinach etc. First we dug the ground and put one to two seeds in one of the hole at some distance. Then we covered the hole with some soil.

The gardener sprinkled water every day. We harvested the vegetables. Our principle ma'am gave us a nice idea to do a lottery and to allot the vegetables. They cooked the vegetables and also brought some nice dishes for us. Our teachers and some didi made some food items and gave it to us for eating in class. I learned the importance of growing vegetables and also how to maintain greenery around the world which will help in controlling air pollution.

Minnoli Saxena, V A

Vegetable Gardening

It is very important to grow vegetables because we eat them to survive. From food we get energy & from energy we can do all the activities. There was a project of growing vegetables in our class. We all were very happy to do vegetable gardening but its not an easy process. It takes lot of time to grow vegetables. So one must have patience to while the whole process comes to an end. We did lottery for school workers, whose name comes in lottery process we give vegetables to them. Some time they made some nice dish out of it and give it to us to eat. Once our teachers took the vegetables & made :-Palak -Paneer, Chana-daal and Handva. She gave us & other class students too.

There are some steps to be followed to grow vegetables and they are dig the soil, put seeds, close the seeds with soil, give water and see that the plant is getting enough sunlight. See it after few days you can see a tiny plant. You can see the plants grow proper if you give them regular supply water & sunlight. Our hardwork gave out good results and we all enjoyed the fruits of it.

As you sow, so shall you reap.

Vegetable Gardening

Kind hearts are the garden,
Kind words are the roots,
Kind thoughts are the flowers,
Kind deeds are the fruits,
Best health is the green vegetables,

I remember those weeks when we planted vegetables in our school garden. We planted spinach, bottle gourd, bitter gourd, rich gourd, carrot and lady fingers. We planted all these vegetables with the help of our class students and teacher. The whole process of sowing the seeds, watering the plants and seeing to that it gets enough sunlight was taken care by us with the help of a gardener. After 2-3 weeks we harvested our vegetables. Then our teacher suggested us that we should give it to the people who work in our school. So we did lottery for them and whenever we harvested we did lottery and gave vegetables to them whose name come up. Our class teacher made spinach subji [palak paneer] and our English teacher had made handva from bottle gourd for us.

It was a very good learning experience and I came to know the importance of growing vegetables and here my heart says a poem and it goes like this:

In the garden,
Pull the weeds,
Dig the hole,
Plant the seed!
Cover them up,
Water them too,
Watch them grow,
In front of you!
Make sure the sprouts
Get lots of sun,
To grow a plant
Is tone of fun.

Excursion to Dharampur

Before the trip I had a discussion with my father about Dharampur trip, my father expressed a list of things about that place, because he had visited Dharampur earlier. He told some points about the planetarium, 3D show and Science elements discovered by famous scientists eg: Issac Newton, C V Raman, Homi Bhabha etc.

Our trip started on 17 December, we all were very glad for this Educational Learning trip and we were going to board the bus and we were very excited about this, I expressed a lot of things to my friends as my father told. We played many things through our journey just like: Antakshari, Dumshera, Uno and many more. We were travelling through Surat-Mumbai highway.

As we reached our destination our escort teachers Mrs. Aasefa Hakim, ShamaPatil, Ketan Shukla were with us, they instructed us to have a short break for refreshment. Thereafter we played football as our friends brought sports equipment with them. First we went to see constellations, then we went to see the planetarium it was marvellous and it lasted in 15 minutes but the main 3D show was to come, there were very scary moments too but it was awesome then we also tested the Science elements it was totally unbelievable the experience was fantastic.

We expressed gratitude to our teachers for organizing such amazing and prestigious trip and we all enjoyed a lot on that particular day. I also consider this trip as one of the memorable trip ever.....

Excursion to Dharampur

On 17th December 2016 I was sitting in the bus with my friends playing quiz and we were going for an excursion to Dharampur. It was 3 hours destination from Surat. Finally we reached. I took a deap breath and was flabbergasted! Seeing the science centre. The place was very beautiful! There were many canopy of trees. I was feeling that I was alone enjoying. Then we all played, ate and shared. We saw the beautiful peacock, peahen, swans, rabbits, hamsters etc. Now, it was a fun part to go to planetarium. In that there were decliner seats, dome shaped ceiling to show the movie of satelites, comets, stars and planets. There was even an AC hall and black colour decoration done on wall.

I was happy that I got a chance to go. The last but not the least we saw 3D movie. I was sitting in the 1st place. We saw 2 movies one was "the master of magic" in that the man did magic with spices. oh! My god it was so scary! the other was "the fish world". It was amazing! beautiful and nice! Now, it was time to do the main thing science experiments used in olden days. like: there was a slide to measure volume, a pipe to hear the echo of sound, the pipe was very long. They made drawing from flour. It was fun! I tried it. There were many activities but now it was time to return.

Excursion to Dharampur

I jumped with excitement and was really happy when our teacher told us that we were going to an excursion trip to Dharampur! On 17th of December both of our classes were waiting for the buses and were filled with lots of energy and enthusiasm! Our lovely teachers Shama mam and Aasifa mam came with us on the trip, we had a lots of fun with them. I and my friends were little upset as our class teacher Meetal mam couldn't join us. We played a lot of games on our way to Dharampur. On our way we saw a lots of greenery and lovely flowers on the highway. The weather was pleasant. On reaching our destination we saw a lovely garden and we were eager to know about the place.

Then we got off the bus and started exploring Dharampur. We had our breakfast and after the refreshments we went to the planetarium, over there we saw an informative movie on planets and satellites. The seats were pushed back and we could lean on them. After the planetarium we went to see adventurous 3-D movie. I sat on the second row so it was quite scary. We were really thrilled to see it. Finally it started, We were with our specs on! The view was really beautiful. We could see the whole underwater world. I was feeling as I was in the movie with the fishes, plants, flowers and sea creatures. Now it was time for the second movie, in that there was a scientist exploring many things. He even explored a snake. I was really scared when it came towards me with his mouth open! We were frightened, our teachers also got scared. After the movie we visited the science center, where there were many experiments and scientific discovery! Then we went to the garden and had a lot of fun playing. In the garden we even saw some science modals for examples inclined plains, pully and many more. We saw many animals in a cage near by-rabbits, monkeys, love birds and colourful peacocks. Now finally it was time to go back so we headed towards the bus with our bags. We reached Surat at 5.00 pm and departed from there.

It was really a memorable and enjoyable trip! I really had lots of fun!!

Excursion to Dharampur

I went to Dharampur with my classmates. I was very excited! When we reached there, first we ate our snacks. Then we clicked some photos and started to play for some time. Then we visited the Museum, over there we saw skeletons, Body parts, 3-d movie and Animals body. After that we saw a chair, there were some pins sticked to the chair and down it was written 'who ever will sit on this chair he will die in just 3 to 4 minutes'. I thought it must be fake but it was not fake. Then we started to play in the funfair. I was thinking to go to my house and share all things with my family members. After some time we visited a huge garden. The garden was so beautiful and it was filled with green grass we saw some trees and how plants are giving us food and we saw a huge monkey it was a statue it was looking like a real monkey . I was enjoying my lovely trip. Our teacher said come lets go back. And like this way our trip ended. A wonderful and memorable trip it was.

Excursion to Dharampur

We went to Dharampur on 17th December. For Dharampur trip we went first at Vanita Vishram from there the bus had picked us and we started our journey. It took three hours to reach there. When we reached Dharampur first we took group photo with our teachers. Then we went to eat our lunch, after lunch we played there, then we went to the planetarium there we saw different types of planets and satellites. From there we went to Science Center there we saw 3D shows. There were two types of shows:

1. Fish
2. Magic show

After finishing 3D shows there were some science experiments of eyes, tongue and many more. After science experiments we got free time for playing and we played with a ball. There was a fountain and we got some free time for playing there, we got somewhat wet due to the water sprinkling from that fountain. And there were many types of birds- lovebirds, colourful parrots, peacocks, crane and many more. It was time to go back home. I said good bye to everyone and then shared my fun filled experience with all my family members. This trip to Dharampur was most enjoyable and memorable.

Maths Mela

Maths Mela! It is again the time of the year when we'll have fun with maths. This mela enthusiasts me about learning maths with fun and also explains me how important is maths in everyday life. This removes the feeling of being apprehensive and dispenses 'maths' phobia. Maths Mela is just like a mela but with stalls related to maths. It helps to increase mathematical, logical and critical thinking skills. It also clears our concepts without hassle which happens when learning directly from books. This year our topics were shapes(3D&2D), fraction, area, perimeter, symmetry, angles, fraction games, Rangometry and arithmetic games. A drama was also performed by a group of students in our class. My topic was fraction. We all were very happy to prepare models, charts and projects for the class decoration. Some of the unique projects were the angle's clock, Oreo representation of fractions, snakes & ladders based on fractions, fraction hopscotch and protractor door mat. Above all, the maths mela was an enriching and mesmerising experience for all of us and I'll always remember these melas for their uniqueness and fun way to express maths as an interesting subject.

Pritika Sinharay, V B

Maths Mela

Maths is the mother of all subjects. How is it related to every subject? How do we apply Maths concepts in our daily routine? How does Maths help in solving problems in everyday life? All these questions were answered by us in this year's Maths Mela.

Maths Mela is organised in our school from Class I to IX. We invite parents in our school and explain them various topics regarding Maths and its applications in everyday world with models and charts.

This year, we got the chance to show a wide range of Maths applications such as:

How to find distance, time and speed.

How to recognise angles by rotating the arms of a clock.

Various innovative methods to show geography, electricity and light in Maths.

The relation between various units and how to convert one unit to other.

Area and perimeter with the help of a thermocol model of our school and its surroundings.

2-D and 3-D shapes, and where we can see them.

Patterns and symmetry, and where in our surroundings it is observed.

We also entertained parents by several games and activities such as:

A hopscotch game to explain the concept of equivalent fractions.

A multiplication car racing game in Gujarati category.

A skit showed by using shapes from our Rangometry (shapes kit).

A fraction game with our fraction kit.

After we had prepared all the charts and models, our parents came to see the Maths Mela. My mother enjoyed the fair very much.

It is like an exhibition to visit each class at the time of Maths Mela, which gives extensive knowledge about the profound subject of Maths. It was a really great experience for me. Maths Mela vanishes all our fears about Maths and assures young mathematicians in the future.

Teerth Shah, V B

Maths Mela

Maths Mela is organized every year in our school, class wise.

Our Maths teacher divided us in groups of two to five. Our group was asked to make puzzles and games on 'Fraction' and 'Area and Perimeter'.

All of us decorated our class day before the Maths Mela. Two of my friends made a small house from blocks and asked the parents, to find the area and perimeter of the house. Few of my other friends presented a drama related to maths and the concept was 'Chess'. We all made an enlarged game and gave some options or answers on the sheet and then we asked some questions for which parents had to tick the correct answer. They all were given a limited time in the game.

Some of the parents couldn't answer our tricky questions, we were feeling thrilled to see that! Our teacher asked me and my partner to bring shopping bills to stick for the bulletin board. All the parents appreciated us and our Math teacher for the Math Mela. So, like this our Maths Mela ended with lots of learning as well as fun...

Sanidhya Bajaj , V B

Maths Mela

Maths Mela is a special event in our school. It is about learning maths with fun. All classes take part in this mela. It was on 3rd September. In Maths Mela we all were divided into groups and given topics. All the topics were about maths like math games, angles, area and perimeter, fraction etc. We made charts for our topics and decorated our boards and class. Parents, teachers and principal mam, all came to see our presentation. We had learnt our speeches. This year it was lots of fun. There was a hopscotch game too. My topic was 'Angles and where they're found.' My partner was Snigdha Sree. It was really nice to meet all the parents. In Maths Mela half of our syllabus was covered. Maths is really fun doing like this!!!

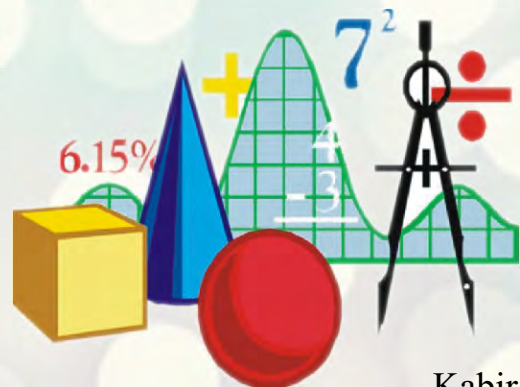

Rutvi Mevawala, V B

Maths Mela

Every year our school organizes a Maths mela. Our entire school participates in it. We have to decorate our classes and represent to our parents and they also feel good. We have a drama based on maths. Every year we do something new and this year we had 3D shapes, area and perimeter, speed, distance, time, and many more topics were covered in the form of presentations, models and games. This time I and my partner had done a game based on Maths in Gujarati language. Everyone enjoyed playing our game. Parents were very happy seeing their children performing something based on Maths and making an interesting presentations on all the topics related to Maths. We also feel very happy to explain Maths related concepts. And we love to do Maths mela every year as it makes the subject more interesting and fun loving.

Shwet Sojitra, V B

Kabir Kaludi, V B

Maths Mela

Maths Melahas fun, games and learning parts. In that there are many games which we play and charts for having some good knowledge about Maths. In this melaour Maths teacher guided the students and divided in many groups and gave us many topics like symmetry, 2D and 3D shapes, perimeter and many more. But my topic was symmetry and I made a chart and stuck on the board. After we finish with all our presentations and models, parents of all the students come and see what we have done and they asks us questions based on the topics given to us. We answer them and we explain them about the Maths concepts in an easy manner. Then at the end we make them play few games like hop scotch and many more when they finish seeing the presentations. We take the charts back to home and enjoy a lot. We share our experience with other family members and tell everything that what we did in our Maths Mela. Maths subject is there every year in all the classes. We do it with lots of fun and enjoyment. Entire school participates in it and makes it a learning and successful event.

Vegetable Gardening

We all have studied and learnt about benefits of vegetables. Vegetables are essential for a nutritious and balanced diet. We see lot of fresh vegetables around us, but never realize how actually they are grown. My school gave me an opportunity to grow vegetables on my own and it was such a wonderful experience.

Khushi Kumar, V B

Vegetables grown by me and my friends were hundred percent organic i.e. they were pesticides free. Thus, they are very natural and nutritious. I would like to share the procedure we went through to grow the vegetables.

All the students were assisted by special gardener and our helpful teachers. We were provided with seeds of various vegetables and fruits like apple, bottle gourd, spinach, cauliflower etc. We planted the seeds by digging the soil. We were trained to plant the seed in proper pattern in order to get great results. The crops were then watered by all of us.

Gradually, the plants grew and we got fresh veggies in our school garden. The teachers cut few vegetables and prepared delicious food items for all the students. We really enjoyed them. The vegetables were also distributed to the gardening and house keeping staff of our school.

Vegetable gardening was indeed a wonderful experience and it also made me realize the value of farming.

Vegetable Gardening

I really love gardening and most importantly I like to plant seeds of fruits, vegetables and flowers. Today, I am going to tell you how I planted my favourite plants. At first, in EVS period, we went for planting seeds. I planted five types of seeds - Cherry tomato, Lady's finger, Bottle-gourd, Gemfrena flower and Moon flower. The fragrance of all the flowers was so nice.

Dhruv Barnwal, VI A

I regularly watered them whenever I went to the Sports Complex. As I watered them, the gardeners who helped us also put manures regularly. Gradually plants grew big and nice. The gardeners who helped us, cut the grown-up vegetables.

I must tell you that a game of lottery was played in our school for masis and bhaiyas who work in our school. Many of them won the game and took the vegetables home as prize and enjoyed it's natural flavour. But when the vegetables grew second time, it were given to our teachers - Meetal Ma'am and Aasifa Ma'am. They had to cook something and bring it to school. Meetal Ma'am cooked Handva and Aasifa Ma'amcooked Palak Paneer. They both served us the delicious Handva andPalakPaneer. Vegetables they cooked were very nice and tasty.

We really enjoyed the yummy and tasty preparations. I really liked the entire process right from sowing the seed to enjoying the cooked, yummy preparations. The whole experience brought me closer to nature and Mother Earth. We also learnt that our teachers are not only good at guiding us, but also at preparing delicious foods. I loved the entire event which will remain memorable for me.

World Aids Day

World Aids Day is celebrated on 23 October. AIDS is deadly disease. When someone is the victim of AIDS, it is almost impossible to save him, as no cure is found for AIDS till now. AIDS Day is celebrated to remember the people who are the victim of AIDS once and for all.

Nishant Tahiliani, VI A

How does AIDS virus work in our body? The virus attacks our defense system which disables our body to fight back. Scientists are still finding a method to eradicate the virus. Because there is still no cure found for this deadly disease. Even if someone does find a cure, It would be very hard to spread the vaccine throughout the world.

World's AIDS day is not our celebration, but remembering the people who are living with this deadliest disease.

Vegetable Gardening

It was a bright morning when our class teacher instructed us to grow a vegetables in our school. Actually, we had a choice for this, I mean that our EVS teacher gave us many different-different types of plants to grow. Just like bottle guard, okra(ladyfinger), cauliflower, spinach, potato and many more. I grewokra plant with the help of my teacher. She explained us how to do it and explained us in simple words like:

Mohsin Hunani, V B

'Vegetable gardening is a process of converting a seed into a plant or a tree. For this we need to dig the ground properly than put the seeds and then put back the sand on the seeds. Then everyday it must be watered properly. Then after few days we'll get the result of our hard work with a sapling.' For all this process there was one gardener who helped us a lot. Under his guidance we could grow many other vegetables like bottlegourd, bittergourd, cherry tomatoes etc. This is how even we grew our vegetables and after the success our teachers made a lavish dish out of it and we all students joyfully ate it.

It was an indeed a learning and a very good experience.

My First Exam

In my first exam I was extremely nervous; I did not want to go in that exam. In my school exams starts from 6th Standard, so I have never prepared myself for giving any exam. I was very nervous as I was giving the exam for first time, even though I studied hard for the first paper.

Before exams I made many excuses to my parents. First I told them that I have stomach ache, they refused because they knew I was acting. Then I told I am feeling like vomiting but they refused. Finally I went to attend the exam, but I forgot my pencil box, I went to my school's reception and made a call to my parents. I narrated them everything but they thought I was lying, then I told them to check my book shelf so they got to know that I am telling the truth. My father took the pencil box and hurried to school in our car. I successfully got my pencil box before time. I attended the exam and I got full marks because I had prepared very well. I got so much appreciation from everybody. Now, I am not afraid of exams anymore.

Senior Citizen Day

Ageing is not LOST YOUTH. It's a new stage of opportunity and strength.

1st October is the day celebrated for Senior Citizens worldwide to show support, honour and appreciation to the people above 60. We also recognize the achievements and contributions they had made for us.

It was first organized by the U.S. President Franklin Roosevelt in 1935. On 14th December 1990, UN General Assembly declared that the first observance of Senior Citizens day should be on 1st October 1991. Since that day it is celebrated every year on 1st October with great enthusiasm. Every year there is theme for celebrating Senior Citizens day. The theme for Celebrating Senior Citizens Day for the year 2016 was "AGE IS JUST A NUMBER"

This year I've also celebrated Senior Citizens Day with my elderly relatives and with my Grandparents by organizing a whole day program for them. It was a great fun and we enjoyed a lot on that day. In the morning we all went to our nearby garden. There we talked about the achievements each member had made in his life. We also played some games and done some exercise. On the way back home by car we talked about great senior citizens who had contributed a lot for the society. After we reached home we ate our breakfast, played Antakshari and enjoyed some time playing video games. I'd ordered a cake for the elder people and for my family. In the evening, we cut the cake and we all ate it. It was very tasty. After few time, we went to restaurant. It was a great joy spending time with experienced elderly people. This is how I celebrated Senior Citizens day this year. People from different parts of the world celebrate it in a different way.

For all they have done throughout their life, and continue to do for the society. We owe our thanks to them and a heartfelt salute.

Aditya Kumar, VI A

My First Exam

My first exam was of English. It was FA-1 on 30th April. First 3 chapters were coming. I had prepared very well but on the last movement I thought that I don't know anything. I was really afraid to give this exam. But after sometime my mind cooled and I started thinking positively. The exam was very easy but I thought I Couldn't get good marks or What will happen if I will fail in the exam?

N. Aditi, VI A

After the exam we were discussing the answers and most of my answers were right. On the day when the Ma'am was showing us the marks I got 26 (Twenty Six Marks). I went home and then told to my mother. She was happy because it was my first exam and I got this much marks.

My mother told me that we get afraid nothing is going to happen. We should only study properly.

Then after that I also thought I should not be afraid of any exam, instead all the students who writes an exam should be positive and believe in their own potentials.

Senior Citizen

Senior Citizen are people over the age of 65.. Senior Citizens are the most experienced citizens of the country. Senior Citizen are one who are curious very to learn about the new things happening around them. They are get extra facilities given by the government. Its all because they had worked for their country for years and has given their valuable contribution in all spheres of life. Its our pleasure to support senior citizens. Nowadays we don't understand the importance of senior citizens in our life.

They are the one who motivates us, they give us courage and inspiration to get something in our life. They are the one who lead us in all our difficulties without demanding much from us. In turn, we should also respect and care for their hidden feelings

World Aids Day

The red ribbon is a global symbol of HIV World Aids day and is celebrated on 1st December every year. It's an opportunity for people to fight against HIV and People living with HIV.

There are many scientific treatments made for people living with HIV, any many laws are made to prevent AIDS. Despite this in UK over 6000 People are diagnosed with HIV.

HIV Aids always remind people and government that it's not gone yet. So more and more awareness should be spread about the disease and people should help the local government to fight back against this disease.

"HIV / AIDS is not a gift so don't present it to others"

Senior Citizen Day

Senior Citizen day is special day when we thank our elders like Grandma, grandpa. We the children of Delhi Public School Tapi has also organized a special assembly. We arranged different programs to observe the importance of this day. The girls danced on a beautiful song saying, "Thank You Grandma, Thank you Grandpa am so very glad you're in my life. Some children acted as senior citizen and were sitting on the chair throughout the program. We have learning point and Q&A too. All of us enjoyed very much and Danced with beautiful ribbons made by us. We went to one of our friends house and practiced our full dance. We enjoyed and done some mischief also. I really felt happy and give my special thanks to all the Senior Citizens.

Bird Watching

"Binoculars, and a hawk-like vigilance, reduce the disadvantage of narrow minded human vision."- these beautiful lines inspire us a lot on birding of Mr. J.A Baker.

We have had a bird watching session this year in Class 6. The great Bird Watcher and nature lover Mr. G.R. Sivakumar, the Director of Delhi Public School - Surat gave us an inspiration or an idea of bird watching.

To go for the bird watching he first taught and showed the information and photos or picture of beautiful birds sitting, flying, eating, catching its prey, playing, feeding, hatching, breeding etc. Some of the common birds he guided were Common Stonechat, Sunbird, Robin, Pied Bush Chat, Great Egret, Yellow Footed Pigeon, Common Kingfisher, Indian Kingfisher, Red avadavat, Whistling ducks etc. Having returned home, I shared the same with my parents. My father asked me that he could be the participant for the same. I shook my head and told him that I think so; you may join after confirming with my school.

After few days our class teacher conveyed us great news of that we are required to come early next morning for bird watching. We were excited.

The next day we reached school. Sir provided us the basic equipment, which is needed for bird watching like binoculars, a field book and a notebook for recording names and place of sightings etc.

We were only 6. My father joined us too. We went off in a village Tena & Pinjarat about 4 to 5 km away from my school. There was a pond there where we saw many birds. The ducks whistling, a couple of dancing Sarus Crane, a group of Robin flying up in the big blue sky, a breeding Juvenile, a female Stone Chat protecting its young ones and many more birds. It felt like we were lost in a world of birds. After observing the birds about 45 minutes to 1 hour we started returning.

On the way of returning we many common kingfisher and Indian Kingfisher sitting on high voltage transmission line above canals and enjoying their food the fish.

This interactive tour gave us a lot of information and a visual training on the stunning and attractive birds. We learned a large number of things during this session.

World Aids Day

World Aids Day is held on 1st December each year and is an opportunity to unite in the fight against HIV, to commemorate people in HIV World. Aids day is first ever global healthy day which was started first in 1988.

Over 100000 people are living with HIV in U.K. Globally there is an estimate of 35 million people living with virus. Despite the only being identified in 1984 more than 25 million people have died because of HIV or AIDS, making it one of the most destructive paramedic in history.

World Aids Day is important because it reminds the public and government that HIV has not been completely eradicated there is still a vital need to raise money, increase awareness, fight, prejudice and improve education.

Senior Citizen Day

21st August, is celebrated as Senior Citizen Day. Some people celebrate Senior Citizens Day on August 14 as it was the day past US president Franklin Roosevelt signed the Social Security Act in 1935. However, in 1988 Ronald Reagan, who was the US president at the time, declared August 21 to be National Senior Citizens Day.

This day is to help and examine the issues, faced by the senior citizens and to analyze how important they are? Well that's a difficult task because without them, without their experience we can't learn anything, without them we can't know the definition of love and affection. In fact they are the definition of love and affection. Without them it is not possible to live because each and every senior citizen is special in their way, some may be pilots or Navy Officers in their past. Some made great names for their country.

All they need is a few words of appreciation and love from us.

Dhiraj Lalwani, VI B

Senior Citizen Day

Senior Citizen day is also known as Grandparents day. Many adults keep their old parents alone instead of giving them joy. I don't know much about this day but one time we also celebrated Senior Citizens day. On that day we decided to go out with our grandparents and make them feel happy. At night we went to a 5 star Hotel for dinner. The Dinner was delicious.

While coming back home My Grandpa saw an old man struggling with cold, and he was alone. My grandpa told to stop the car and he went out to give him a blanket and some food for eating.

So my friends this is the way I celebrated the Senior Citizens Day. Senior Citizen day is not only for our Grandparents it is for all of the senior citizen also. We should help them instead of torturing them. Most of the times our elders or our grandparents are right, so when they direct us don't be angry on them. Listen to what they have to say.

Nana and Nani both are best for ever n ever.

World Aids Day

World Aids Day is dedicated for the people who are suffering from HIV Infection. It is a harmful infection. World Aids Day is held on 1st December. It is organized since 1999. From 1999 2012 2 Millions of people died because of HIV and there are still many people who are living with HIV.

The colour red was chosen for its 'connection to blood and the idea of passion. It is a symbol of solidarity and a commitment to the fight against HIV/AIDS. Till 2015 approximately 80 millions of people have died. 20 thousands of them are children.

If someone has HIV Infection, we should behave politely and be very kind to them. We should not ignore them or think that if we talk to them or be with them or touch them we will be infected with it.

World Aids Day

World Aids Day is celebrated in the month of December. Children get donations from people (Children with AIDS) all over the world. There are plenty of organizations which gives huge donations for the people suffering from HIV/AIDS

This was started by the U.N (United Nations). People having this disease are unlucky but U.N, which made it possible for people and children to get rid of this disease. The WWF network gave the highest donation, which is a billion dollars. People had given a huge amount of donation to help the people suffering with AIDS. Please help them by giving these small donations. It can save a million lives.

Senior Citizen Day

Senior Citizen Day is celebrated on 14th June. It is an occasion to raise awareness of supporting older people and recognizing their achievements.. It is the age when a person again becomes a Child. It is age above 50 years. It is the age in which we need the caring and enjoyment. On Senior Citizen Day we had a special assembly in our school.

We as their kids sometimes leave them in this age, when they really need us. We keep them in an old age home or Nature Home instead of spending quality time with them. In this age they feel really even with the smallest words of appreciation. They are like flowers, when they grow older we have to keep them safely otherwise they get stale.

Most of Senior Citizen of the world are our grandparents. They have a group known as: Young Birds". In garden they meet and have laughing sessions especially during the morning. I just love Senior Citizen.

The government has also given some special privileges such as not to stand in line, have reserved seat, concession during travelling and many more.

I request each one to keep senior Citizen lovingly because "THEY ARE TOO CUTE".

"How Wonderful it is to know u
To learn from your experience,
So, thank u Grandpa, Thank U Grandma,
I'm so very glad u are in my life."

Technology For Teens

Technology is becoming a very important part of our lives. Everyone's life is incomplete without technology. Especially the young generation is becoming the most important user of technology. Technology is very useful for students. It is used in our school in all the possible ways like ipads, computers, smart boards, television etc. Students can easily learn through visuals from educational videos and games. Not only students, everyone is getting benefits from technology. We can connect with a person sitting in the other corner of the world within just a few minutes. Technology is a boon for everyone.

But while we are connecting with the outer world, we are forgetting our true family and friends. Technology is leading us to spend less time with our family and friends. We are eager to connect with the outer world but at the same time we forget our well-wishers. Everyone is busy on their smartphones and not able to spend time with family. So in another way technology is taking away our friends and family.

Technology For Teens

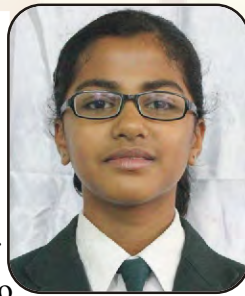

Now a days, technology is our used in out new generation. Now a day, there are very good and new coming technology. Today, each and every people from children to the adults are fond of technology. There are different uses of each and every technology. There are many advantages and disadvantages of technology. The advantages are that it saves paper, new apps helps us more, we can easily have a check that what's going around the world, we can ask Google about anything, in hospitals, the new technology is saving the life of the people, It is also used in school for studying. Therefore, it is having the disadvantages like it harms our eyesight, as you know that today people are playing, using and using technology full day which doesn't allow the children to play outdoor games and they can't do their exercises and they can't focus on their studying.

Kaviata Fest:

Delhi public school Tapi and surat organized a fest of poetry or so called as "Kavita Fest" on 25,26 and 27 of November. There were many famous poet who performed their memorable poetry on the stage. And there was a golden opportunity for the students of both Delhi public school Tapi and surat to present their poetry on the stage, few students from Delhi public were given this auspicious stage to present their poetry on 27 of November. We began our practice before two weeks of our performance, we had worked very hard with principal ma'am, as our teacher guiding us. We were made many corrections on the style of speaking and on our body language. We had our early morn practice with ma'am in the cabin. For the two weeks we were just focusing on our poetry. Principal ma'am had many hopes and faith on us, finally the day came, 27 of November. We were quite nervous to be presented on such a gracious stage, but we could recite our fabulous poetry by Indian poets by looking at the fellow audience. And we just Made it! As soon as we all sixteen completed ours poems we had a standing ovation by the audience. We could see the affection towards us by our dear principal who worked on us like a guardian, like a teacher and just all with loads and loads of hard work but best practice. It was a lifetime memory to speak on the platform practicing with ma'am.

Surat Litfest Kavita

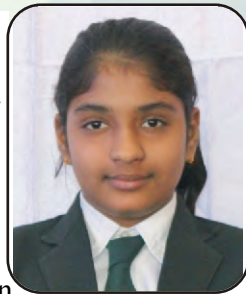

It was my first experience of surat litfest Kavita and it was great. We were called in morning for practice. We all were given poem. My poem was "all you who sleep tonight" all were given different poem, than after getting poem we discussed our poem with principal ma'am. We need to focus on some main points just like our voice modulation, expression on the final day the show was great. We got standing ovation after the show we met some famous celebrities. It was my great experience with our senior. We all really enjoyed.

Bookwarm's Feast

Usually I don't like to read books but this book fascinated me. Start reading books I stop it in reading 10 or 20 pages. This book like told me to read further and further. This book was "Percy Jackson And the lighting Thief". Percy started by saying like "I ever wanted to be a half blood I never asked to on, If you think you are a half blood and reading this book to check you are a half blood then close it now".

Rakshit Singal, VII A

In this book Percy is finding the stolen lightning bolt and try to return it to zens before the summer solitice. If Percy is late then there will be a great war between Roman Gods.

Hannah Montana's series

My favorite series of the book is Hannah Montana. It was the best book and one of the best book. It has 37 parts of the book like Truth or lire, keeping secrets and etc. this book I like it more. It is having a TV program in that it was started in 2009. It was having 97 episode in that she was playing double role of Miley Cyrus. Hannah Montana was the big pop sterna of north America and miley Cyrus was the teen girl and studying in the college. she was leaving with his dad and brother. It was produced by laugh production and it was telecast on Disney channel. The author of the Hannah Montana was Anonyms. Kids loved this series because it's very comical.

Surat Lit Fest

Surat Lit fest Kavita, was organized by 'DPS Tapi' from 25 to 27 November 2016. For this, we the students from classes VI to X, had selection rounds almost 2 months earlier, by reciting a poem with proper voice modulation and eye contact. Almost 14-15 students were selected and informed that we will be trained and dedified by our honourable principal ma'am. We enjoyed the training with principal mam and erudite many grammatical skills and improved our vocabulary. Our principal sir (Dr. G.R. Sivakumar director of DPS Tapi and Surat) was also training us with better understanding. We came early in the morning and practised our poems with principal ma'am and sir. Our final execution was on 27th of November. On 26th November we had an opportunity to see the performance 'DPS Surat' students to encourage them. By perceiving them, we were tautened that how will we perform. But, we encouraged ourselves that our achievement was to make the audience happy. Alas! We achieved our goal and we could hear many applauds and we were delighted. This is one of my most cherish able moment of my life.

Trip to RAJASTHAN and AHMEDABAD

A four-day trip was organized by our school 'DPS TAPI', as experiential learning trip with the escort teachers, Ms. Sandhya Patel, Ms. Peenaz Bacha, Mr. Bharat Suhagiya and Mr. Nimit Jariwala, to Ahmedabad-Udaipur-Kumbalgarh which lasted for four days that is from 3 December to 6 December 2016.

Our first stop was to the famous place named 'Lothal' which had remained a part of Harappan Civilisation. The word 'Lothal' means 'city of dead'. The remains of this place left the students with the idea of life been spent by the people who resided there in ancient times. The museum had all the tools and information about the city along with its map.

Then everyone got in the bus and we began our journey to Ahmedabad. We reached at a luxurious hotel. My room was shared between me, Anurag, Shubham and Rakshit. We refreshed ourselves, had delicious lunch and then left the hotel to visit SABARMATI ASHRAM which detailed us the life and freedom struggle led by Mahatma Gandhiand we also visited 'Adalaj Ni Vav'. The carvings on the walls of ancient times were just fabulous and amazing. Lastly, in the evening we had a glimpse of lake 'Kakariya' too.

Next day we were up for Udaipur which has been the capital of Mewar kingdom in Rajasthan. The very first place visited was 'FatehSagar'. The group enjoyed boating there. Then the beautiful 'City Palace' was the place of Mewar kings.

The following day, we went around 8 am to 'Kumbhalgarh Fort', which is very high and huge. The adventurous climbing though exhausted us, but we enjoyed it very much. On the way, we visited the museum of Maharana Pratap to know about HaldiGhati, and also saw a short movie on Pratap's glorious life. After an authentic Rajasthani lunch, we began for our last destination, the place of most tourist attraction 'Saheliyon Ki Bari' with beautiful fountains.

In all, it was truly most knowledgeable, learning and outstanding experience. We learnt about popular historical places and enjoyed to the fullest

A Natural world

Experiment is the surrounding or condition in which persons, animals and plants live. Earlier human had a good relationship with mother earth, now-a-days human are measuring the gift of nature. Human are using more and more beatitudes resources which may get over in future due to human activities, many disasters have taken place so far such as: Eradication of Australian flora and fauna, Bhopal disaster and many more. Due to such man-made disasters, the nature gets affected in many ways: the level of water increases in the sea, melting of glaciers, increase in global warming etc. Even population lays a social role in harming nature, when more and more resources are used by the cutting of Trees, more space is occupied by people. To prevent this, government has taken many steps, one of them is celebrating the Earth day. Earth day is an event celebrated worldwide by 198 countries on April 22 to demonstrate and to support for environment. Even we have to take several steps to save our environment by celebrating green Diwali, encouraging on afforestation and many more. We can also take steps in our home and daily life like planting trees at roadside, using public transport, using less beatitudes resources, saving water and money more. So, let us all take a pledge to save our environment.

History is no more a 'mystery'

On 3rd December 2016, students of DPS TAPI, had a most enjoying experiment learning excursion to Lothal, Ahemdabad, Udaipur and kumbhalgarh. First, we went to Ahemdabad, which is one of the biggest city in Gujarat. It is known for the famous Sabarmati ashram associated with Gandhiji. There are many beautiful places to see and things to do in the city. This city might not be amongst the list as favourite tourist place, but for me this city was full of unique and fun filled experiences. Now, I come to Udaipur, Udaipur was my stop yes, I call it as my stop, because it's a place of historical sites the forts and the royal palaces, and many more beautiful destinations. And the most interesting thing about it was, when I arrived to the cool, green lake city of Udaipur, I was in a bit surprise to see and experience the difference between book as just a case of content and that of live, personally was unique and ever-lasting nostalgia to cherish. As the information briefs, Udaipur was established in 1559 or 1560 by Maharana Udai Singh as the new capital, was deemed too vulnerable series of repeated attacks by the Mughal. Almost for years Udaipur was safe as long as Maharana Udai Singh was alive but after him other Rajput kings finally joined other states after independence. Next, we went to Haldighati where 'Chetak's' sacrificed his life, but saved Maharana Pratap by helping him reach to a safe place. The next stop was the 'City Palace- the royal palace, with all its fascinating architecture and artifacts. We also visited a museum where we saw many antique and old useful things of Rajput kings. That was all about the excursion and we were back home on 6th of December, This, is how we enjoyed the most enthusiastic excursion and I would conclude saying that experiential learning is better than bookish learning. This trip was awesome.

Don't kill the life-giving Earth

'Nature is not a place to visit, it is a home', every nook and corner say it an airport, railway station, hospital, temple or social gathering. We see all the places over crowded which is a clear indication of population explosion on earth. This over population means over need of air, water, food, housing etc. which causes pollution. This pollution and deforestation for housing and agricultural needs has led to climate disturbance all over the Earth. Earth day on 22nd April celebrated worldwide with aim to sensitize the students towards their role in addressing the global environmental challenges. The smallest effort towards saving our environment is to plant trees on the place available.

Go green or I will scream,
Forests are Green, oceans are blue, keep the earth
Clean for me and you.
Our earth is at stake, what action will you take?
Everyone join the race, to make the world better place.

Honey Tanna, VIII A

Experiential Learning

There's a lot more difference in bookish learning and experiential learning. We get to learn a lot more things and there is much more of visualizing than the bookish learning. Its easy to memorize through experimental learning. On 3 December, we the students of DELHI PUBLIC SCHOOL TAPI, had an opportunity to go for experiential learning trip to Ahemedabad, Udaipur and Kunbhalgarh. On the first day at Ahemedabad we visited the Sabarmati ashram where we saw the charkha used by Gandhiji, his livelihood, their way of living, they had meetings for the discussion of the national movements and the historical events inscribed at the ashram. We also visited the harbor, where the trade took place.

On the 2nd day we went to Udaipur, one of the states of Rajasthan, there we did boating and we went to the lovely place which was the city palace. We also went inside the city palace and had a view of the museum where we saw so many interesting things such as the sword, the riffles the variety of arms and ammunitions that were kept and treasured with utter most care and which were used by the Rajput kings and their soldiers. It was a big palace and had a view of architecture of that period.

On 3rd day we went to the Kumbhalgarh fort which was nearly 14 km long and one of the best fort of India. We also got a lot of information about the Haldighati battle and Raja Maharana Pratap of Mewar and between Akbar's army. It was a very adventurous trip and we enhanced our historical knowledge about the Rajput kings and the national movement. I would always like, such experimental learning trips. Last but not the least, I enjoyed a lot all the variety of delicacies and the accommodation facilities provided too. I would also like to 'Thank', our respected principal Ma'am and the teachers in-charge, for all the care, comfort and love they gave us throughout this adventurous learning excursion.

The Bright Night

Up in the sky, when I see the bright stars and the planets. I just wish to catch them with my little fingers. Since childhood sky has always enchanted and amazed me with its sparkling twinkling stars. It was a wonderful experience observing them in the dark night, yes this was the most awaited event for me from among all the other school events. I grabbed this opportunity the moment I received the concent form for 'Astronomy Camp'. We here at DPS TAPI, get this wonderful opportunity to be one amongst them, and I was one of these to be there up on the terrace to gaze at these stars and learn about our Solar system.

Everyone dreams to go through the galaxies the twilight and infinity. There are number of stars, planets and the celestial bodies. It was in our school we saw many stars through the telescopes. We saw Venus and Mars too. The study of planets is magical. The group of stars forming an imaginary object is called constellation. We saw many types of constellation as UrsaMajor which is also called as great bear. We also saw Ursa Minor, Leo Major, Cassiopeia, and the Hunter. We have also learnt about our galaxy, the milky way. The stars which we can see from the earth are actually not near the planets we are far away by millions and billions of kilometres. It is not easy to learn about universe. The next we saw the moon, for me it's a poetic word. It is the brightest star from our earth.

The Moon

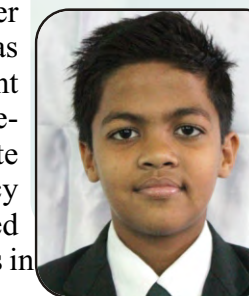

The moon has a face like the clock on the hall,
It shines on thieves on the garden wall,
On streets at harbour quays,
And birds asleep in the boughs of the trees.

We had excellent learning experience with delicious food and fun. I shall cherish this nostalgia for ever and ever. It was truly amazing, and I hope to have the same in the coming years ahead.

!!MUN!!

MUN stands for model united nation. It was held in our school 2nd time on 22th October 2016. There were 7 committee, each had a separate agenda, chair and vice-chair. Each country was represented by its delegate. In DPST MUN students from class VI to X where they perform different role like OC members, delegate, chair vice-chair, sep general and depute general. I was the vice-chair of IAEA. Chair of my committee is Ankita di. Agenda for the committee was nuclear waste disposal. In our committee delegate of France was opposed by all the other delegate. Our emergency was that last year nuclear waste was mostly disposed by France, Japan and America but the revised emergency said that its wasn't Japan and America but only France. The next thing was Global crisis in which the most strongest debaters on the crisis of water being more important than oil or not.

Exploring The Galaxy

On the night of 26 December 2016, my fellow mates and I started our space journey at 8:00 pm. It was a chilly night at DPS TAPI. As we reached the terrace of our school we were greeted by our beloved sir- Mr. G. R. Sivakumar.

He started with some popular constellations and were briefed about the stories or the myths related to them, such as of ANDROMEDA, PERSEUS and CYGNUS THE SWAN. It was an enriching experience for us to hear these legends from him. After this session, we had our irresistible dinner which was super delicious! The camp was succeeded by an indoor session. The room was warm and cosy. Sir apprised us about everything, from the born of the universe, the stars, the planets till the approximate end of it. It was a very informative session. I assimilated almost everything which sir taught us. Part of the Story "It all started with BIG BANG. In the first second after the universe began, the surrounding temperature was about 10 billion degrees Fahrenheit. Then came neutrons, protons and electrons. These decayed and combined together as the universe got cooler. The free electrons met up with nuclei and created neutral atoms. This allowed light to shine through above 380,000 years after the Big Bang!"

After this devastating and magnificent session we had our midnight snacks. Snacks were too good...Snacks were followed by compelling activities!!!Such as Identifying constellations through Binoculars and Telescope!!We also explored many things in the I-pad through apps. Then the session came to an end, which was frustrating to me... We all went back to our dorm and slept for some hours.. In the morning we had our breakfast. And Alas! unfortunately, we boarded the bus and got on the way towards our home!!For me it was an Unforgettable, Devastating and Knowledgeable experience!!

Photography

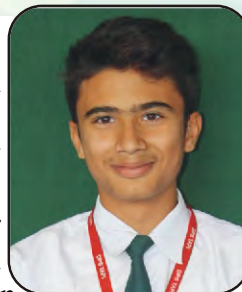

My name is Priya Patel and I am student of class IX-A at Delhi Public School Tapi. I always wanted to learn photography and attend photography workshops .Photography allows one to capture world around them with a press of shutter. According to scientific perspective ,it is the act of recording light either electronically or chemically. However, it tells us about the heart of photography and what it truly means to us. Photography is an art of observation. It's about finding something interesting in an art of observation. It's about finding something in an ordinary place. I have found, it has little to do with what you see and everything to the way you see them. It was a fortune to me that I got a golden opportunity to enhance my photography skills. I would like to thank Mr.G.R. Sivhkumar sir taught us photography and sparing his valuable time from his busy schedule. It is not all about taking photography but to experience nature.

Teacher's our best friend

A correctly said by someone ' your best teacher is your last mistake'. Often we refer teachers as modernizer of world. They are the one who to change the child to an individual. Teachers are often regarded as our best friend. They help a child to get converted into a good and sensible individual. They are the one who nature us. They are the one who helps us in every small small part of life. They devote their life to change us into a good individual. They take of students as their own children. Most often we refer teachers as our second mother. They are the one o who guide us throughout our life. The teach us good manner and good deeds. Their sacrifice their whole life just to nurture children into a better individual. They modernize the nation. As said correctly a pen a paper and a teacher can change whole world. This is the season why we regard teacher's as goddesses. But for this people we often don't show the respect they deserve. At last I would like to say that let us create a world where teachers and students live with peeks and harmony.

Teachers- Our True Friends

I was born as an innocent child, unknown to this world of competition. As I grew up, I was introduced to some personalities who made a start up to begin my journey of life in the form of education. They were the one who encouraged e to take a step and move into the world which was full of competition. I believe that teachers are our best friends because they have taught us how to live life happily and how to cope up with difficult situations. Teachers are our second parents. For me, teacher's are the second form of goddess saraswati who have blessed us with education.

Teachers have not only made us educated but also given us knowledge to be literate. They also teach us the basic habits include discipline and respect. I love my teacher and I always respect

DPS Tapi Mun

On 22nd October we had our 2nd DPST MUN. There all committees had to debate on the given agenda. Each committee had a chair and vice chair. MUN is basically a simulation of UN. This gives the participants a special experience and good idea about MUN. This also enhances the debating skills and general knowledge. Overall the event was fully managed by the students of class 10 and it was a big success as everyone was having a new experience. At the end of event few were given medals. Many had given their best but they weren't the so they weren't presented with medal but they were more eager to participate in the next MUN.

My MUN Experience

On 22nd October 2016,Delhi Public school Tapi second MUN was conducted. The full form of MUN is Model United Nation. It was started in nineties. The MUN event in our school began with an opening ceremony. There were seven committees namely, ECO-SOC, DISEC, ICJ, UNSE, SECUIRTY COUNCIL (UNSC), HRC, UNEA. Students from class 6-10 participated in this event. After the conference students were sent to their respective committee room and the roll call began by the chair and vice chair. The general speaker list was started by the delegates after this moc session was been conducted then a small break was been held in which the school organized food for the students. Then moderated was there then resolution paper was been made by each committee. At least 2 person from each committee was been chosen for global crisis. After this there was price distribution for many categories. Then there was a dispersal for all children.

Life is full of books
Some are fictional
Some are facts
Some gives knowledge
Some makes us laugh

The moon had a naughty smile
On its lips
I thought they were twinkling like the ships
A light year is a distance light travel in one year
In the space where nothing we can hear
Mr. Sivakumar taught us like an Astronaut
He is great is he or not?
With the telescope we can see the planets and stars
The planets and orbit looks like hanging along the bars
I enjoyed the Astronomy camp
And next year I will be the CHAMP

unaware human being are careless
what will happen to the future world?

Nature is bond to suffer
But yet nobody really bothers

Friends, awake and arise
Stop playing with nature guys,
If nature will start playing with us
Untimely deaths will surely arise.

Gazing in the past

Gazing in the past
Moon, stars above us
Beautiful land below us
They are fascinating
Past we are gazing

Children saw them through telescope
Ancestors saw them through study and calculations
There is a change in our time
We are gazing in the past

After seeing them some become glare
After seeing them some become flare/ free
Stars, moon, planets, are so gay
We wish if we may

It all started with big bang...
We're going towards the end...
The carina is searching
its way towards world

Pollution is obstructing
It would be lifeless earth
Unlike the past where trees, flowers and life bloomed
Let's gaze in the past.

Embroidered Sky

Oh it's 'Astronomy Camp'! I need to get ready
I have to reach to the stop on time, oh! Its' time to be steady
I'm in the bus now ready to go
Oh! dearest night, please go slow

We are now in the school, and the joy still waits
Our eyes are waiting to see a night so gay
Finally, the time comes bold
And we are ready to enjoy the dark cold

We are up on the terrace so high
Look at those stars, they are all shy

There comes the big dipper and the hunter Orion
And look the way he is staring at Leo the lion
Cassiopeia's bold, as if asking who, what and when
And there lies the Cygnus, with number of stars as ten
Look at mass, just above the Venus
And see the way Pole star, as if he is a genius
The Cetus is coming, sent by Poseidon
There comes Cancer from below the horizon

The cluster named seven sisters forms a question mark?
Stars are formed when nebulae barks
Oh! we forget the black hole it gulfs everything in
Look at Beetel-jouice as much as you want, after 640 years
He might not be seen
Oh! Friends the gazing is finished

But we shall look up to the, stars everyday
There hidden, in each a story a tale.

Teachers: Our True Friends

A teacher is a treasure of knowledge,
You motivate students and remove their blockage,
You helped me several times, and so I acknowledge.

With your kindness, you get my attention,
Every day you are planting a seed,
Of curiosity and motivation,
To know and to grow and succeed,
And to become a human with innumerable good deeds.

A teacher is like a spring,
Who nurtures new green sprouts,
Encourage and leads them
Whenever they have doubts.

In this nation your role is paramount,
With my small fingers, you taught me how to count.
For teaching lessons,
To help me as I grow,
Let this poem remind you,
You are the best teacher

"Kavita : Fest-a Great Poetic Experience"

Some experience and memories,
Just stay in your hear forever;
They bring a change in the way,
You look at the world.

One such experience in my life
Was Surat Lit Fest Kavita
It made me think that poems are
When emotions found its thoughts
And thought found its words.

All I want to say is-
I thank all my teachers
Who were our helping hands
In helping our dreams come true.

In the Kavita Fest-
We recited poems like champs
On the magical poetic ramps.
I just hope poems stay our-
Best friends forever.
Because all our lives are incomplete
Without these magical thoughts
Named poems.

A Mystery yet unsolved!

I pass by it each hour
And stop by it to have a glance
Look at it all mightily
And blush over the circumstance

I become all red looking at myself
I over think how beautiful I am
Sometimes even the mirror shouts
"Get going, beautiful, clear your doubts!"

I ran quickly up the stairs,
And sat on that floor so high.
Thinking thoughts ran through my mind
"What was said by the mirror so kind?"

"Am I a mystery?
Or a beauty so overwhelming?
Or a chain of high dreams
That vanishes over the morning?"

Then the truth of my past
Knocked my thoughts...
Squeezing it over
And flashed my faults!!

Thoughts got deepened
As my mind got wild
Emotions got mixed
And there I became teary eyed

Then a voice I heard
So recognizable and clear, it said
"You have become a mystery unsolved,
A tragedy not to be revolved!"

With a smile of fear,
Shiver ran through me,
Doubts got cleared
But in a manner of buzzing bee!!

"My past, I recalled
The devilish work of my mind
Which made me kill my parents
Who, in my love and nurture, were blind!

They were so kind to me
But still I punished them for what they have never did
And after that I forgot my past
But the mirror recalled what I have done as a kid!

Today I'm dead!
My soul even today roams like a frightened mouse
As I could never forgive myself, but!
The mirror forgave me making a mystery in my own house!"

So, back to the mirror I ran
Thanked for being so kind
And in return again it buzzed
"Get going, beautiful, never mind!"

Oh Earth! This Jumbled Mystery!!

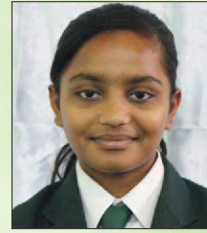

Facts are interesting,
Imagination is entertaining,
Learning is enjoying,
Reaching was cool,
About you only about you....
Oh! Earth
You have fans more than anyone,
You have believers more than anyone,
You have worshipers more than anyone,
You have everyone,
Then why this mystery!!!
Oh! Earth
Jumble sentences are cool,
Jumble words are interesting,
Jumble letters are enjoying,
But these mysteries are not so good!!!
Venus, mars, Jupiter....
Planets are your cousins,
Solar system is your home,
Milky Way is your country,
Galaxy is your world.
But do you have a twin sister in your world??
Oh! Earth
Your fans awaits,
Your believers awaits,
Your worshipers awaits,
Please help to solve this mystery,
Help us to find your twin sister...
We promise we won't hurt her,
We promise we'll take care of her,
We promise we'll be the best for her,
Please just help us to unsolved this,
Jumble mystery!!!!

'Kavita Fest'

I remember the experience,
Experience of poetry's magic,
Magic of praising a poetry,
Which took me under it....

Till last year people sad "my poems are bad,
And now I'm praised for that.
Praising a poetry is my habit,
Now the harm of y life is that...

May this was all due to that,
That was a great experience of my life.
The experience of Kavita fest
For learning the magic magic of life!!!

I greatly thank my teacher for selecting
I greatly thank my principal for
Making me understand the poetry.
I also thank my friends for supporting.

My hobby is my pride,
Poetry is y life.
I don't know how to end this time,
But next time I will surely make a poem with
rhyme....

These memories will be in,
Sorry this time I need to end,
These memories will never left me alone

गणित मेला

हर साल हमारे विद्यालय में गणित मेले का आयोजन होता है। गणित मेले में हम गणित के खेल खेलते हैं। गणित मेले में हम अंकों को जोड़ना, घटाना, गुणा करना सीखते हैं। विद्यालय में हमारे माता-पिता को बुलाया जाता है। कक्षा में हम सभी छात्र एक अलग-अलग समूह बनाकर गणित के विविध खेल खेलते हैं और इस खेल को खेलने के लिए हमारी आचार्य महोदया और हमारे शिक्षकगण तथा हमारे माता-पिता आते हैं। उनके साथ खेल कर हमें आनंद आता है।

त्योहारों के रंग मेरे विद्यालय के संग

हमारे विद्यालय में सभी त्योहार मनाए जाते हैं पर मैं सिर्फ तीन त्योहार के बारे में विस्तृत जानकारी देना चाहता हूँ 1 दीपावली का त्योहार आने से पहले हमारे विद्यालय में दिए सजाए जाते हैं दिए को सजाने के लिए हम अलग-अलग रंगों का प्रयोग करते हैं सितारे लगाकर हम दिए को अधिक सुंदर बनाते हैं। और हम सजाए गए दियों को घर भी लेजाते थे। 2 जन्माष्टमी के त्योहार में हमारे विद्यालय में दही हांडी का कार्यक्रम रखते हैं सब बच्चे कृष्ण वनकर आते हैं और मटकी फोड़ते हैं मटकी फोड़ने में अधिक आनंद आता है। सब छात्र मटकी फोड़कर खुश होते हैं। 3 गणतंत्रदिवसके दिन सब बच्चे परेड करते हैं देशभक्ति के गीत गाते हैं और नृत्य भी करते हैं। अंत में हम सब बच्चों को मिठाई देते हैं। मुझे ये तीनों त्योहार बहुत अच्छे लगते हैं।

त्योहारों के रंग मेरे विद्यालय के संग

हमारे देश में सारे त्योहार वड़ी धूमधाम से मनाए जाते हैं। इसी तरह हमारे विद्यालय में बहुत सारे त्योहार मनाए जाते हैं। जैसे कि स्वतंत्रता दिन, गाँधी जयंती, क्रिसमस, गणतंत्रदिवस, रक्षा बंधन नवरात्रि, ईद, जन्माष्टमी आदि त्योहारों को मनाया जाता है। इन त्योहारों को तीन हिस्सों में बाँटा गया है। 1 राष्ट्रीय त्योहारों में गणतंत्रदिवस, स्वतंत्रतादिवस, गाँधी जयंती है। 2 सामाजिक त्योहारों में रक्षा बंधन है। 3 धार्मिक त्योहारों में नवरात्रि, ईद, जन्माष्टमी, क्रिसमस है। मुझे स्वतंत्रता दिवस अधिक पसंद है क्योंकि उसमें हम सब छात्र परेड करते हैं। फिर कई छात्र नृत्य भी करते हैं। स्वतंत्रता के वार में आचार्य महोदया अपने विचारों को हमारे समक्ष रखते हैं। और सभी छात्रों को मिठाई भी खिलाते हैं। इस तरह हमारे विद्यालय में स्वतंत्रता दिवस मनाया जाता है।

हमारे विद्यालय में हर साल वार्षिकोत्सव मनाया जाता है। इस साल 24 दिसंबर को मनाया गया था।

एक महीने से हम हमारे नृत्य की तैयारी कर रहे थे। हमने नृत्य को अच्छा करने में बहुत मेहनत की अंत में वह दिन आ गया 24 दिसंबर को दोपहर 2 बजे वार्षिकोत्सव की शुरुआत हो गई इस वार्षिकोत्सव का विषय था "राज्य से स्वराज तक" सबसे पहले विद्यादिपमहुआ। कार्यक्रम की शुरुआतनाटक से हुई। नाटक के बीच-बीच में गीत व नृत्य भी हो रहे थे। हमारा नृत्य मुगलों पर आधारित था। कक्षातीन अ के सभी छात्रों ने मुखौटा पहनकर नृत्य किया हमारे नृत्य में दो छात्र ने सिंह का मुखौटा पहनकर अत्यंत सुंदर नृत्य किया। और इस तरह हमें नृत्य करने में अधिक आनंद आया हमारा नृत्य देखकर हॉल में उपस्थित सभी मेहमानों ने तालियाँ बजाई और हम सब खुश हो गए। कार्यक्रम खत्म होने के बाद राष्ट्रगान हुआ और हमारे मातृपिता हमें लेकर घर चले गए।

मेरे विद्यालय का वार्षिकोत्सव

विद्यालय जीवन में वार्षिकोत्सव का विशेष महत्व है। हमारे विद्यालय में हर साल वार्षिकोत्सव वड़ी धूमधाम से मनाया जाता है। जैसे तो हमारी पाठशाला में अन्य कई उत्सव मनाए जाते हैं। पर वार्षिकोत्सव में अधिक आनंद आता है। यह कार्य बड़े रंगमंच पर मनाया जाता है।

अध्यापक, माता-पिता और आचार्य महोदया ने दीप प्रज्वलन करके कार्यक्रम की शुरुआत की। आचार्य महोदया ने अपने विचारों को प्रस्तुत किया और कार्यक्रम की शुरुआत हुई रंगमंच पर गीत और नृत्य हुए। वार्षिकोत्सव का विषय इतिहास होने के कारण हमें ऐतिहासिक जानकारी का भी ज्ञान प्राप्त हुआ। इसी तरह हमारा वार्षिकोत्सव पूर्ण हुआ।

अंत में हम मेहमानों को उपहार देते हैं। इस तरह खेल के साथ गणित भी सीखते हैं।

हमारे विद्यालय में सभी त्योहार मनाए जाते हैं। पर नवरात्री मेरा प्रिय त्योहार है नवरात्री हमारे विद्यालय में बहुत अच्छी तरह से मनाई जाती है। हमारे विद्यालय में नवरात्री का उत्सव नारी शक्ति को ध्यान में रखकर मनाया जाता है। नवरात्री में सब छात्र रंग-विरंगे कपड़े पहनते हैं।

हमारे विद्यालय के बड़े से मैदान में सब छात्र एकत्र होते हैं और गरवा खेलते हैं। हमारे अध्यापक और अध्यापिका भी हमारे साथ गरवा खेलते हैं। फिर थोड़े अंतराल के बाद डांडिया भी खेलते हैं। गरवा और डांडिया खेलने के बाद सब छात्रों को तोहफा भी दिया जाता है। नवरात्री के त्योहार पर सब बहुत खुश होकर गरवा और डांडिया खेलते हैं। सभी छात्र बहुत खुश होकर इस त्योहार का मजा लेते हैं। मेरे विद्यालय की नवरात्री मुझे अधिक पसंद है अंत में मैं सिर्फ इतना ही कहना चाहता हूँ "अंबे मात की जय"।

मेरे विद्यालय का वार्षिकोत्सव

हर साल की तरह इस वर्ष भी हमारे विद्यालय का वार्षिक उत्सव संजीव कुमार सभागार में धूमधाम से मनाया गया। हमारे विद्यालय का वार्षिकोत्सव दिसंबर महीने में मनाया जाता है। जब हम दीपावली की छुट्टी पूरी करके दूसरे सत्र के लिए विद्यालय आते हैं तब से एक महीने में पढ़ाई के साथ साथ वार्षिकोत्सव की तैयारी विद्यालय में करवाई जाती है। इस वर्ष हमारे वार्षिकोत्सव का मुख्य शीर्षक 'राज्य से स्वराज्य' था। विद्यालय की सभी कक्षाओं के छात्र और छात्राएँ भाग लेते हैं। गीत, नृत्य, नाटक इत्यादि कला में विद्यार्थी अपनी रूची अनुसार भाग लेते हैं। हमारे अध्यापक और अध्यापिकाएँ भी हमें सीखाते हैं। इस वर्ष हमारी कक्षा का विषय महात्मा गांधी जी के जीवन से था। हमारी कक्षा के सभी विद्यार्थियों ने नृत्य प्रस्तुत किया था। हमारा नृत्य सभी लोगों को पसंद आया।

गणित मेला

हमारे विद्यालय में गणित मेला 3 सितंबर 2016 को मनाया गया था। इस मेले में मैंने बहुत कुछ गणित विषय में ज्ञान प्राप्त किया और बहुत कुछ सीखा। हमारी कक्षाध्यापिका ने मेले के तीन दिन पहले ही हमारी कक्षा के सभी बच्चों को अलग-अलग दल में विभाजित कर दिया था। सभी को अलग-अलग विषयों पर मॉडल, गेम और चार्ट बनाने के लिए कहा गया। सभी बच्चे बहुत ही खुश थे। मेरे दल को सात आकारों से एक वस्तु बनानी थी। हमारे दल के सभी विद्यार्थियों ने सुंदर तरीके से कार्य किया। इस मेले में मैंने बड़ी संख्याओं को जोड़ना, घटाना, गुणा, भाग करना सरलता से सीखा। इस दिन हमारे विद्यालय में सभी बच्चों के माता-पिता को भी मेले में बुलाया जाता है। हमारे विद्यालय की प्रधानाचार्या भी इस मेले में आती हैं और हम सभी बच्चों के कार्य की सराहना भी करती हैं तथा हमको गणित विषय पढ़ने की प्रेरणा भी देती हैं। इस मेले से हम बच्चों की मानसिक और तार्किक शक्ति का विकास होता है।

हस्त लेखन का हमारे जीवन में बहुत महत्व है। कहते हैं कि हस्त लेखन से ही किसी व्यक्ति के मन की सुंदरता का आभास होता है। अर्थात् जिसका हस्त लेखन सुंदर होता है उसका मन भी सुंदर होता है। हमारे विद्यालय में प्रति वर्ष हस्त लेखन कार्य शाला का आयोजन होता है। प्रतिवर्ष की तरह इस वर्ष भी हमारे विद्यालय में हस्त लेखन कार्यशाला का आयोजन किया गया। इस वर्ष हिंदी कार्यशाला का आयोजन 1 अगस्त से लेकर 6 अगस्त तक हुआ। हमारे शिक्षक महोदय ने हमें बताया कैसे हमें सही ढंग से बैठना, नोटबुक को रखना, कलम पकड़ने का तरीका, नोटबुक और आँखों के बीच की दूरी आदि। शिक्षक महोदय ने हमें अक्षरों व शब्दों का अभ्यास भी करवाया जिससे हमारा लेखनकार्य और भी सुंदर हो गया। जिससे मेरी हिंदी की लिखावट बहुत सुंदर हो गई। अब मेरे सभी मित्र मेरी लिखावट की प्रशंसा करते हैं।

मेरा प्रिय खेल 'क्रिकेट'

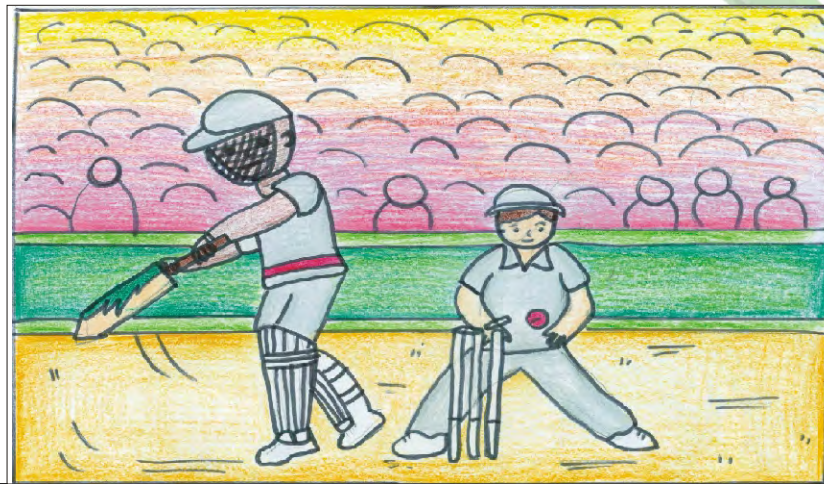

मेरा प्रिय खेल 'क्रिकेट' है। इस खेल में दो टीमों होती हैं। प्रत्येक टीम में ग्यारह-ग्यारह खिलाड़ी होते हैं। इस खेल को बल्ले और गेंद से खेला जाता है। मैं अपने दोस्तों के साथ यह खेल खेलता हूँ। जब भी हमारी सोसायटी में मैच होता है तब मैं इस मैच में अवश्य भाग लेता हूँ। मुझे इस खेल में बल्लेबाजी (बैटिंग) करना बहुत अच्छा लगता है। मेरी इच्छा तो सचिन तेंदुलकर जैसे महान खिलाड़ी बनने की है। मैं इस खेल को मेरे पिताजी के साथ भी खेलता हूँ। वे मुझे बहुत सारी सलाह भी देते हैं। जब मैं अपनी पढ़ाई पूरी कर लेता हूँ तब मैं अपनी सोसायटी के बच्चों के साथ 'क्रिकेट' खेलता हूँ। आज दुनिया के हर गली मोहल्ले में यह खेल सभी बच्चों का मनपसंद खेल बन चुका है। हर बच्चा अपने आप को महान बल्लेबाज और गेंदबाज बनाना चाहता है। इस खेल को खेलने के लिए बहुत सारा व्यायाम ज़रूरी है। क्योंकि इस खेल को अच्छे स्वास्थ्य वाले ही खिलाड़ी खेल सकते हैं। मुझे व्यायाम करना भी अच्छा लगता है। इसलिए मैं 'क्रिकेट' खेलता हूँ।

ईद प्रार्थना सभा का आँखो देखा हाल

ईद उर्ल फीत्र मुसलमानों का सबसे महत्वपूर्ण त्योहार है। जिसका आयोजन हमारे विद्यालय के कक्षा 4 व के छात्रों ने किया उसमें मैं उद्घोषक थी। सबसे पहले मैंने मंच पर प्रार्थना करनेवाले छात्र को बुलाया जैसे ही प्रार्थना खत्म हुई दूसरे छात्र ने ईद के बारे में जानकारी दी जो कुछ इस प्रकार थी मुसलमान के लिए रमजान महीना सबसे महत्वपूर्ण होता है। वे पूरे दिन रोज़ा रखकर खुदा से दुआ मॉंगते हैं। रमजान महीना पूर्ण होने के बाद चाँद दिखने के दूसरे दिन ईद मनाई जाती है। ईद के दिन वे नए कपड़े पहन कर नमाज़ पढ़ते हैं। गरीब और अनाथ लोगों को दान देते हैं। शीरखुर्मा जैसी मिठाई बाँटते हैं।

हिंदी कार्यशाला हमारे विद्यालय में अगस्त के महीने में दो सप्ताह तक चला पहले सप्ताह में हमें हाथों की कसरत पेंसिल को ठीक पकड़ना, सीधे बैठना, अच्छे अक्षरों में लिखना यह सब सिखाने के साथ-साथ वर्णमाला के सभी अक्षरों को सही मरोड़ देकर कैसे लिखा जाता है वह भी सिखाया।

दूसरे सप्ताह में हिंदी के संयुक्ताक्षर, नुक्तावाले शब्द को स्वच्छ व सुंदर अक्षर में लिखना होता है। इस तरह पूरे दो सप्ताह तक हस्तलेखन कार्यशाला में हम बहुत कुछ सीखते हैं और हमें इस कार्यशाला में अधिक आनंद आता है।

हमारे विद्यालय में हिंदी कार्यशाला हर साल होती है। यह कार्यशाला में हम हाथों की कसरत करते हैं, फिर हमें एकशिट दी जाती है जिसमें हिंदी वर्णमाला के अक्षर दिए जाते हैं उसमें रंग भरने होते हैं और एक चित्र दिया जाता था जिसमें हम रंगीन कागज़ को काट कर चित्र को सजाते हैं। फिर कठिन शब्द और वाक्य को देखकर लिखते हैं। इस तरह हम हिंदी कार्यशाला में स्वच्छ व सुंदर अक्षर कैसे लिखते हैं वह भी सीखते हैं। इस कार्यशाला का हमारे अक्षरों को सुंदर बनाने में महत्वपूर्ण योगदान है। हिंदी कार्यशाला में हम सभी छात्रों को अधिक आनंद आता है। इस कार्यशाला में जो छात्र सुंदर व स्वच्छ अक्षरों में लिखता है उसे प्रमाणपत्र भी मिलता है।

इस जानकारी के आधार पर प्रार्थना सभा में प्रश्न पूछे गए व छात्रों ने उत्तर भी दिए और फिर हमारी कक्षा के सभी छात्रों ने गीत गाया। गीत पूर्ण होने के बाद नृत्य भी किया फिर राष्ट्रगान गाकर हम सभी छात्रों ने ईद प्रार्थना सभा को पूर्ण किया।

स्वास्थ्यवर्धक भोजन

स्वास्थ्यवर्धक भोजन का अर्थ है सेहत से भरा खाना। हमें हमेशा स्वास्थ्य वर्धक सब्जियाँ खानी चाहिए। जैसे पालक, भिंडी, परवल, मैथी सारी भाजी यह सारी सब्जियाँ बीमारी को दूर कर हमें स्वस्थ रखती हैं। इन सब्जियों को रोज़ खाना चाहिए। पर आज कल तो जंकफूड खाना खाने में लोगोंको अधिक आनंद आता है। पिज़्ज़ा, वर्गर, सेन्डवीच जैसे जंकफूड खाने से हम बीमार होते हैं। जंकफूड हमारे शरीर को रोगी बनाता है इसलिए उसे कम खाना चाहिए हमारे शरीर को विटामिन, प्रोटीन, कैल्शियम सिर्फ सब्जियों से अधिक मात्रा में मिलता है। हाँ इस बात का ध्यान रखना चाहिए कि सारी सब्जियों को धोकर ही पकाना चाहिए। हररोज़ पिँ भाजी का सूप। मत उठाओ जंकफूड का लुप्त।

हरी सब्जियाँ

हरी सब्जियाँ, हरी सब्जियाँ मुझे पसंद है, हरी सब्जियाँ। पालक, मैथी और सारी भाजी, मुँह में लाती मेरे पानी। चश्मे होते इससे दूर रहो न भाजी से तुम दूर। हरी सब्जियाँ, हरी सब्जियाँ मुझे पसंद हैं, हरी सब्जियाँ।

जब मैंने मनाया हिंदी सप्ताह संस्कृत की एक लाइली वेटी है ये हिंदी, वहाँ को साथ लेकर चलती है ये हिंदी। तुलसी, कवीर, मीरा ने इसमें ही लिखा है, कवि सूर के शब्दों का गागर है ये हिंदी। जन-जन की भाषा है हिंदी, भारत की भाषा है हिंदी। जिसने पूरे देश को जोड़े रखा है, वो मज़बूत धागा है हिंदी।

मिमोह कुमार, 5 'अ'

हिंदी हमारी राष्ट्रभाषा है और मुझे अपनी राष्ट्रभाषा पर गर्व है। हमारे विद्यालय में हर वर्ष 14 सितंबर को हिंदी दिवस मनाया जाता है। भारत में कई भाषाओं का समावेश है इन सभी भाषाओं में हिंदी को मातृ-भाषा का दर्जा दिया गया है। यह दुनिया में सर्वाधिक बोली जाने वाली भाषाओं में से एक है। अपनी भाषा के प्रति जागृति और प्रेमभाव बढ़ाने के लिए यह दिवस हम हर वर्ष मनाते हैं। हमारे विद्यालय में यह दिवस बहुत अच्छी तरह से मनाया गया। हमारे शिक्षकों ने कविता वाचन भाषण व निबंध जैसी अनेक प्रतियोगिताओं का आयोजन किया। जिसमें सभी विद्यार्थियों ने बढ़चढ़कर भाग लिया। मैंने यह जाना कि हमारी मातृभाषा को सम्मान देना और दिलाना हमारा कर्तव्य है।

वाल दिवस

आता जब यह त्योहार, सब लोग करते हमसे बहुत प्यार। नाना, नानी चाचा, चाची, करते हमसे बहुत प्यार। तोहफों के लिए प्यारे बच्चे, करते बहुत मारामार सब लोग वताओ यह है कौनसा त्योहार, इस दिन सब मनाते जवाहरलाल नेहरू का जन्मदिन ज़ोरदार। यही होगा उनके लिए हमारा त्योहार

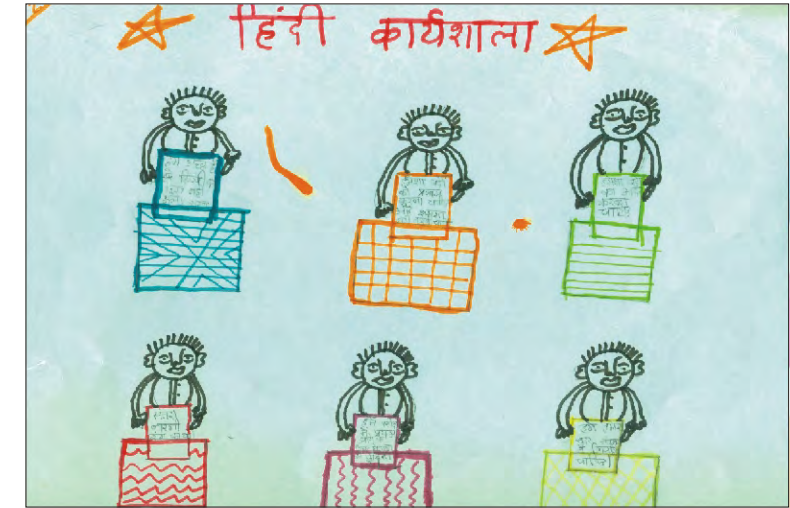

यश्वी खंडेलवाल, 5 अ

मुझे याद है वो दिन जब मैंने अपने दोस्तों के साथ विद्यालय में हिंदी सप्ताह मनाया था। इसी समय मुझे ज्ञात हुआ कि 14 सितंबर को हिंदी दिवस के रूप में मनाया जाता है। इसके द्वारा हम अपनी भाषा को और अधिक बढ़ावा दे सकें व समझ सकें यही इसका उद्देश्य है। इस दिन हमने कक्षा में हिंदी के प्रसिद्ध साहित्यकारों के बारे में व उनकी प्रसिद्ध रचनाओं के बारे में जाना। हमने तुलसीदास, मीराबाई, कवीर, सूरदास आदि अनेक लेखकों और कवियों के बारे में समूह में जानकारी एकत्रित की व उन्हें रंग-विरंगे चार्ट पेपर पर लिखकर कक्षा में लगाया साथ ही अपने मित्रों के साथ जानकारी बाँटी।

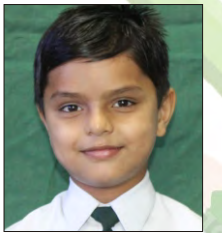

इसी दौरान हमने सीखा कि हमें अपनी राष्ट्रभाषा का सम्मान करना चाहिए।

वाल दिवस

14 नवंबर मेरा सबसे प्रिय दिन और हो भी क्यों न? आखिर यह दिन बच्चों का ही तो है। क्योंकि इस दिन हमारे देश के प्रथम प्रधान मंत्री पंडित जवाहरलाल नेहरू का जन्म दिन होता है उन्हें बच्चों से बहुत अधिक स्नेह था इसीलिए प्रत्येक वर्ष उनकी याद में यह दिन वालदिवस के रूप में मनाया जाता है। यह दिन तब और भी खास हो जाता है जब इस दिन हमारे विद्यालय में शिक्षक हमारे लिए अनेक रंगारंग कार्यक्रमों का आयोजन करते हैं। तब हमें ऐसा लगता है कि हम हमेशा बच्चे ही बने रहें कभी बड़े नहीं। हमारे शिक्षकों द्वारा किया गया आयोजन इतना मनमोहक होता है कि कभी-कभी हम रो भी पड़ते हैं। इस दिन हमें मिठाई या चॉकलेट मिलती है।

वाल दिवस

चलो बच्चों चलो वाल दिवस आया है,
बहुत सारी खुशिया लाया है।
बच्चों के लिए सबसे अच्छा दिन,
चलो बहुत सारी खुशियाँ मनाएँ
सबको चाचा नेहरू की याद दिलाएँ।
चलो बच्चों चलो
वाल दिवस आया है।
प्यारे चाचा नेहरू की याद लाया है
आओ मिलकर यही मनाएँ
कि हम भी चाचा नेहरू जैसा बन पाएँ।

मेरे प्यारे पापा

माँ घर का गौरव तो पिता अस्तित्व होते हैं,
माँ के पास अश्रुधारा तो पिता के पास संयम होता है।
दोनों समय का भोजन माँ बनाती है तो,
जीवन भर भोजन की व्यवस्था करने वाले पिता को
हम सहज ही भूल जाते हैं।
कभी लगी टोकर या चोट तो 'ओ माँ' ही मुँह से निकलता है।
लेकिन रास्ते पर चलते कोई ट्रक, पास आकर ब्रेक लगाए तो,
'वाप रे' यही मुँह से निकलता है।
क्योंकि छोटे संकटों के लिए माँ है।
पर बड़े संकट आने पर पिता ही याद आते हैं।

प्रिय मौसम - 'वर्षा ऋतु'

मेरा प्रिय मौसम है 'वर्षा ऋतु'। मुझे वारिश में भीगना बहुत अच्छा लगता है। इस मौसम में वातावरण बहुत ही सुहावना लगता है। जहाँ देखो वस वहाँ हरियाली ही हरियाली दिखाई देती है। पेड़-पौधों में एक नया जीवन आ जाता है और फूल भी खिल उठते हैं। फूलों पर रंगविरंगी तितलियाँ घूमती हैं। यह दृश्य देखकर मेरी आँखों को बड़ा सुकून मिलता है। इस मौसम में पशु-पक्षी भी प्रफुल्लित हो जाते हैं। उनके लिए धरती पर घास, पेड़-पौधों पर, फल-फूल पत्तियाँ विकसित हो आती हैं। मुझे इस मौसम में मोर को नृत्य करते देखना बहुत अच्छा लगता है। जब भी वारिश आती तब यह हमारे देश का राष्ट्र पक्षी अपने पंख फैलाकर नृत्य करता। यह मौसम जून माह से लेकर अगस्त माह तक रहता है। इस मौसम में आसमान में सप्तरंगी इंद्रधनुष दिखाई देता है। जिसे देखकर लगता है कि प्रकृति कितनी सुंदर है। इस मौसम पर मैंने एक छोटी कविता लिखी है जो निम्नलिखित है:-

धुमड़-धुमड़ कर आते बादल,
साथ में वर्षा लाते बादल,
गरज-वरज कर आते बादल,
काले-काले भूरे और पीले बादल,
टप- टप- टप बरसाते जल,
कितना हमें सताते बादल,
लाते है संदेश बादल,
सीख हमें देते है बादल,
बूँद-बूँद पानी की भर लो,
जाने कब बरसेगा पानी।

मेरे प्यारे पापा

मेरी साहस, मेरी हिम्मत, मेरा सम्मान हैं पापा।
मेरी ताकत, मेरी पूँजी मेरी पहचान हैं पापा।
घर की इक-इक ईंट में शामिल उनका खून पसीना।
सारे घर की रौनक और शान हैं मेरे पापा।
मुझको हिम्मत देने वाले मेरा अभिमान हैं मेरे पापा।
सारे रिश्ते उनके दम से, सारी बातें उनसे हैं।
सारे घर की दिल की धड़कन हैं मेरे पापा।
शायद रव ने भेजा ये फल अच्छे कर्मों का,
उसकी रहमत, उसकी नेमत, उसका वरदान हैं मेरे पापा।

मेरे प्यारे पापा

मेरे पापा का जन्म 5 मई सन् 1972 में हुआ था। उनका जन्म स्थान सूरत है। उनका नाम आशीष तमाकुवाला है। वो हमारे परिवार के सबसे बड़े बेटे हैं और वे परिवार के प्रत्येक सदस्य की ज़रूरतों का ध्यान रखते हैं। मेरे पापा ने गांधी इंजीनियरिंग कॉलेज से मेकेनिकल में इंजीनियरिंग किया है। और अब वे उड़िसा की भूषण स्टील कंपनी में सीनियर मैनेजर के पद पर कार्यरत हैं। वे जब भी सूरत आते हैं मेरे लिए डेरों उपहार लाते हैं। वो मेरी पढ़ाई में भी मदद करते हैं। मेरे जीवन में मेरे पिताजी का बहुत महत्व है। पापा ने मुझे अंगुली पकड़कर चलना सिखाने के साथ-साथ ज़िम्मेदारियों और संस्कारों का पाठ भी पढ़ाया है। पापा ने मुझे कभी हार न मानने और हमेशा सही राह पर चलने की सीख दी है। मेरे पापा मेरा आदर्श हैं। वो मेरे सच्चे 'हीरो' हैं।

मेरा प्रिय भोजन

हम अपने भोजन में विभिन्न प्रकार की वस्तुओं को शामिल करते हैं। हमारे देश में विभिन्न धर्मों के लोग रहते हैं। उनका खान-पान भी अलग-अलग है। मेरा सबसे मनपसंद भोजन 'गुजराती थाली' है। ये भोजन हमारे देश के कई राज्यों में प्रसिद्ध है। कई लोग इस भोजन का आनंद लेने दूर-दूर से गुजरात आते हैं। 'गुजराती थाली' गुजराती लोगों को मुख्य भोजन है। ये लोग प्रत्येक त्योहारों में बनाते हैं और बड़े चाव से खाते हैं। इस भोजन में विविध प्रकार के मसालों का उपयोग किया जाता है। इसमें खमण, ढोकला, सेव-टमाटर, उनधीयु, कढ़ी खिचड़ी जलाराम की इत्यादि। मुझे ये सभी भोजन बहुत प्रिय है।

विद्यालय में मनाया 'हिंदी सप्ताह'

हमारे विद्यालय में प्रति वर्ष 'हिंदी सप्ताह' मनाया जाता है। यह हिंदी साहित्य के महान लेखक 'मुंशी प्रेमचंद' के जन्मदिन के अवसर पर मनाया जाता है। इस सप्ताह में विद्यालय की सभी हिंदी कक्षाओं में हिंदी की विभिन्न गतिविधियाँ होती हैं। सभी छात्र एवं छात्राएँ इनमें भाग लेते हैं। बड़ी कक्षाओं में अनुच्छेद लेखन, कहानी लेखन, कविता पाठ, अंताक्षरी विशेष प्रार्थना सभा इत्यादि गतिविधियाँ होती हैं। विद्यालय की छोटी कक्षाओं में बच्चों के हिंदी अक्षर सुधारने के लिए हमारी कक्षाओं में 'हिंदी सुलेख' वर्कशीट दी जाती है। सप्ताह के प्रतिदिन अलग-अलग वर्कशीट दी जाती है। जिसमें हिंदी के अक्षरों को किस तरह से सुंदर लिखा जाए वो सभी वर्कशीट में दिया होता है। वर्कशीट करने से पहले कक्षा में शिक्षकों द्वारा कुछ ऊँगलियों के व्यायाम करवाए जाते हैं। लिखते समय कैसे बैठना चाहिए, पेपर, नोट बुक टेबल पर कैसे रखनी चाहिए, पेन पेंसिल कैसे पकड़नी चाहिए, कितनी दूरी पर हमारी आँखों से नोटबुक दूर होनी चाहिए। ये सभी नियम हमें बताएँ जाते हैं। इन वर्कशीटों में स्वर, व्यंजन, वर्णमाला, हिंदी वाराखड़ी, अक्षरों के आकार की आकृतियों के चित्र जिनमें हमें रंग भरना होता है। छोटी कक्षाओं में भी हिंदी सुलेख के अलावा कविता पाठ और कहानी पठन भी करवाया जाता है। विद्यालय की छोटी कक्षाओं में 'हिंदी सुलेख प्रतियोगिता' होती है। सभी कक्षाओं में से जिनके अक्षर सुंदर होते हैं उन्हें पुरस्कार दिया जाता है। हमारी कक्षा से प्रितिका सिन्हारॉय को पुरस्कार मिला था। मुझे यह सप्ताह बहुत पसंद है। मेरे सुंदर अक्षरों का श्रेय विद्यालय में होने वाले 'हिंदी सप्ताह' को जाता है। मैं अपने शिक्षकों को धन्यवाद देती हूँ तथा सदैव उनकी आभारी रहूँगी।

विद्यालय में मनाया 'हिंदी सप्ताह'

मैंने विद्यालय में पहला हिंदी सप्ताह वर्ष 2012 में मनाया था। जब मैं कक्षा पहली में पढ़ रहा था। प्रतिवर्ष हमारे विद्यालय में 'हिंदी सप्ताह' हिंदी के महान कहानीकार 'मुंशी प्रेमचंद जी' की जयंती के उपलक्ष में मनाया जाता है। यह सप्ताह विद्यालय की सभी कक्षाओं में मनाया जाता है। इस पूरे सप्ताह में हिंदी कक्षाओं में भिन्न-भिन्न गतिविधियाँ करवाई जाती हैं। सभी छात्र एवं छात्राएँ बड़े उल्लास के साथ इसमें भाग लेते हैं। इस सप्ताह में हमें 'हिंदी सुलेख' की वर्कशीट दी जाती है। जिसको हमें हिंदी की कक्षा में पूरा करना होता है। सभी छात्र समय मर्यादा को ध्यान में रखते हुए अपनी-अपनी वर्कशीट पूरी करते हैं। प्रतिदिन नई-नई वर्कशीट दी जाती है। इस वर्कशीट में हिंदी की वर्णमाला वाराखड़ी कठिन अक्षरों की आकृतियाँ दी जाती है जिसमें हमें रंग भरकर पूरा करना होता है। इससे हमारे अक्षर सुंदर बनते हैं। वर्कशीट में हमारे शिक्षक इसमें हमें ए से लेकर डी तक ग्रेड भी देते हैं। हमें लिखते समय कैसे बैठना चाहिए, पेपर टेबल पर कैसे रखना चाहिए, हमारा सिर किस प्रकार होना चाहिए, पेन कैसे पकड़नी चाहिए ये सभी नियम बताएँ जाते हैं। मुझे यह सप्ताह बहुत अच्छा लगता है।

मेरे प्यारे पापा

मेरे पापा मुझसे बहुत प्यार करते हैं। उनका नाम विशाल विजय कुमार गुप्ता हैं। उनका जन्म पंजाब में हुआ है। उन्होंने अपनी पढ़ाई सरदार विद्यालय राष्ट्रीय संस्थान में की है। अब वे सूरत शहर में टेक्सटाईल क्षेत्र में कार्यरत हैं। वे मेरे लिए सबसे बड़े हीरो हैं। वे मेरा बहुत ध्यान रखते हैं। मेरे साथ खेलते हैं और हँसी मजाक भी करते हैं। मैंने एक कविता लिखी है जो इस प्रकार है -

पापा का प्यार है अनोखा,
जैसे शीतल हवा का झोंका।
खेल-खेल में मुझे बहुत हँसाया,
मस्ती मजाक करके आनंद दिलाया।
घोड़ा बनकर हाथी बनकर,

स्वतंत्रता दिवस

स्वतंत्रता दिवस एक राष्ट्रीय त्योहार के रूप में हमारे देश में धूमधाम से मनाया जाता है। 15 अगस्त 1947 को हमें अंग्रेजों की गुलामी से आज़ादी मिली। इस आज़ादी को दिलवाने में हमारे देश के स्वतंत्रता सेनानियों, क्रांतिकारियों का बहुत बड़ा योगदान है। हमारे विद्यालय में भी यह बहुत धूमधाम से मनाया जाता है। इसकी तैयारी हम बहुत पहले से शुरू कर देते हैं। 15 अगस्त को हम सब विद्यालय के प्रांगण में जमा होते हैं। पहले परेड की जाती है और फिर झंडा वंदन होता है।

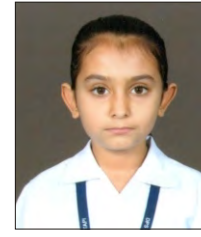

कोमल अग्रवाल, 6 अ

कई प्रकार के रंगारंग कार्यक्रम होते हैं। हमारी प्रधानाचार्या भाषण देती हैं और इस दिन का महत्व बताती हैं फिर मिठाई वितरण होता है। इस दिन हम देश के शहीदों को याद करते हैं व उन्हें श्रद्धांजलि अर्पित करते हैं।

जब शिक्षकों ने मनाया 'बाल दिवस'

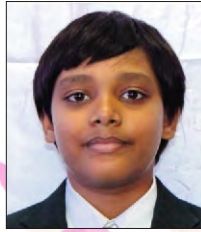

हमारे देश के सभी विद्यालयों में 14 नवम्बर को 'बाल दिवस' मनाया जाता है। यह दिन हमारे देश के प्रधानमंत्री जवाहर लाल नेहरू के जन्म दिन के उपलक्ष में मनाया जाता है। उन्हें बच्चों से अधिक प्यार था। हमारे विद्यालय में भी 'बाल दिवस' हर्षोल्लास के साथ मनाया गया। इस दिन विद्यालय के सभी शिक्षकों ने हम सभी बच्चों का मनोरंजन किया। शिक्षकों ने नाटक, गीत संगीत, नृत्य प्रस्तुत किये। इस दिन हम सभी बच्चों को विद्यालय की ओर से उपहार भी दिए। सभी बच्चे बहुत खुश थे। मैं अपने शिक्षकों को धन्यवाद देना चाहती हूँ क्योंकि उन्होंने हम सभी बच्चों का मनोरंजन किया।

जब हमने मनाया स्वतंत्रता दिवस

स्वतंत्रता या आज़ादी मनुष्य हो या पशु सभी को प्रिय है। ब्रिटिश शासन 1600 में आया और भारत 1947 में आज़ाद हुआ। इसीलिए 15 अगस्त को हम स्वतंत्रता दिवस के रूप में मनाते हैं। 15 अगस्त हम अपने विद्यालय में भी मनाते हैं। कुछ दिनों पूर्व से ही हम कदम ताल का अभ्यास शुरू कर देते हैं। कदम ताल के पश्चात् झंडा वंदन का कार्यक्रम होता है फिर हम सभी राष्ट्रगान गाते हैं उसके पश्चात् सभी विद्यार्थी वारी-वारी से आकर नृत्य, गीत आदि प्रस्तुत करते हैं। हमारे विद्यालय की प्रधानाचार्या इस दिन विद्यालय को संबोधित करती हैं। कार्यक्रम समाप्त होने पर हमें मिठाई मिलती है। यह त्योहार हमें अपने वीर शहीदों की याद दिलाता है व अपने देश के प्रति प्रेम और समर्पण की भावना जगाता है।

क्रिकेट मैच का आँखों देखा हाल

मैंने जो पहला क्रिकेट मैच अपनी आँखों से देखा था वह मेरे विद्यालय का था जो 6 व 7 जनवरी 2017 में हुआ था। यह मैच 6 दलों के बीच में था। वे दल इस प्रकार थे अग्नि, भूमि धातु, जलम जीवम और वायु। सबसे पहला मैच भूमि और वायु के बीच हुआ था। इस मैच में वायु जीती थी। दूसरा मैच जलम और अग्नि में था और यह मैच जलम जीत गई फिर तीसरा मैच वायु और जलम के बीच हुआ और मैच कौन जीता? वायु! फिर वायु को एक और मैच खेलना पड़ा वो भी जीवम के साथ और मुझे तो पता ही था कि कौन जीतने वाला है जीवम फिर अब शुरू हुआ सबसे दिलचस्प मैच धातु और जीवम के बीच। जब मैच चल रहा था मेरे सारे दोस्त मुझे पूछ रहे थे कि यह मैच कौन जीतेगा 'धातु' या जीवम और यह भी पूछ रहे थे कि तुझे कौनसा दल सबसे ज्यादा पसंद है। मैंने कुछ न बोला क्योंकि मेरे सारे दोस्त दोनों दलों में थे। आखिरकार धातु ही जीत गई।

वार्षिकोत्सव

हमारे विद्यालय में हर वर्ष वार्षिक उत्सव होता है, इस वर्ष यह उत्सव 24 दिसंबर 2016 को मनाया गया। इस वर्ष मेरी कक्षा नृत्य करने वाली थी और कुछ लोग गाने वाले थे। वार्षिक उत्सव में सभी बच्चों के माता-पिता को आमंत्रित किया जाता है। हमारे वार्षिक उत्सव की तैयारी एक माह पूर्व से शुरू हो जाती है। हमारा गति इतिहास के मोहनजोदड़ों से संबंधित था। उसमें मैं सबसे आगे था। हमारे गाने में कई सारे करतब थे। पहले करतब में हमें लड़कियों को अपनी पीठ पर उठाना था। अभ्यास के दिनों में हमें कुछ भी अलग नहीं पहनाया था किंतु वार्षिक उत्सव वाले दिन हमारे सिर पर दो बड़े साँग लगाए गए थे और एक कपड़ा भी बाँधा गया था। हमारे नृत्य के पहले सबके दिल में थोड़ा डर था।

क्रिकेट मैच का आँखों देखा हाल

क्रिकेट हमारे विद्यालय का प्रिय खेल है। दिनांक 6 | 1 | 17 को हमारे विद्यालय में विभिन्न दलों के बीच क्रिकेट मैच हुआ था। उस दिन सबसे अद्भुत मैच जीवम बनाम जलम का हुआ था। जीवम दल हारा हुआ मैच दो रन से जीत गई थी। जीवम की बल्लेबाजी कुछ खास नहीं थी और वे केवल 40 रनों का लक्ष्य ही रख पाए थे। जलम के लिए यह बेहद आसान था लेकिन वो ये लक्ष्य भी हासिल करने में असफल रही। जीवम की गेंदबाजी की शुरुआत भी खराब थी और सबने उम्मीद छोड़ दी थी कि जीवम जीतगी लेकिन जीवम ने अंतिम 3 ओवरों में जीत हासिल की।

वार्षिकोत्सव

वार्षिकोत्सव, सत्र समाप्ति के पूर्व प्रत्येक विद्यालय में मनाया जाने वाला एक महत्वपूर्ण कार्यक्रम है। यह हमारे विद्यालय के लिए एक त्योहार के समान होता है। हमारे विद्यालय में वार्षिक उत्सव प्रतिवर्ष ही बहुत उत्साह के साथ मनाया जाता है। यह संपूर्ण विद्यालय के लिए बड़े ही उत्साह एवं उमंग का समय होता है। शिक्षकगण एवं छात्र इसकी तैयारी मिलकर करते हैं। इस वर्ष हमारे विद्यालय का वार्षिक उत्सव 23 व 24 दिसंबर को मनाया गया। हमारे विद्यालय में प्रत्येक वर्ष वार्षिक उत्सव एक विशेष विषय से प्रेरित होता है। इस वर्ष यह विषय भारत के इतिहास पर आधारित था। इसका शीर्षक 'राज्य से स्वराज' तक था जिसे बड़ी ही खूबसूरती से पेश किया गया था। हड़प्पा संस्कृति से लेकर आधुनिक समय तक की झाँकी बड़ी ही सुंदरता से प्रस्तुत की गई थी।

इसकी तैयारी एक माह पूर्व से शुरू हो गई थी। प्रत्येक विद्यार्थी को इसमें शामिल किया गया था। हर कक्षा अपनी विषय वस्तु के अनुसार नृत्य एवं गाने की तैयारी करता। सम्राट अशोक, महाराणा प्रताप, टीपू सुल्तान, लक्ष्मी बाई, गांधी जी सभी महानायकों और उनकी गाथाओं को नृत्य और गाने के द्वारा पेश करने की अद्भुत तैयारी की गई। इसके साथ ही माननीय प्रधानाचार्या जी के द्वारा निर्देशित एक नाटक का भी मंचन किया गया मैं भी इसी नाटक का प्रतिभागी था। एलेकजेंडर और पौरस का यह नाटक इस वार्षिकोत्सव का शिखर था। इसका आयोजन संजीव कुमार सभागार में किया गया। साथ ही संपूर्ण वर्ष की विद्यार्थियों की उपलब्धियों का भी उल्लेख किया गया जिससे हमारा हौसला बढ़ा। यह मेरे लिए काफी रोमांचक व उत्साह से भरा समय था।

क्रिकेट मैच का आँखों देखा हाल

एक दिन हमारे विद्यालय में एक क्रिकेट मैच हुआ था। यह मैच धातु और जीवम दल के बीच हुआ था। यह मैच शनिवार को हुआ था। य मैच निर्णायक मैच था। जीवम दल ने धातु दल को 50 रनों का लक्ष्य दिया था। सभी खिलाड़ियों ने इस मैच को जीतने को लिए जी जान लगा दी। खेलने से हममें खेल भावना का विकास होता है। धातु दल ने 53 रन बनाकर मैच जीत लिया।

वार्षिकोत्सव

वार्षिक उत्सव का इंतज़ार मुझे बड़ी बेसब्री से रहता है क्योंकि वार्षिकोत्सव में नृत्य और संगीत के कार्यक्रम मुख्य रूप से होते हैं और नृत्य करना मुझे बहुत पसंद है। वार्षिक उत्सव प्रतिवर्ष दिसंबर माह में मनाया जाता है। इसकी तैयारी के लिए हम सभी विद्यार्थी पूरे माह तैयारी करते हैं। हमारे अभ्यास के अंतिम दो दिनों में पूरे विद्यालय का माहौल बहुत खुशनुमा होता है। विद्यालय संगीत और नृत्यमय हो जाता है। सभी छात्र एवं अध्यापक अपने समूह के साथ नृत्य अथवा संगीत का अभ्यास करते ही दिखाई देते हैं। कार्यक्रम से एक दिवस पूर्व हमें हमारे कार्यक्रम के लिए कपड़े दिए जाते हैं। अगर हमें कपड़े अच्छे लगते हैं तो हम बहुत खुश हो जाते हैं और अगर पसंद नहीं आते हैं तो हम उदास हो जाते हैं। चाहे कपड़े हमें अच्छे लगे या न लगे वार्षिक उत्सव के दिन हम सभी बहुत सुंदर दिखते हैं। जब हम विद्यालय में अभ्यास करते हैं तो हम बहुत मज़े करते हैं और मस्ती करते हैं।

वार्षिकोत्सव

विद्यालय जीवन में वार्षिक उत्सव का विशेष महत्व है क्योंकि इसका उद्देश्य विद्यार्थियों में अनुशासन लाना व अपनी प्रतिभा को सबके सम्मुख लाना होता है। वार्षिक उत्सव के द्वारा ही विद्यार्थियों में आत्म विश्वास का विकास होता है। मेरे विद्यालय में एक माह पूर्व से ही इसकी तैयारी शुरू हो जाती है अभ्यास के दौरान हम बहुत मोज मस्ती करते हैं। एक दिन पहले हमें अपने कार्यक्रम के कपड़े दिए जाते हैं उस दिन हम बहुत खुश हो जाते हैं। अगले दिन हम सभी अपने घरों से तैयार होकर जाते हैं और सभी बहुत सुंदर दिखते हैं। अभी से मुझे अगले वर्ष के वार्षिक उत्सव का इंतज़ार है कि हम अगले साल क्या नया करेंगे ?

स्वतंत्रता दिवस

15 अगस्त जो कि स्वतंत्रता दिवस के नाम से भी जाना जाता है यह हमारा राष्ट्रीय त्योहार है। यह दिन हमारे देश में बहुत धूमधाम से मनाया जाता है। महात्मा गांधी, सरदार वल्लभ भाई पटेल, जवाहर लाल नेहरू, भगत सिंह आदि इन सब देश प्रेमियों ने हमारे देश को आज़ाद कराने के लिए कई कष्ट झेले और हमारे देश को अंग्रेज़ों की गुलामी से आज़ादी दिलाई। भारत के पहले प्रधानमंत्री श्री जवाहर लाल नेहरू ने लाल किले पर तिरंगा झंडा फहराया था।

हमारे विद्यालय में स्वतंत्रता दिवस के दिन हम भी झंडा वंदन करते हैं और अपने देश की एकता और अखंडता को बनाए रखने की प्रतिज्ञा लेते हैं।

मेरी अविस्मरणीय यात्रा

हर व्यक्ति अपने जीवन में अनेक यात्राओं का अनुभव करता है। कुछ यात्राएँ मनोरंजन के लिए और कुछ आवश्यकतापरक होती हैं। मेरी गर्मी की छुट्टी में हम हर बार नाना-नानी के घर जाते हैं। क्योंकि वहाँ मेरा पूरा परिवार मामा से लेकर मौसी तक सभी रहते हैं परंतु इस बार हम वैष्णो देवी के दर्शन के लिए गए थे। वैष्णो देवी मंदिर जम्मू के पहाड़ी इलाके में स्थित है। वैष्णो देवी के पहाड़ बहुत सुंदर है। हमने हमारी यात्रा सूरत से कटरा को जाने वाली ट्रेन में बैठकर मेरी छुट्टियों के अगले ही दिन शुरू की। दूसरे दिन हमने दिल्ली में आराम किया। और अगले दिन दिल्ली से कटरा के लिए ट्रेन पकड़ी। मेरे मौसाजी ने रेलवे का गेस्ट हाउस बुक किया वहाँ पर आराम कर रात्रि 10 बजे हमने चढ़ाई शुरू की। अगली सुबह 6 बजे तक हम होटल पहुँच चुके थे। मेरे नानाजी ने मंदिर के दर्शन करने की व्यवस्था की। शाम को हम मंदिर गए परंतु मेरी मामी, दीदी और भैया नहीं आए। मेरे मामा आए थे पर उन्हें प्रवेश नहीं मिला क्योंकि उन्होंने निकर पहन रखी थी।

मेरी मम्मी ने जल्दी से बाहर की दुकान से एक साड़ी लाकर मामाजी को दे दी और लूंगी की तरह लपेटने को कहा। आरती खत्म करके जब गेस्ट हाउस पहुँचे तो मेरे मामा ने वह साड़ी मामी को भेंट स्वरूप दे दी। मेरी मामी सारी घटना से बेखबर साड़ी पाकर बहुत खुश थी। लेकिन मैंने गलती से सब बता दिया और फिर मामा और मामी में झगड़ा हो गया और इस साड़ी ने यह यात्रा अविस्मरणीय बना दी।

जब मैंने मनाया हिंदी सप्ताह

भारत देश की स्वतंत्रता के दो वर्ष बाद ही हिंदी को राष्ट्रीय भाषा का दर्जा दे दिया गया। 14 सितंबर सन् 1949 को भारतीय संविधान ने हिंदी को राष्ट्रभाषा के पद पर आसीन किया। इस दिन सभी शासकीय व निजी शैक्षणिक संस्थाओं व दफ्तरों में हिंदी भाषा के विकास व उसकी लोकप्रियता बढ़ाने तथा प्रचार प्रसार हेतु विभिन्न गतिविधियों का आयोजन किया जाता है। हमारा विद्यालय भी अनेक गतिविधियों का आयोजन करता है जैसे कविता पाठ जिसमें हम विभिन्न कवियों की रचनाओं का पाठ करते हैं। आशुभाषणमें हम दिए गए विषय पर निर्धारित समय में अपने विचार प्रस्तुत करते हैं। अनेक प्रकार के परियोजना से संबंधित कार्य। कई बार हम हिंदी के प्रसिद्ध नाटकों का मंचन भी करते हैं। इन सभी गतिविधियों को आयोजित करने का उद्देश्य यही होता है कि हम अपनी भाषा का सम्मान करें व उसके महत्व को दूसरों तक भी पहुँचाएँ। हिंदी सप्ताह एक ऐसा कार्यक्रम है जो सभी स्कूली बच्चों को अपनी मातृभाषा के करीब तो लाता ही है साथ ही एक अविस्मरणीय याद दे जाता है।

मेरी अविस्मरणीय यात्रा

यात्रा का अर्थ है एक स्थान से दूसरे स्थान पर जाना। सभी लोग यात्रा पर जाते हैं कोई यात्रा मनोरंजन के लिए होती है कोई यात्रा अविस्मरणीय होती है कोई दर्दभरी होती है। मेरी अविस्मरणीय यात्रा थी जब मैं असम गया था। दिन की शुरुआत ठीक 5 बजे हुई थी और हमेशा की तरह मेरा उठने का विल्कुल मन नहीं था पर मन मारकर उठना पड़ा। उठते ही सबसे पहली आवाज़ मेरी माँ ने लगाई वेटा जल्दी तैयार हो जाओ हमें कुछ ही समय में निकलना है। मैं जल्दी से उठा और तैयार हो गया। 7 बजे तक कुछ दिनों के लिए हमने अपने घर को अलविदा कह दिया। और फिर शुरू हुई हमारी यात्रा वो ही परेशान करने वाली यात्रा पहले ट्रेन में फिर हवाई जहाज आदि। आखिर में कुछ परेशानियों के बाद हम एक कोने से दूसरे कोने तक पहुँच गए मतलब हम असम में प्रवेश कर चुके थे। वहाँ मैं अपने परिवार से मिला उनका प्यार देखकर मेरी आँखें भर गईं। पता ही नहीं चला चार दिन इतनी जल्दी कैसे बीत गए। अगले ही दिन हम सूरत के लिए लौट आए। सब कुछ वैसा ही था जैसा हम छोड़ कर गए थे पर मेरा मन अभी भी वहीं घूम रहा था। मैं यह यात्रा कभी नहीं भूल सकता।

जब मैंने किया मतदान

हमारे विद्यालय में मतदान दिवस 6 जनवरी 2017 को मनाया गया। विद्यालय में कुल 6 दल हैं। मैं 'धातु' दल में हूँ। मतदान के लिए हमें अपने क्रीडांगण में जाना था। हम जैसे ही विद्यालय पहुँचे तुरंत ही मतदान के लिए चले गए। धातु दल कप्तान के पद के लिए खड़े थे अपूर्व सिंह व कार्तिकेन वरनवाल। मैंने कार्तिकेन वरनवाल को अपना मत दिया क्योंकि वो मेरी नज़र में अच्छे कप्तान साबित हो सकते थे। उपकप्तान के लिए खड़े थे मोहम्मद उज़ेर, जैनिन चौधरी व खुशी शाह। मैंने मोहम्मद उज़ेर को चुना। हमने मतदान आइपैड से किया था। मतदान शुक्रवार को हुआ था और परिणाम सोमवार को आने वाले थे। अपूर्व सिंह कप्तान व मोहम्मद उज़ेर उपकप्तान बने थे।

मेरी अविस्मरणीय यात्रा

हमारे विद्यालय में 6 जनवरी 2017 को मतदान का आयोजन किया गया था। मतदान अर्थात् अपना मत अथवा विचार प्रस्तुत करना। किसी भी संस्था को सुचारु रूप से चलायमान रखने के लिए उसमें अनुशासन बनाए रखने के लिए चुनाव अत्यंत आवश्यक है क्योंकि चयनित व्यक्ति उस संस्था में होने वाली विभिन्न गतिविधियों पर अपनी नज़र रखता है सभी को साथ लेकर चलता है। अतः मतदान करना अत्यंत हमारा अधिकार एवं महत्वपूर्ण दायित्व है। हमें मतदान ऐसे व्यक्ति को देना चाहिए जो बुद्धिमान होने के साथ-साथ हमें जोड़कर रख सके। हमारे विद्यालय में भी मतदान का आयोजन किया गया। जहाँ हमें अपने दल के लिए कप्तान और उपकप्तान चुनने थे। हमारे विद्यालय में छह दल हैं : अग्नि, भूमि, धातु, जलम, जीवम और वायु। मेरा दल है भूमि। 6 जनवरी को जब हम विद्यालय आए तब हमारी कक्षाध्यापिका ने हमें बताया कि आज हमारे विद्यालय मतदान किया जाएगा। इस हेतु हमारी अध्यापिका ने हमें सारी प्रक्रिया समझाई कि किस प्रकार मतदान का कार्य किया जाएगा। अतः अध्यापिका द्वारा दिए गए निर्देशों का पालन करते हुए हम मतदान हेतु स्पोर्ट्सकॉम्प्लेक्स में गए। वहाँ पर मैं भूमि दल के सदस्यों के साथ एक पंक्ति में खड़ी हो गई। अपनी बारी आने पर अपने नाम के सामने हस्ताक्षर कर हम खेल भवन में गए, वहाँ जाकर हमने डिजिटल मतदान प्रक्रिया में भाग लिया क्योंकि हमें मतदान हेतु आई पैड प्रदान किए गए थे। प्रत्येक दल के लिए अलग आई पैड लेकर एक अध्यापिका बैठी थी। उन्होंने हमें निर्देश दिए कि कप्तान एवं उपकप्तान के पद के लिए प्रत्येक दल से दो-दो विद्यार्थियों को चुना गया है जिसमें से किसी एक को हमें अपना कप्तान व उपकप्तान चुनना था। मैंने विधि दीदी को कप्तान के रूप में तथा देव भैया को उपकप्तान के रूप में चुना था।

मेरी अविस्मरणीय यात्रा

विद्यार्थी जीवन में पढ़ाई के साथ-साथ खेलना, घूमना आदि भी अत्यंत आवश्यक होता है। इसके द्वारा हमारा शरीर एवं मस्तिष्क स्वस्थ रहते हैं। विभिन्न यात्राओं के द्वारा ही हम बाहरी दुनिया को जान पाते हैं। जीवन की वास्तविकता से हमारा परिचय होता है। हमारा विद्यालय भी विद्यार्थियों के सर्वांगीण विकास को महत्व है। अतः प्रतिवर्ष हमें कहीं न कहीं यात्रा का अवसर मिलता है। इस वर्ष हमारे विद्यालय की ओर से अहमदाबाद, कुभलगढ़ और उदयपुर की यात्रा का आयोजन किया गया था। इस यात्रा का उद्देश्य विभिन्न ऐतिहासिक इमारतों से हमारा परिचय करवाना था अर्थात् एक पंथ दो काज। एक ओर जहाँ मित्रों के साथ रहने की खुशी वहीं दूसरी ओर हँसते-हँसते खेल-खेल में ज्ञान अर्जित करने का अवसर।

अहमदाबाद में हम लोथल, सावरमती आश्रम तथा काँकरिया तालाब घूमे। लोथल एक ऐतिहासिक स्थल है। यहाँ पर हमने हड़प्पा संस्कृति के दर्शन किए। वहाँ बनी हुई वस्तुओं को देखकर वहाँ के लोगों की बुद्धिमत्ता का ज्ञान होता है। इसके बाद हम सावरमती आश्रम देखने गए। वहाँ पर गाँधीजी के द्वारा अपनाई गई वस्तुओं को देखा। उनके द्वारा चलाए गए चरखे को हमने देखा। इसके उपरान्त हम काँकरिया तालाब गए जहाँ हमने दोस्तों के साथ खूब मस्ती की। इसके बाद हम उदयपुर के लिए निकले। वहाँ पर हमने कई किले देखे। सहेलियों की वाड़ी में घूमे। कुभलगढ़ किला देखने गए। उदयपुर और कुभलगढ़ के किले में हमने राजस्थानी संस्कृति के दर्शन किए। नई-नई जानकारी ग्रहण करने के साथ-साथ मित्रों के साथ मैंने बहुत अच्छा समय बिताया। मेरे यह यात्रा मेरे अत्यंत अविस्मरणीय बन गई।

शास्त्रीय संगीत

शास्त्रीय संगीत ध्वनि प्रधान होता है। इस संगीत में शब्द के स्थान पर ध्वनि की प्रधानता भी होती है और महत्व भी। प्राचीन काल से ही मनुष्य संगीत प्रेमी रहा है। तबला, सितार, हारमोनियम, वाँसुरी आदि शास्त्रीय वाद्ययंत्र हैं। समय के साथ-साथ संगीत के कई प्रकार भी विकसित हुए हैं जैसे - सूफी संगीत, कव्वाली आदि। बीते कुछ वर्षों में शास्त्रीय संगीत कहीं खो गया था ऐसा प्रतीत होने लगा था परंतु वर्तमान समय में शास्त्रीय संगीत का प्रचलन बढ़ा है। आज विद्यालयों में शास्त्रीय संगीत सिखाया जाने लगा है जिससे प्रभावित होकर छात्र शास्त्रीय संगीत में अपनी रुचि दिखाने लगे हैं तथा शास्त्रीय संगीत से जुड़ने लगे हैं। वर्तमान समय में संगीत चाहे बदल गया हो किंतु आज भी जब संगीत चलता है तो मनुष्य अपनी सभी कठिनाइयों, तकलीफों को भुलाकर संगीत के आनंद में डूब जाता है।

कुँवरदीप सिंह छावड़ा, 8 अ

शास्त्रीय संगीत

भारतीय शास्त्रीय संगीत के दो प्रमुख आयाम हैं - हिंदुस्तानी शास्त्रीय संगीत और कर्नाटकीय संगीत। कहा जाता है शास्त्रीय संगीत को सुनने से हमारे दिमाग सुकून मिलता है। यह हमारी सेहत के लिए बहुत अच्छा है। शास्त्रीय संगीत के लिए तो यह कहा जाता है कि यदि इसे पौधों को सुनाया जाए तो उनका विकास भी तीव्र गति से होता है। आज शास्त्रीय संगीत दुनिया में अपना महत्व धीरे-धीरे खो रहा है। आजकी युवा पीढ़ी ने भारतीय संस्कृति एवं संगीत को छोड़कर वैस्टर्न म्यूजिक को अपना लिया है। किंतु आज भी शास्त्रीय संगीत अपना वजूद पूरी तरह से कायम किए हुए है। कुछ समय पूर्व तक शास्त्रीय संगीत से लोग दूर भागते थे परंतु आज की युवा पीढ़ी ने पुनः शास्त्रीय संगीत के महत्व को पहचान तथा उसमें रुचि दिखाना आरंभ किया है। जिससे वह शास्त्रीय संगीत धीरे-धीरे गुमनामी की ओर बढ़ता चला जा रहा था आज पुनः अपनी पहचान तथा अपना स्थान बनाए रखने में सक्षम हुआ है।

हमारे विद्यालय में नवरात्री का आयोजन

नवरात्री का अर्थ होता है "नौ रात्रि"। इन नव रात्रियों में हम देवी पूजा-आराधना करते हैं तथा उन्हें प्रसन्न करने का प्रयास करते हैं। वैसे तो यह पर्व देश के विभिन्न भागों में मनाया जाता है परंतु गुजरात और कोलकाता में इस अवसर पर विशेष पूजा अर्चना की जाती है। हमारे विद्यालय में इस अवसर विशेष कार्यक्रम का आयोजन किया जाता है। हमारे विद्यालय में इस पर्व को महिलाओं की शक्ति के पर्व के रूप में आयोजित किया जाता है। जैसा कि हम जानते हैं कि गरवा गुजरात का नृत्य है, अतः हमारे विद्यालय में भी इस अवसर पर गरवा नृत्य का आयोजन किया जाता है। इस अवसर पर विद्यालय में छात्रों को तथा उनके अभिभावकों को आमंत्रित किया जाता है तथा विभिन्न प्रतियोगिताओं को आयोजित किया जाता है। विजेता विद्यार्थियों को पुरस्कार दिया जाता है। इस प्रकार नवरात्री का पर्व हमारे विद्यालय में धूमधाम से मनाया जाता है।

करते हैं सब आरती माँ की
पूजा माँ की अर्चना माँ की
शक्ति का प्रतीक है यह पर्व
जो देता है स्त्री के अस्तित्व को महत्व
चार चाँद लग गए इस पर्व में
जब किया गया भव्य आयोजन इस हेतु विद्यालय में
आमंत्रित थे सभी अभिभावक गण
जो आए थे पहनकर पारंपरिक वेशभूषा और आभूषण
शिक्षक विद्यार्थी बच्चे और बूढ़े
सभी थे नवरात्री के आनंद में डूबे
सुसज्जित था विद्यालय का सुंदर मैदान
जहाँ छेड़ी सबने गरवे और डांडिया तान
खेले खूब डांडिया मचाई खूब धूम
मिलने पर पारितोषिक उठे खुशी से झूम

किले : हमारी ऐतिहासिक धरोहर

सभी राजाओं की राजधानी एक दुर्ग होती थी जिसके चारों ओर नगर बस जाता था। यह व्यवस्था दक्षिण एशिया के अनेक नगरों में देखी जा सकती है। जैसे - आगरा, दिल्ली लाहौर, पूणे आदि। भारत के दो दुर्ग यूनेस्को की विश्व विरासत सूची में सम्मिलित हैं - आगरा का किला और लाल किला। भटिंडा में स्थित किला मुबारक भारत के प्रचीन किलों में से एक है। इसका निर्माण कुषाण साम्राज्य के समय लगभग 100 ई. में हुआ था। कांगड़ा दुर्ग कांगड़ा वंश द्वारा निर्मित किया गया था। दिल्ली स्थित लाल किला मुगल शासक शाहजहाँ द्वारा निर्मित है। भारत में अन्य अनेकों दुर्ग हैं। प्रत्येक का अपना एक इतिहास है। किले अथवा दुर्ग हमारी धरोहर हैं। हमें इन्हें संभाल कर रखना चाहिए। इनकी सुरक्षा, साफ-सफाई तथा सार-संभाल पर विशेष ध्यान देना चाहिए। भारतीय होने के कारण अपनी ऐतिहासिक धरोहर की देखभाल करना हमारा कर्तव्य भी है और अधिकार भी।

आयुष गोलवाला, 8 अ

किले : हमारी ऐतिहासिक धरोहर

धरोहर अर्थात् पूर्वजों द्वारा प्राप्त वस्तु जिसे अगली पीढ़ी को हस्तांतरित किया जाता है। किले हमारी ऐतिहासिक धरोहर हैं जिनका निर्माण हमारे पूर्वजों द्वारा किया गया था। हमें हमारे पूर्वजों द्वारा दी गई विरासत को संभाल कर रखना चाहिए। यह किले हमारा इतिहास दर्शाते हैं। इन किलों की खूबसूरती आज भी कायम है और इसे बनाए रखने के लिए हमें निरंतर प्रयासरत रहना चाहिए। प्राचीनकाल में जब मशीनों की सुविधा नहीं थी तब इन किलों का निर्माण तत्कालीन कारीगरों ने अपने हाथों से इसका निर्माण किया। उन किलों की खूबसूरती आज भी वरकरार है। यदि आज की इमारतों की तुलना प्राचीन किलों से की जाए तो उनकी खूबसूरती और मजबूती वर्तमान समय में बनी इमारतों से कहीं अधिक है। हमारे देश में कुछ प्रसिद्ध किलों में गोलकुंडा का किला, कुंभलगढ़ का किला, लाल किला, जैसलमेर का किला, आमेर का किला आदि। इन प्राचीन इमारतों को सहेज कर रखना हमारा दायित्व है। यह किले हमारी संस्कृति को दर्शाते हैं। अतः सरकार के साथ-साथ हमारा भी दायित्व ही कि हम इनकी रक्षा करें।

खुश थे सब हमें खेलते देख,
जहाँ सबको मिलती एक नई सीख।
गणित के देखे हमने नए रंग
और कोई न करता हमारे सुख को भंग।
हमने सीखा कैसे बढ़ाएँ एकता,
खुश हो जाता जो हमें देखता।

इंसानियत है श्रेष्ठ धर्म, जिसमें करते हैं लोग अच्छे कर्म।
परंतु धर्म के नाम पर लूटने वालों को, क्यों नहीं आती शर्म
धर्म सिखाता है सबसे करना प्यार और बढ़ाना सदाचार।
ढोंगी बाबा देते हैं जो नशीला प्रसाद, करते हैं उसे सब स्वीकार।
फिर रोतेक्योंकि हो जाते हैं बर्बाद।
धर्म को कलंकित करने वालों का करना चाहिए बहिष्कार।
धर्म के नाम पर मीलों चलते लोग हज़ार।
किसी अंधे या वृद्ध को कराता नहीं कोई सड़क पार।
धर्म के नाम पर लोग पत्थर को लगाते छप्पन भोग।
नहीं दिलाता कोई दरिद्र को दवाई जिसे हो भारी रोग।
मूर्तियों के गले में डालते हो हार,
नहीं पूजते उनको जिन्होंने दिया जीवन का उपहार।
हमारे देश में बेटी को कोख में मार दिया जाता है।
कौनस धर्म है जो ऐसा सिखाता है?

क्रीड़ांगण

छोटे-बड़े बच्चे प्यारे, खेलते हैं बच्चे सारे।
दोस्तों के संग खेलना उनको, यही भाता है उनको।
पाठशाला में भी हमारे बना है क्रीड़ांगण
ऐसा और न देखा हमने कहीं प्रांगण।
हैक्रीड़ांगण में हर वो खेल, जो हम खेलना चाहते हैं।
खेलकर ये सारे खेल मज़बूत बनना चाहते हैं।
कीर्तिमान रचकर कोई नया, इसे सार्थक करना चाहते हैं।

श्रमदान की महिमा

श्रमदान अर्थात् श्रम का दान। अर्थात् जनहित हेतु स्वेच्छा से परिश्रम करना। श्रमदान करने पर हम दूसरों की सहायता तो करते ही हैं पर उस सहायता के साथ हमें आत्मिक सुख की प्राप्ति भी होती है। श्रमदान के माध्यम से व्यक्ति समाज को लाभान्वित करता है। छोटे स्तर पर श्रमदान हमने भी किया था जब हमने अपने विद्यालय के बगीचे की तथा अपनी कक्षा की सफ़ाई की थी। मित्रों के साथ मिलकर किसी कार्य को करने का अपना अलग ही आनंद होता है। हम सभी ने मिलकर हँसते-खेलते क्व पूरा बगीचा साफ़ कर दिया पता ही नहीं चला। वास्तव में उस दिन हमें सुख और गौरव का अनुभव हुआ जब हमने अपने विद्यालय हेतु कार्य किया।

श्रमदान स्वयं को प्रसन्न रखने का एक श्रेष्ठ माध्यम है। कुछ व्यक्ति ऐसे भी होते हैं जो इस संसार में अकेले होते हैं और दूसरों की सहायता करके वे अपना परिवार बना लेते हैं। श्रमदान समाज के प्रत्येक व्यक्ति को करना चाहिए क्योंकि इसके माध्यम से इंसानियत का भाव जाग्रत होता है।

पशु भी अपने समाज और प्रजाति के कल्याण के लिए मेहनत करते हैं तो हम मनुष्यों को भी अपने समाज के कल्याण के कार्य करने के लिए निरंतर कुछ न कुछ कार्य करना चाहिए। गरीबों के लिए विद्यादान, उनके क्षेत्र को साफ़ रखने हेतु जाग्रत रखने हेतु उनके साथ हमें भी श्रमदान करना चाहिए।

श्रमदान की महिमा

श्रम का अर्थ होता है मेहनत। मनुष्य के पास श्रम के अतिरिक्त कोई वास्तविक संपत्ति नहीं है। जीवन में श्रम अनिवार्य है। जहाँ कठिन परिश्रम करने पर हम जीवन में सफलता प्राप्त करते हैं वहीं दूसरों के लिए कार्य करने पर हमें आत्मिक सुख की अनुभूति होती है। श्रमदान करने के बाद जो संतुष्टि का एहसास है वह हमें स्वर्गिक आनंद प्रदान करने वाला होता है। श्रमदान करके हम जनता की सेवा करते हैं। श्रमदान बहुत अच्छा गुण है। इसके माध्यम से हम समाज की सेवा कर सकते हैं। हम श्रमदान कई प्रकार से कर सकते हैं जैसे :-
मोहल्ले की सफ़ाई करना
रास्ते पर से पत्थर हटाना
गरीब बच्चों को पढ़ाना
वृद्धाश्रम में वृद्धों की सेवा करना
श्रमदान करने से हम पुण्य के भागी तो बनते ही हैं साथ ही हम स्वयं भी संतुष्टि का अनुभव करते हैं। अतः अपने संतोष एवं समाज की सेवा के लिए हमें श्रमदान अवश्य करना चाहिए।

आन-अपान-ध्यान-साधना : विपासना

विपासना आत्मनिरीक्षण द्वारा आत्मशुद्धि करने की अत्यंत सरल विधि है। वर्तमान में जीवन जीओ जो जैसा देखे उसे वैसा ही देखना और समझना। लगभग 2500 वर्ष पूर्व भगवान गौतम बुद्ध ने गुप्त हुई इस पद्धति का पुनः जीवित किया। इस पद्धति को सार्वजनिक कर उन्होंने सभी के लिए सुलभ बनाया। इस विधि के द्वारा हम जीवन में एकग्रता अपनाते हैं और वर्तमान में जीवन जीने कला को सीखते हैं। विपासना विधि का उद्देश्य जीवन में संपूर्ण एकाग्रता एवं परममुक्ति की अवस्था को प्राप्त करना है। इस साधना का उद्देश्य केवल शारीरिक रोगों को दूर करना ही नहीं बल्कि मानव मात्र को वर्तमान में जीवन जीने की कला से अवगत कराना भी है।

विद्यालय में विज्ञान मेले का आयोजन

प्रतिवर्ष की भाँति इस वर्ष भी हमारे विद्यालय में 25 नवंबर 2016 विज्ञान मेले का आयोजन किया गया। सभी अपने-अपने प्रयोग और परियोजना कार्य में व्यस्त थे। मुझे रसायन विज्ञान से संबंधित प्रयोग करने थे अतः मैं कक्षा में अपने अन्य सहपाठियों के साथ नहीं था। मेरी अध्यापिकाजी ने मुझे रसायन विज्ञान की प्रयोगशाला में बैठने के लिए कहा था। मैंने मेरे साथी के साथ मिलकर कई प्रयोग किए। यद्यपि मैंने व मेरे मित्र माधव ने एक दूसरे की बहुत सहायता की तथापि मुझे बहुत परेशानियाँ झेलनी पड़ी।

हमने सभी प्रयोग प्रयोगशाला में किए थे क्योंकि हमारे प्रयोग करते समय सावधानी बताने की आवश्यकता थी। अपने प्रयोगों के लिए हमने बहुत तैयारी की थी। हमारे प्रयोग हमारी अध्यापिका को तथा अभिभावकों बहुत प्रसंद आए। इस मेले के दौरान रसायन विज्ञान को वास्तविक जीवन से जोड़ कर देखने का अवसर मिला जो हमारे लिए अत्यंत लाभदायक रहा।

श्रमदान की महिमा

जीवन के प्रत्येक क्षेत्र में श्रमदान अनिवार्य है। जीवन कर्म का पर्याय है। मानव के चरित्र-निर्माण में अनेक गुणों की आवश्यकता होती है। मानव जीवन में श्रम का स्थान अत्यधिक महत्वपूर्ण है। परिश्रम किए बिना मनुष्य का जीवन संपूर्ण नहीं होता। व्यक्ति के अच्छे-बुरे कार्यों से ही उसकी छवि बनती है। अच्छी भावना एवं ईमानदारी से किया गया प्रत्येक कार्य अपनेआप में अच्छा ही होता है। मनुष्य अपनी मेहनत से ही सम्मान पाता है। अतः हमें ईश्वर प्रदत्त अपनी शारीरिक एवं मानसिक शक्ति का सदुपयोग करना चाहिए तथा सदैव दूसरों की सहायता हेतु तत्पर रहना चाहिए। श्रमदान के माध्यम से समाज सेवा करने वाले व्यक्ति सदैव सम्मान के अधिकारी होते हैं। श्रमदान के द्वारा हम समाज एवं राष्ट्र अनजाने में ही सहायता कर देते हैं। जब हम दूसरों की सहायता करते हैं तब मनुष्य स्वयं भी खुशी का अनुभव करता है।

आन-अपान-ध्यान-साधना : विपासना

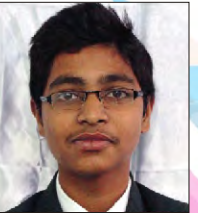

विपासना मनुष्य जाति के इतिहास महत्वपूर्ण प्रयोग विधि है विपासना। विपासना वह विधि है जिसके द्वारा मनुष्य की एकाग्रता बढ़ती है और वह अपने वर्तमान क्रिया-कलापों को पर ध्यान केंद्रित करना सीखता है।

विपासना सर्वाधिक सरल व आसान प्रयोग क्रिया है। इस क्रिया में हमें अपना ध्यान अपनी श्वास पर केंद्रित करना होता है। इसके अंतर्गत हमें हमारी श्वास के आने जाने को देखना होता है

अर्थात् श्वास पर ध्यान केंद्रित कर इस पार देह तथा उस पार चैतन्य एवं मध्य में श्वास है ऐसा मानकर चैतन्य की प्राप्ति हेतु अपनी श्वास को स्थिर करना होता है। जो श्वास को देखेगा वह श्वास से भिन्न हो जाएगा और जो श्वास से भिन्न हो गया वह जीवन से भिन्न हो गया क्योंकि हमारी श्वास क्रोध के समय, खुशी के समय, दुःख के समय तथा शांत भाव के समय पृथक-पृथक गति से चलती है। अतः यह सिद्ध होता है कि हमारे श्वासों की गति हमारे भावों पर निर्भर करती है। इस विधि के द्वारा हम अपने क्रोध, उल्लेखना, दुःख आदि भावों पर नियंत्रण कर एक शांत व सरल जीवन जी सकते हैं।

बुद्ध कहते हैं कि विपासना एक अद्भुत प्रक्रिया है जिसके माध्यम से मनुष्य अपने भावों को नियंत्रित कर जीवन में उन्नति के पथ पर अग्रसर हो सकता है।

પાણી બચાવો

પાણી વગર જીવન સુકાયેલું હોય. ઉનાળામાં વધુ મિત્ર તુ આવે છે, અને ખુબ જ ઠંડક લાવે છે. લોકો આ પાણીનો સારી રીતે ઉપયોગ કરતાં નથી. થોડું પાણી પીને બાકીનું ફેંકી દે છે. આ જ પાણી ફેંકીને દેતા વાટકીમાં સાચવીને પક્ષીઓ માટે રાખી શકાય છે. જો આવી જ રીતે પાણીનો બચાવ કરતા રહેશે તો પૃથ્વી સુખી રહેશે, પ્રાણીઓ પક્ષીઓ મરવા લાગશે. ખેડુતો પાસે પાણી નહિ રહેશે તો અનાજ કઈ રીતે ઉગશે અને આપણી ભુખ પણ મીટાવી નહિ શકીએ. જો આપણે આપણું નાથવા દેવું હોય તો આપણે સહુને મળીને પાણીનો બચાવ કરવો જોઈએ. આપણે બધાએ પ્રતિજ્ઞા લેવી જોઈએ કે આપણે પાણીનો બચાવ નહીં કરીએ.

પરીઓની દુનિયા

આ મારી પરીઓની દુનિયા છે જ્યાં પરીઓ પાસે સુંદર સુંદર કપડાં હોય, બહુ બધા રમકડાં હોય અને ત્યાં બધા જ સુંદર રીતે તૈયાર જોવા મળે છે. મને મારી આ દુનિયાનો બગીચો બહુ જ ગમે છે કારણકે ત્યાં મારી ઈચ્છાએ મારા મિત્રો સાથે રમી શકું, મસ્તી કરી શકું, ગીત ગાઈ શકું. મારી પરીઓની દુનિયા એ એક સપનું છે પણ જો એ હકીકત હોય તો હું આ દુનિયા માંથી ક્યારેય ના જાઉં .

મારી મનપસંદ ચોપડી

મારી મનપસંદ ચોપડી ' સત્યના પ્રયોગ' છે. આ ચોપડી ગાંધીજી ના જીવન પર આધારિત છે. તેમાં ગાંધીજીએ પોતાના જીવન ની વાત કરી છે. તેમના જીવનનો સિદ્ધાંત કે સત્યના માર્ગ પર ચાલવું એન તેમણે સત્ય ના માર્ગ પર ચાલી આપણા દેશને આઝાદી આપાવી. મે સત્યના પ્રયોગ પુસ્તકમાંથી ઘણું બધું જ્ઞાન પ્રાપ્ત કર્યું. અને હું ગાંધીજીના ઘણા નિયમોને ધ્યાન માં રાખી મારી જીવન શૈલી ને બદલીશ. ગાંધીજીના સત્યના પ્રયોગ ખરેખર દરેક બાળમિત્રએ વાંચવી જોઈએ જેથી કરીને દરેક બાળક સત્ય તરફ પ્રયાણ કરી શકે.

જળ બચાવો

પાણી આપણા જીવન માટે ખૂબ ઉપયોગી છે. મનુષ્ય પાણી નો ઉપયોગી કામમાં કરીએ છીએ. જેમકે પાણી પીવા, કપડાં ધોવા, વાસણ સાફ કરવા વગેરે જીવન જરૂરી વસ્તુઓ માટે પાણી ની જરૂર પડે છે. ગામડા માં લોક પાણી ખૂબ સાચવી ને વાપરે છે કારણ કે ઘણા ગામડા માં તો પાણી કુવા માંથી લેવામાં આવે છે અને કપડા ધોવા, વાસણ ધોવા પણ કુવા પાસે જવું પડે છે. પીવાનું પાણી પણ તેઓ કુવા માંથી લે છે. એટલે તેઓ પાણી નો ઉપયોગ સાચવીને કરે છે. આપણે પણ પાણી નો સાચવી ને ઉપયોગ કરવો જોઈએ. પાણી ને સાચવી ને વાપરવું અને હાથ ધોવા, નહાવા, વાસણ ધોવા, કપડા ધોવા, જરૂર મુજબ પાણી નો ઉપયોગ કરવો. અંત માં ફક્ત એટલું જ કહેવું છે ' જલ્મ જ જીવન છે' પાણી બચાવો જીવન બચાવો.

પાણી બચાવો

પાણી વગર આપણું જીવન અસંભવ છે. પૃથ્વી પર જીવનનાર દરેક જીવને પાણી વગર ચાલી શકે તેમ નથી. આપણે પાણી નો બચાવવું જોઈએ પાણીનો બગાડ કરવો જોઈએ નહીં જે લોકો ને પાણી નથી મળતું તેઓ જીવન ના રોજીયા કામ મા ઘણી તકલીફો ભોગવતા હોય છે અને પાણી ન મળવા થી મૃત્યુ થાય છે. આપણે પાણીની બચત કરવી જોઈએ અને પાણી નો બગાડ કરવો જોઈએ નહીં.

પાણી બચાવો જીવન બચાવો

આધુનિક ઉપકરણોનું મહત્વ

આજ ના યુગ માં આધુનિક ઉપકરણોનું મહત્વ વધી રહ્યું છે જેમ કે કમ્પ્યુટર, ટીવી, મોબાઇલ, ટેલીફોન, આઈપેડ, ફિજ, આ બધા સાધન વગર આપણને જીવન જીવામાં ઘણી જ તકલીફો પડે છે.

કમ્પ્યુટર, ટીવી, મોબાઇલ, ટેલીફોન, આઈપેડ જેવા સાધનો વિદેશ માં રહેનાર આપણા સગાં વહાલાઓ આપણી નજીક હોય તેવો અહેસાસ થાય છે. અને ફિજ શાક, ફળ, અન્ન ને લાંબા સમય સુધી રાખવા માં મદદ કરે છે તેમજ દુધ, દહી, છાશ, પનીર, બટર જેવી ઉપયોગી વસ્તુઓ પણ મુકવા માં આવે છે. ઓવન, મિક્સર, પ્રોસેસર, જ્યુસર, સેન્ડવીચ મેકર જેવા સાધનો રસોઈઘર માં અતિશય ઉપયોગી છે. આ સાધનો થી રસોઈ બનાવવા માં સમય ની બચત પણ થાય છે. આપણા જીવન માં જે અત્યંત જરૂરી છે તેવા સાધનો જેમકે પંખો, ટ્યુબલાઇટ, એ સી, ફુલર આ બધા સાધનો વગર આપણું જીવન અધૂરું હોય તેવું લાગે આ આધુનિક ઉપકરણો આપણા જીવન માં એક મહત્વ નો ભાગ ભજવે છે. વાહનવ્યવહાર ની સેવા ઝડપી બનાવવા માં આ સાધન નો ઘણો ફાળો છે.

આધુનિક ઉપકરણ ફિજ અને ઓવન

આજ ના યુગ માં જીવન ને વધારે સરળ બનાવવા માટે વિવિધ સાધનો નો આવી રહ્યો છે. અને તેનો ઉપયોગ આપણા જીવન વધી રહ્યો છે. જેમકે ફિજ, ઓવન

ફિજ : -જે આપણા રસોડા નો એક મહત્વ નો ભાગ બની રહ્યો છે શાકભાજી ને તરોતાવાં રાખવા માં તે આપણી સહાયતા કરે છે. તેમજ ફળ ને પણ સાચવી ને રાખી શકાય છે. આજ કાલ તો ગૃહિણીઓ ટુવેર જેવા શાક પણ સ્ટોરેજ કરે છે જેથી તેઓ ને રસોઈ બનાવવા મા આસાની રહે. ઘણી સ્ત્રીઓ તો ઘણા બધા શરબત, આઈસ્ક્રીમ, ડાઠા પીણા પણ ફિજ માં મુકે છે. એટલે તો આજ ની મહિલાઓ ને ફિજ વગર બિલકુલ ચાલતુ નથી

ઓવન: એક એવું સાધન જેના થી રસોઈ ફક્ત મિનટ માં પણ થઈ શકે જે આજ ની નોકરી કરતી મહિલાઓ માટે એક વરદાન સાબિત થઈ રહ્યું છે. શાક, ભાત, દાળ વગેરે બનાવવા માં સમય લાગતો નથી ઓવન માં ઘણી બધી વાનગીઓ બની શકે છે જે વાનગી ને ચુલા પર બનાવતા ઘણો સમય થાય પણ ઓવન માં ઘણા ઓછા સમય માં બની જાય છે અને આજ ના પિઝા, બર્ગર, સેન્ડવીચ જેવી વાનગી બનાવવા મા પણ ઓછો સમય લાગે છે એટલે કહી શકાય કે ' ચપટી કામ ઓવન એનું નામ' ઓવન એ સમય બચત નું મોટા માં મોટું સાધન માનવા માં આવે છે.

આધુનિક ઉપકરણ અને હીટર

આજ નો માનવી પોતાનું જીવન આધુનિક ઉપકરણો વગર જીવી શકે તેમ નથી આજ ના યુગ માં દરેક માણસ ને મોબાઇલ, ટીવી, ફિજ, ઓવન, કમ્પ્યુટર જેવા વિવિધ ઉપકરણોની આદત થઈ ગઈ છે માનવી ના જીવન માં આ બધા સાધનો ઘણું મહત્વ ભજવી રહ્યા છે પણ હું આજે જે સાધન ની વાત કરવા નો છું તેનું નામ હીટર છે.

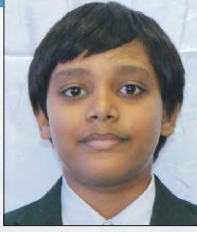

હીટર: આજ ના આ આધુનિક યુગ ના વાતાવરણ માં ઘણા બધા ફેરફાર જોવા મળે છે અને એટલે જ હવે ઠંડી નું પ્રમાણ પહેલા કરતા વધી રહ્યું છે તો આ ઠંડી થી બચવા હીટર ઘણું કામ નું સાધન સાબિત થઈ રહ્યું છે. ઠંડી નું પ્રમાણ વધી રહ્યું હોવા થી લોકો હવે હીટર પણ ઘર માં વસાવી રહ્યા છે. અને ગાડી માં ફરવા જતી વખતે પણ ઘણા લોકો ખૂબ ઠંડી હોવા થી હીટર પણ ચાલું કરે છે આમ આજ ના આ આધુનિક યુગ માં હીટર વરદાન રૂપ સાબિત થઈ રહ્યું છે.

મારી પ્રિય યાત્રા

ઉ નાળાનાં વેકેશનમંદુ જયપુર ફરવા ગયો હતો. જ્યાં અમે રાણીજીના કિલ્લા માં ફરવા ગયા હતા. આ કિલ્લામાં પુસ્તકાલય, રસોઈઘર, સોફા, પલંગ વગેરે હતાં. દિવાલ પર વાઘના ચામડાનું પુતળું લાગેલું હતું. તેમજ વાઘનું માથું પણ દિવાલ પર લટકાવેલું હતું, જે જોઈને હું તો ડરી જ ગયો હતો. બીજા દિવસે ધાબા પર બે મોર નાંચતા હતા જે ખુબજ સુંદર લાગતા હતા. આ સિવાય ત્યાં પાણીનું તળાવ હતું જેમાં ખુબ જ સુંદર માછલીઓ તેમજ દેડકાઓ પણ હતા. એ દિવસે મને ત્યાં ખુબજ મજા આવી. મેં મારા પરિવાર સાથે ખરીદી પણ કરી. આ યાત્રા મારા માટે ખુબ જ યાદગાર રહેશે.

મારા મનપસંદ નેતા

મારા મનપસંદ નેતા મધર ટેરેસા છે. મધર ટેરેસા નો જન્મ ૨ ઇઓગસ્ટ ૧૯૧૭ માં થયો હતો. એમનું સાચું નામ આગ્નેશા ગોનએક્સહે બોજાક્ષ હિયુ હતું. લેબોલીયમ ભાષ માં “ગોઝા” નો અર્થ ફુલની કળી થાય છે. આવાત ખરેખર સારી કહેવાય કારણ કે મધર ટેરેસા એવી કળી હતી જેણે નાનપણ માં ગરીબ, બેઘર અને બિમાર લોકો ને પ્રેમ ની કમી મહેસૂસ ન થવા દીધી. તેઓ નાનપણ થી જ પ્રભુ ઇસુ ના ચીઘેલા માર્ગ પર ચાલતા હતા.

મારા જીવનનું લક્ષ્ય

મારા જીવનનું લક્ષ્ય એક સફળ ફેશન ડિઝાઇનર અને નૃત્યાંગના બનવું. હું જીવનના દરેક પથે સફળ થાઉં અને એ અર્થ એ નથી કે મારે નિષ્ફળતા નથી જોતી. હું મુશ્કેલીઓનો સામનો કરીને આગળ વધવા માંગું છું. મારે મારા લક્ષ્યને પૂર્ણ કરીને મારા પરિવારની મદદ કરવી છે. આપણા સમાજમાં છોકરીઓને ઘરના કામ સોંપી દે છે અને આગળ કામ કરવા દેતાં નથી. હું પણ એક છોકરી થઈને આગળ વધીશ અને સમાજને સમજાવીશ કે છોકરીઓ પણ જીવનમાં સફળ થઈ શકે છે અને પરિવારની મદદ કરી શકે છે.

મારા જીવનનું લક્ષ્ય

મારા જીવનનું લક્ષ્ય એક સફળ માણસ બનવાનું છે. હું બાળપણથી એક હોશિયાર અને જવાબદાર વ્યક્તિ બનવાનું સપનું રાખું છું. આ એક કારણ થી લાકો મને પસંદ કરશે અને કોઈપણ જવાબદારી પુરા ભરોસા થી મને આપી શકશે. મારા મિત્રો પણ મને બહુ બધા કામ આપે છે કારણકે એ લાકો મને જવાબદાર માને છે. જ્યારે હું મોટી થઈ જઈશ ત્યારે આ બધા જ ગુણો મને મારા જીવનમાં કામ લાગશે. હું મોટી થઈ ને સી.એ. બનવા માંગું છું અને એમાટે બહુ બધી જવાબદારી લેવી પડે છે. આ જ ગુણો ને ખીલવીને હું એક સફળ સી.એ. બની શકીશ.

મારા જીવનનું લક્ષ્ય

મારા જીવનનું લક્ષ્ય એક સૈનિક બનવાનું છે. હું સૈનિક બનીને દેશની જવાબદારી સંભાળીશ. દેશ સેવા માટે આપણે ત્રણ પ્રકારનાં સૈન્યદળ હોય છે.

- ૧ જમીન દળ
- ૨ પાણી દળ અને
- ૩ વાયુ દળ

અત્યારે દેશને યુવાધનની ખુબજ જરૂર છે અને એક સિપાહી બનવા માટે ખુબજ મહેનત, દેશપ્રેમ અને ઈમાનદારી ની જરૂર પડે છે. મને જો મોકો મળે તો હું જળ દળ (નેવી) જઈશ અને દેશ માટે કામ કરીશ. સૈનિક આપણા દેશનું સન્માન છે જેના થકી જ આપણે શાંતિથી રહી શકીએ છીએ.

મારા જીવનનું લક્ષ્ય

ઈચ્છા રાખવી એ જીવનની વૃત્તિ છે.
તે કોઈ છિની ના શકે.
ભલે એ બલવાન, બુદ્ધિમાન અને ધનવાન
સામે નો નિશાન સરળ હોય
પરંતુ નિશાન જ ચારે કઠિન હોય
ત્યારે સાચી પરીક્ષા થાય.

જીવનમાં બધાએ ઈચ્છા તો રાખવી જોઈએ. જો આપણે ઈચ્છા ન રાખીએ તો જીવન નકામું છે. ઘણી વખત જો આપણે વધારે પડતી ઈચ્છા કરીએ તો એ મહત્વકાંક્ષા લાગે. આપણે આપણી ઈચ્છાઓ મહત્વકાંક્ષા ઓર્નેસિમીત રાખવી જોઈએ. સારા બાળકો સંદેવ એવો જ લક્ષ્ય છે કે એમના માતાપિતા ગર્વથી કહી શકે કે એમારા બાળક છે. એ લોકો માતાપિતા માટે એમનું જીવન પણ આપી શકે છે. મારે પણ કંઈક આપું કરવું છે જેનાથી મારા માતાપિતા ગર્વથી કહે છે કે આ મારી દિકરી છે. મારૂં બસ નાનું સપનું છે. મારે મારા જીવનમાં ડોક્ટર બનવું છે જેનાથી હું અને મારા પરિવાર ખુશ થશે. મારા માતાપિતાનું સપનું છે કે હું મોટી ડોક્ટર બનીને એક મોટી હોસ્પિટલ બંધાવું. હું પૈસા માટે નહિ પરંતુ લોકોની સેવા કરવા માંગું છું.

જો હું બનું ડોક્ટર,
બદલી દેવા વિશ્વ વને,
અને આ રોગોની વિશ્વ વને
સારી થી સારી દવા આપીશ.

દેશ અને આતંકવાદ

આજે આપણા દેશમાં જ નહિ પરંતુ આખા જગતમાં આતંકવાદ વધી રહ્યું છે. જ્યાં જુઓ ત્યાં આતંકવાદ જ મળે છે. ન્યુઝ ચેનલમાં, સમાચાર પત્રમાં, રેડિયો પર જ્યાં જુઓ ત્યાં ખસ આતંકવાદ જ છે. આતંકવાદના કારણે ન જાણે કેટલા માસુમોની જાન રોજે જતી હશે. કોઈ મોટી હસ્તીએ કીધું છે કે,

“મને નથી ખબર કે વિન્ વયુક્સ અને ૨ પછી વિન્ વયુક્સેવું હશે? પછપેટલી જરૂર ખબર છે કે વિન્ વયુક્સ લાકડી અને પત્થરોથી જ થશે.”

આનાથી આપણે અનુમાન લગાવી શકીએ છે કે વિન્ વયુક્સ કેટલું ઘાતક હશે.. અને કદાચ એમાં આપણો દેશ પણ શામિલ હોય.

ભારત માટે આતંકવાદ એક બહુ જ ગંભીર વિષય છે. જેના થકી માર્ગ ભાર જેણે ક્યારેય પોતાના દુશ્મનોને રાવવા કે આક્રમણ કરવા ક્યારેય હથિયાર નથી ઊઠાવ્યાં, ફક્ત પોતાના રક્ષણ માટે જ દુશ્મનોને રાવ્યાં છે, તે જ ભારત આજે પાકિસ્તાન વિરુદ્ધ ઊભું છે.

આતંકવાદ આજે આખા જગતનો ગંભીર વિષય બની ગયો છે. તેને હવે આપણે પોતે જ રોકી શકીએ છીએ અને યશિ વ પટેલ, ૭ -૨

કિલ્લાનો ઇતિહાસ

આજે હું તમને ભારતના અમૂલ્ય રતન વિશે વાત કરીશ. ભારત દેશની શાન તેના કિલ્લાઓ છે. હું આજે તમને રાજસ્થાનના કુમ્ભલગઢ કિલ્લાની વાત કરું તો તેનું નિર્માણ કુમ્ભ રાજાએ કર્યું હતું. આ કિલ્લાની વિશેષ તમને છે કે આ કિલ્લાની દિવાલ વિશ્વની બીજા નંબરની દિવાલ છે જે ૩ ફીકલોમીટર લાંબી છે.

રાજસ્થાનના બીજા કિલ્લાની વાત કરું તો મહેરાનગઢનો કિલ્લા છે જે ૫૦૦૦ વર્ષનો છે. અને સૌથી મોટો છે. રાવજોદા એ બનાવ્યો હતો. આ કિલ્લામાં સાત દરવાજા છે. જે રાજાની જીત પર ખુલે છે.

ભારતનો સૌથી મોટો અને નામાર્કિત કિલ્લો એ છે દિલ્લીનો લાલ કિલ્લો જેને લાલ પથ્થરથી બનાવવામાં આવ્યો છે. એટલે જ તે લાલ કિલ્લાનાં નામથી ઓળખાય છે એટલે જ કહેવાય છે કે કિલ્લો આપણા ઇતિહાસની ઘરોહર છે.

માં તે માં

આપણા માટે પ્રેમનો સાગર અને કરૂણાનો દરિયો એટલે માં. માત શબ્દ જોલતા જ પ્રેમની અનુભૂતિ થયા છે. મા એટલે પ્રેમનો સાગર, લાગણીની લહેર અને કરૂણાની મૂર્તિ. આપણા મનમાં ઘણા વિચારો આવે જ્યારે મા શબ્દ જો ઉલ્લેખાય છે. મા શબ્દ જોમનો અદ્ભૂત ભાવ પ્રકટ કરે છે. આપણી માં પ્રત્યેની લાગણી, ચિંતા એ એક અનોખો અહેસાસ છે. મા પ્રત્યે પ્રેમ હોય છે ઘૃ જાણી બીજી મા એટલે કે આપણી પૃથ્વીમાપણા માટે ઘણા કષ્ટ ઉઠાવે. અને આપણી જીવન જરૂરીયાત વસ્તુઓ પૂર્ણ પાડે છે. ખરેખર પૃથ્વીમાવ ઘણું બધું કરે છે. અંતમાં હું એટલું જ કહીશ

સ્વચ્છ ભારત સુંદર ભારત

દરેક વ્યક્તિનું સપનું હોય છે કે એનું ઘર એકદમ સુંદર હોય પણ એ સુંદર ક્યારે હોય પણ એ સુંદર ક્યારે લાગે? જ્યારે એ સ્વચ્છ હોય સારી વાત છે સુંદરતાની સાથે સ્વચ્છતા પણ જરૂરી છે. જેથી દરેક વ્યક્તિ સ્વચ્છ રહેવા માટે પોતાનું ઘર સ્વચ્છ રાખે છે. પરંતુ જો વિચાર કરીએ તો જાણીએ કે આપણે ઘર કરતા વધારે બહાર રહીએ છીએ જ્યાં વધારે રહીએ છીએ ત્યાં સ્વચ્છતાને મહત્વ આપીએ અને આપણી પૃથ્વીને સુધારીએ.

આપણા પ્રધાનમંત્રી શ્રી નરેન્દ્ર મોદી સાહેબે સ્વચ્છતા અભિયાનની શરૂઆત કરી આ અભિયાન આપણા ઊંચા જવાબદારી માટે છે. આજુ-બાજુના વાતાવરણને સ્વચ્છ રાખો અને બીમારીથી દૂર રહો.

નોટબંધી

નોટબંધી ૮ ડિસેમ્બર એ થઈ હતી આ નિર્ણયથી આખા ભારતમાં હાહાકાર મચી ગયો. એકદમ સરકારનો આ નિર્ણય સાંભળી જનતા સ્તબ્ધ થઈ ગઈ. પણ આતો કાળુનાણું બંધ કરવા માટેના પ્રયાસ હતા તેમણે જનતાને એ પણ કહ્યું કે તેમને તકલીફો ઘણી જ પડશે. પણ કાળુનાણું આપણા દેશમાંથી દૂર થઈ જશે. અને આમ જનતા એ પૈસા માટે પણ ઘણી તકલીફો પેઠી પણ મોટી સરકારના આ નિર્ણયને માન આપ્યું. ઘણા લોકો ૧૫ કલાક લાઇનમાં ઊભા રહી પૈસા મેળવતા પણ તેમના નિર્ણયને તો લોકો લાઇનમાં ઊભા રહી તેમની પ્રશંસા કરતા હતા.

તેમાંના આ નિર્ણયથી ઘણું કાળુનાણું બહાર આવ્યું અને ઘણી નકલી નોટ પણ બંધ થઈ ગઈ. ખરેખર મને તેમનો આ નિર્ણય ખૂબ ગમ્યો અને આપણા દેશને આતંકવાદ અને કાળાઘનને દૂર કરવાનો આ સરાહાનિય ઉપાય છે.

"Friends Role in Life"

We are living in technological era today, but still we need someone to support/pamper ourselves as Kiths & Kins play crucial role in our lives beside the technology is supporting in all manner.

We always needs friends as technologies has influenced communication and relations negatively more than positive. That is right that people like to live in today's world means we all wanted to be at different parts of the world where we can reach each other using communication at any corner of world with our loved ones/Friends in moment only. I believe this doesn't allow to take control over humans, thus friends play a pivotal role in our lives.

Being a Social Animals it is always better to have some/lot of friends in life. Sometimes we have to rely on our close friends for some important decisions such as private issues or even financial issues where the gadgets (technologies) fails since the human lives exists... in overall universe. We can always enhance our knowledge, experience and maturity by sharing or exchanging our opinions with friends directly. We can count friends as our family members and can count them for reliability. A Close friend is always stand by our side for any trouble, matter or even in our happiness to solve or share. Thus it's always good to having at least friend(s).

I would say by putting pen down it is/will never possible to change/choose our family members or relatives but friends are the one who we can choose ourselves to be with to share with to live with to care with to play with and many more things what we never think and just we do often. So keep family as friends and friends as family is always elegant.

Absolute Happiness

What is the purpose of life? It is to become happy. Whatever country or society people live in, they all have the same deep desire: to become happy.

Yes, there are few ideals as difficult to grasp as that of happiness. In our daily life we constantly experience happiness and unhappiness, but we are still quite ignorant as to what happiness really is.

A young friend of mine once spent a long time trying to work out what happiness was. When she first thought of happiness, she saw it as a matter of becoming financially secure or getting married. But looking at friends who were married, she realized that marriage didn't necessarily guarantee happiness.

Gradually, she realized that the secret of happiness lay in building a strong inner self that no trial or hardship could ruin. She saw that happiness for anyone- man or woman- does not come simply from having a formal education, from wealth or from marriage. It begins with having the strength to confront and conquer one's own weaknesses. Only then does it become possible to lead a truly happy life.

Happiness is not a life without problems, but rather the strength to overcome the problems that come our way. There is no such thing as a problem- free life; difficulties are unavoidable. But how we experience and react to our problems depends on us. To win over our fear and challenges, building a strong inner self gives you absolute happiness!

"Significance of Music in Child Development"

"The fact that Children can make beautiful music is less Significant than the fact that music can make a child grow beautifully."

Research has found that learning music facilitates learning other subjects and enhances skills that children inevitably use in other areas. A music-rich experience for children of singing, listening and moving is really bringing a very serious benefit to children as they progress into more formal learning. Student involves more than the voice or fingers playing an instrument; a child learning about music has to tap unto multiple skill sets, often simultaneously. For instance, people use their ears and eyes, as well as large and small muscles. Learning supports all learning. It makes them smarter and creative. Moreover it's a very integrating, Stimulating pastime or activity. When we look at children age's two to nine, one of the breakthroughs in that area is music's benefit for language development, which is very important at that Stage. Growing up in a Musically rich environment is often advantageous for children's language development. Linking familiar songs to new information can also help imprint information on young minds. This relationship between music and language development is also socially advantageous to young children. Research indicates the brain of a musician, even a young one, works differently than that of a non- musician.

"There's some good neuroscience research that children involved in music have larger growth of neural activity than people not in music training. When anyone is a musician and is playing an instrument, he has to be using more of his brain. Definitely more there will be use of brain more the development of brain will be. In one of the research it was found changes in the brain images of children who underwent 15 months of weekly music instruction and practice .The students in the study who received music instruction had improved sound discrimination and fine motor tasks, and brain imaging showed changes to the networks in the brain associated with those abilities. At last but not the least music plays

Transcendent Meditation

Healthy mind leads to healthy body. Nowadays we see that people of all age group are under stress.

Why? Because we have made our life so busy unnecessarily just because others are in the race we should also do he same and because of that rat race we are not giving time to ourselves and all these are the causes of stress, anxiety, blood pressure ,hypertension and unhealthy body.

I am going to tell you to start your day with Transcendental Meditation(TM). The late Maharishi Mahesh Yogi derived Transcendental Meditation(TM) from ancient vedic tradition of India. It takes just 15-20 minutes ,twice a day, sitting comfortably with the eyes closed. Anyone can do it , let children also practise this from very young age that will help them to build their concentration and lots of other benefits like energetic ,stress free, happy and healthy life .

Tm involves no concentration, contemplation, monitoring thoughts or control of your mind. It is effortless and enjoyable and can be practise sitting comfortably in a chair with a close eyes. It allows your mind to effortlessly settle inward to a natural state of pure awareness and restful alertness.

By doing regular TM, your life will be much more enjoyable and balanced. Children will look happy and energetic they will be free from the stress and anxiety ,mood swings and hypertension. Many a times we feel that we are surrounded by many problems but we are not getting the solution why is this happening do you know? because we have lost confidence in ourselves just by not giving quality time to our mind and soul. By sitting peacefully but putting our mobile phone far away, (which we have made our life line because of social media) lets think where we are unable to meet the challenges and where we are doing wrong and why we are not finding the solution of some worries or problem. I am very sure that you will get the answer from your inner soul which will bring a peace of mind and solve all your worries and problems. Remember

HAPPINESS AND SUFFERING ONLY EXIST WITHIN THE MIND.....SO LET'S DO TM AND BEHAPPY

Hindi Teaching Workshop

DPS Tapi teachers attended a Hindi Workshop conducted by Dr. Pradeep Kumar Jain on 12 August 2016 on new teaching methodologies of phonics, language skills, analysis and thinking. Our teachers were appreciated for the advanced teaching learning practices followed at DPS Tapi.

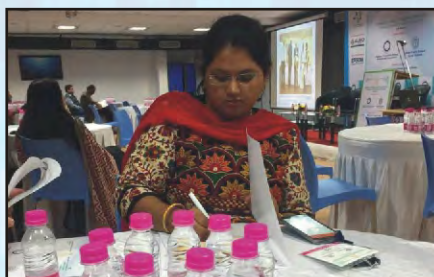

English Enrichment

Ms Meetal Jariwala and Ms Charu Soni of DPS Tapi participated in the Enrichment Programme in English conducted by DPS Society's HRD Centre at DPS Rajkoat from 19-21 September 2016.

Principal's Summit

Principal, Dr. Sanjukta Sivakumar and Ms. Nandita Pandey participated in Regional Summit of School Principals on 'Principalship in the New Millennium Challenges' organized jointly by ICTRC and Delhi Public School Surat on 31 January 2017 at Delhi Public School.

Library Workshop

Ms. Seema Prasad of DPS Tapi participated in the Workshop on Vital Role of Library in School Education conducted by DPS Society's HRD Centre at DPS Dwarka, New Delhi from 11-13 January 2017.

Shuttle India Programme

DPS Tapi staff members Mr. Murti Naiker and Ms. Pinaz Bacha attended Shuttle India Programme under the guidance of Mr. Pradeep Kumar, the Head Coach of Sri Lankan Badminton. This training was organized by Badminton Association of India and hoisted by Gujarat Badminton Association from 17-19 February 2017 at Sardar Patel Badminton Hall in ONGC Nagar Surat.

Equilibrium between Sports and Study

Mr. Murti Naiker attended Physical Education Teachers Conclave 2017 from 24-25 March 2017 on 'Equilibrium between Sports and Study' at DPS-HRD Centre New Delhi. Many great sports personalities, like Mr. Raja Randhir Singh, Olympian and Life Vice President OCA, Ms. Neha Agarwal, Dipsite and Olympian, and Mr. Kukoo Walia, Secretary General, Nehru Hockey Tournament, international hockey umpire and TV commentator, shared their sporting experience and addressed the government's role in promoting in school.

A Great Teacher

A great teacher will keep the students wanting to come to school just to see what interesting things they will explore and discover each day. A great teacher will devise ways to give ample opportunities to students to enhance their skills and knowledge. The mind, as Plutarch rightly said, is not a vessel to be filled, but a fire to be kindled. Real learning requires hands-on experience of doing, not merely listening or observing.

Even teachers of very young learners should motivate their students to work independently on the given task. Thus, they learn through problem-solving. All schools in the world should provide their students with the platform to learn independently by developing problem-solving strategies

Poetry Answers How To Live

Literature is an artistic expression of the best that is known and thought in the world. This experience of literature and especially of poetry was missing from my life when as a student, I focused more on my grades than on appreciating its finer aspects. But teaching poetry is an entirely different experience. I am engrossed in every poem I read. The elementary opposition between the human passions of love and hatred, joy and sorrow, fear and faith, depicted in poetry stimulate the intellectual, emotional, imaginative and aesthetic aspects of life, with lasting impact. Therefore, I recommend that my students read and appreciate different poems.

In *Solitary Reaper*, Wordsworth's solitary highland lass:

*"Reaping and singing by herself; ...
Alone she cuts and binds the grain,
And sings a melancholy strain;
O listen! for the Vale profound
Is overflowing with the sound"*

is an illustration of the beauty of self-sufficiency, alone, but enjoying every moment of work and life. Work is worship and there is no substitute for hard work.

The poet also deals with the importance of forgiveness in relationships in *Lord Ullin's Daughter*, as Lord Ullin cries out, too late after his eloping daughter has drowned with her lover:

*"Come back! Come back" he cried in grief...
my daughter, I will forgive your highland chief.
T'was vain: the water went wild
And he was left lamenting"*

In life, we should forgive others as we expect to be forgiven ourselves, because 'to err is human, to forgive divine'

In *The Road Not Taken*, Robert Frost depicts the courage and confidence it takes to choose an uncommon path to achieve something far greater than others:

*"I shall be telling with a sigh
Somewhere ages and ages hence;
Two roads diverged in a wood,
and...I took the one less travelled by,
and that has made all the difference"*

I hope our students will have the courage to walk without repining on the path their heart dictates.

Poetry has taught me, as a teacher, what I would like to teach my students in turn. Celebrate every moment of life, enjoy the work you do, learn to love and forgive, and above all, do not be afraid to seek out your life's destination.

Learning for Life through Colours

As an art teacher, I make students aware of how colours convert mere existence into vibrant life. Various moods and emotions are involved in colours. They, therefore, teach us to appreciate the variegated spice of life. Colours are life, and I try to instill this concept in my students.

To begin a lesson, I usually create a situation where students play with colours to create a mood. Students then use it to recreate their own moods and emotions. Once they do it themselves, they feel a sense of achievement. They learn to appreciate themselves. Thereafter, wherever they see colours, a story, an idea, emerges from what their eyes take in.

Teacher as Learner

Teaching at DPS Tapi has enabled me to put everything I learned about education and my subject, social sciences, into action. I also explored areas beyond classroom teaching, like guiding and counseling students, implementing project-based learning, multiple intelligences, and peer tutoring. I tried to make History more attention-grabbing with different technology-based activities. DPS Tapi is a perfect example of technology with education. I feel proud to join the ranks of tech-savvy teachers.

I had many innovative learning opportunities at DPS Tapi, one being conducting MUN (Model United Nations). It was my first experience of conducting MUN and I learned many things from my students and colleagues during this event. For instance, I learned to be flexible while planning, to allow for the varied learning paces of students.

This is the beginning, and I hope to continue learning with time.

Experiential Learning

Every school should have a vegetable patch tended by the students. This vegetable garden then becomes a wonderful way to reconnect students with the natural world and the organic source of their food and to teach them valuable agricultural life skills integrated with mathematics, science, and good dietary habits, and to instill in them personal and social responsibility. Students who grow vegetables usually enjoy eating them without fuss.

This is what we have found at DPS Tapi, after we started vegetable gardening as a Class VEVS project. The students became sensitised towards farmers as they researched soil types, climate, seasonal vegetables and then tilled the ground, sowed seeds, weeded, watered, manured and finally harvested their patch.

The students were energetic and ready at all stages of the challenges were rewarded with bumper crops of bottle gourd, bitter gourd, ridge gourd, spinach, lady's finger, carrot, and radish.

They maintained farming logs of different stages of growth, with varied shapes, textures, sizes, and colours of the plants. They studied labels and selected organic pesticides.

With the very first harvest, excited students decided to draw up lotteries in the names of the housekeeping and security staff at school, ensuring that every helper received enough vegetables for one meal. When Varsha didi won the lottery, she lovingly prepared bottle gourd halwa for the students that the little farmers relished greatly and thanked her. Later, I also gave them a surprise by cooking and serving them a vegetable dish, which they savoured.

This year-long activity has helped students by encouraging them to focus, be patient, cooperate as a team, and solve problems. They have gained self-confidence and a sense of responsibility, along with new skills and knowledge in food growing, soon-to-be-vital for the 21st century. The students have also become more fit and healthy as they spend more active time outdoors and have consciously started choosing healthy foods over junk food. Some students have even begun gardening at home. I hope that this energy and interest continues throughout their life.

Generation Gap

We all are aware of the phrase 'generation gap', but we do not think much about its causes and consequences.

Teenagers today have to be smart to face this tough competitive world. They have developed their own ideas, plans, strategies and objectives for their future. They are technology savvy and decision-making skills, but even with all these advantages, some of them have lost touch with parents who are unable to keep up with their world. This generation has now become distant and aloof, the intimacy they shared with their parents as children, has vanished.

There are two reasons for this. Being eager to explore new things and find answers to their many queries, they resort to peers or their lifeline, the Internet. Parents have lost ground as authority figures and knowledge sources. Parents too, are responsible for this isolation, when they either do not have time for their children, or are still of the traditional outdated mindset that prevents them building friendly relations with their children. Too many restrictive rules and the lack of understanding, flexibility and respect from parents have pushed the children into isolation.

The big challenge for such parents now, is now to make a conscious choice between leaving their children to the evils of Internet or unmonitored peer pressure or to create a cordial, genial atmosphere at home to help them resolve queries and prepare them for real life situations. The task may be daunting for parents with a busy schedule, but nonetheless, too important for neglect. Children need quality time with their parents.

So, in conclusion, the generation gap can only be bridged with parental love, care and faith.

Permaneo Vox

A recent question to occupy the public mind space is the safety of school children. As I am primarily responsible for ensuring safety on the school campus, my time spent worrying about it leads me to a factual observation. The statistics show that students are most often at risk from each other. In the years since our inception, the infirmary records frequently show instances of students either deliberately or carelessly inflicting minor injuries on each other. The teacher's role in the few instances when hostility has not been detected in time for preemptive action is to break up the scuffle, provide first aid and console the victim, counsel the aggressor and finally, inform the parents of both. Recently, teachers have shared that a lot of their teaching time is diverted into continual monitoring of student interactions and this is stressful. From enjoying quality teaching time with students teachers are now wary about what might unexpectedly erupt in the classroom, and whether, despite doing everything to contain a situation, they might still be blamed by the authorities and the parents. Given this almost daily scenario, they merely roll their eyes at 'real' emergencies like fire or earthquake for which we prepare with regular school drills.

We inhabit a universe that does not guarantee preservation of human life or limb at will. Our petty human effort to counter its harshness, however, should focus not only on natural disasters but also try to detect the enemy within. The quick flaring tempers and casual impulsive violence, both verbal and physical, of our young school children makes me wonder whether we are evolving into a more dangerous species with every generation? Some parents I have met try to pin the blame for their child's misbehaviour on school, friends or the Internet, and obviously, children do learn abusive behaviour from their environment, both human and digital. But that is not the point. It is more psychologically disturbing that many children seem to enjoy bullying, show no moral restraint, nor even feel any guilt. They are not afraid of authority figures like teachers or the principal. When I ask them whether they are satisfied with the outcome of their impulsive actions, some shake their heads, genuinely regretting losing their temper. These children are fallibly human. A few others, however, admit with equal honesty, that they do not regret hurting someone. They only dislike the consequent fuss and trouble they face about it.

So, how do we reason with youngsters with no recognition of our civilised values? These children seem to perpetually see themselves as aggressors, dominators, controllers and everyone weaker than themselves as potential victims. When teachers do not punish violence with anger, they misread this as weakness and try to indirectly bully the teacher by misrepresenting facts at home. Parents are thus manipulated by their children's lies into aggressiveness towards teachers. Or maybe, we adults are instinctive bullies, just waiting for an opportunity. My current focus, however, is our children.

Now, at this point, parents might conclude that the best way out of the situation is to avoid schools with students like this. Let me clarify that increasingly, like a horrifying alien takeover, such children are everywhere. In schools, in your housing societies, and maybe, unknown to you, inside your own homes! It's a chilling real life situation, where even a qualified counsellor may fail to correct a mindset that believes everything right if done by 'self' and nothing wrong that is done to 'others'. I have seen cold unfeeling eyes looking out of sweet young faces, and this is the enemy within that we must confront and not refuse to recognise or deal with. *Tomorrow, these same children will be out in the world as potential spouses, parents, bosses or employees, with the willpower to perpetuate violence in all their relationships.*

I do not offer any instant, direct, sure solution. But I believe we adults are not helping the situation with our incessant competitive focus on life. We inadvertently teach children to be afraid of life as we urge them to be more competitive. We also lower their self-esteem by our criticism when they fail to perform to our expectations in this fostered competition. We compare our children with their peers and then

judge them. We claim to be aware of the evils of judging or comparing but that does not stop us from belittling our children and blinding them to whatever positive qualities that they do possess. We possibly do the same to ourselves. We compete with others, ceaselessly judge ourselves in comparison with others and overlook our positive talents and qualities in doing so. This process is self destructive, and it makes us see others as competitors for scarce resources and in general, induces a fear of life. We disguise this fear, even from ourselves, by putting on a quellingly aggressive attitude. Our children watch us and acquire a corresponding framework of values. Only, unlike us, they do not yet know how to dissimulate and pretend to be otherwise. This competitive world is reflected in our educational hierarchy topped by maths and science, whereby art, music, dance and sports are relegated to lesser importance. This is not some old fashioned, bygone belief, but a very well disguised driving force in a smoothly hypocritical world.

Science is equivalent to knowledge. Art teaches us to look at life critically and objectively. Sports require team spirit as well as focus and discipline. Introduce unhealthy competition and we have cheating and manipulation in these fields as well. Cooperation within the community and competition with others has made certain human groups dominant in our history. The highest point of any historical civilisation is judged by its creative and scientific achievements. But dare we use this rating scale on our modern world? If we do, then in spite of phenomenal technological and scientific strides forward, our news headlines highlight a world dominated by power play, destructive threats and blackmail. We are in a singularly inappropriate position to point a moral finger at our children. They merely hold the mirror up to the 'civilised' adult world.

We may not feel personally implicated in the faults of wishing to compete, dominate, control and hurt others, but I would question that. Let's learn to see ourselves through the eyes of our dependant family members, children, friends, servants and employees for the objective truth. Then, we may be better equipped for guiding the lives entrusted to us by society. We must realise as parents, that our children belong to human society, not just to us. We are responsible for the social role they will play one day. If as adults ourselves, we are able to accept both our limitations and our strengths with humility (an old, unfashionable, forgotten value), then we can come to terms with our own existence. We will not then need to constantly compare and judge maths versus music, 99.9% versus 100%, my child versus the champion, success versus subsistence, assets versus losses, angst versus peace, and so on, endlessly. After that, social violence against the weak may reduce and parenting, improve. Children can go back to being scared of the outer dark and teachers be free again to enjoy teaching maths, music, and how to conquer your fear of the unknown.
